

3rd INTERNATIONAL NEPS CONFERENCE

November 22-23, 2018 | LifBi Bamberg

CALL FOR PAPERS

The National Educational Panel Study (NEPS) provides a research data infrastructure with rich longitudinal and context information for respondents of six ongoing panel cohorts and two finalized school reform studies. The database particularly facilitates empirical analyses of competence development, educational processes, educational decisions, and returns to education in formal, nonformal, and informal contexts. For more information, please see www.neps-data.de.

The series of NEPS Conferences brings together scientists from different disciplines and at different stages of their academic career to discuss ongoing projects and current findings in educational research. Empirical contributions on all NEPS-related topics are welcome, including methodological issues and international comparisons. Conference language is English.

The focus of this year's conference is on the intergenerational transmission of inequalities with a keynote lecture by Dr. Sebastian T. Braun (University of St. Andrews, UK). The program features symposia, individual paper presentations, and a poster session. An award ceremony for the best NEPS publication and a round table with staff of the Research Data Center complete the agenda.

Abstract Submission: Please submit your abstract of up to 300 words for a symposium, paper or poster presentation no later than **August 31, 2018** by e-mail to:

neps-conference@lifbi.de

Proposals shall contain a title and abstract, the name and institutional affiliation of the presenter(s), and the preferred kind of presentation.

After passing through a review process all authors will receive a notification of acceptance by **September 30, 2018**.

Registration: Registration via online form opens **August 31, 2018**.

Financing: There is no conference fee to pay. Participants are asked to cover their own accommodation and travel costs.

Conference Venue: Leibniz Institute for Educational Trajectories (LifBi)
Wilhelmsplatz 3, 96047 Bamberg, Germany

Local Organizers: Dr. Daniel Fuß & Eva Akins
