1 Preliminary Remarks & Reading Aid

In this codebook all 8 data files from the NEPScomp (Version 2.0.0, Onsite; doi:10.5157/NEPScomp:SUF:2.0.0) **of Starting Cohort 5** with a total of 3953 variables are documented. Each chapter starts with an overwiew of all variables in a file – in the order of their appearance in the file. The variable names are linked to the information on the respective variable.

This information – if available – is presented:

1. question (bold), partly with different wording alternatives with the corresponding conditions and clickable question numbers; closer definition of the question after delimiter ▹
2. variable name (as in data file)
3. variable label from data file
4. reference to the questionnaire (as described in the data manual)
5. question number in instrument after a colon
6. interview instructions inside «…»
7. table with frequencies
    a) column 1: value label
    b) column 2: value
    c) column 3: absolute frequencies (#)
    d) column 4-…: absolute frequencies by wave (if possible)
    e) missing values at the end of table and slanted

The length of the table has been technically limited; where required the number of removed lines is reported.

tg68001 Teacher self-efficacy: teaching subject content

You are currently studying to become a teacher or are planning to start a master's degree program in teaching in the near future. I would now like to talk about this course of study. In the following, I will read to you some statements that refer to work-related activities of teachers. For each statement, please tell me if it does not apply to you, if it does rather not apply, if it does rather apply, or if it does apply to you. I know that I am able to successfully teach all relevant subject content to even the most difficult students. «Repeat the answer options if necessary. In case of indication that no/too few classes have been taught, ask the respondent to put him/herself in the role of the teacher. Select BUTTON 'dna/no Referendariat/no teaching degree course' only if the TP states that he/she is not studying/has not studied for a teaching degree or is not in a Referendariat [period as a trainee teacher] or is not working as a teacher. If the TP has only interrupted his or her occupation as a teacher, please answer the questions anyway.»

t531261 Indirect financial benefits from others

We are also interested in whether you receive indirect financial benefits from other people. Such benefits are, for example, if your parents or your partner transfer the rent directly to the landlord, pay for groceries, pay for the current expenses for a car or the health insurance. How much do you receive on average !!per month!! during the current semester as indirect financial benefits from others? «If the target person can't specify an exact amount, ask him/her to estimate the amount. If the target person doesn't receive any indirect financial benefits, please select button 'no indirect benefits'.»

t724403 Post-recording final grade

In one of our last telefon interview, you told us that you have completed a study in <24101P12(abnotendmPRE/abnotendjPRE)>, with the qualification <h_abnotabzsPRE>. Unfortunately, you couldn't name us the final grade back then, because you haven't received your degree certificate yet. Can you tell me with what final grade - or score number - you have competed your study?

t741001 Size of household

I now have a few questions about your household. How many people are currently living in one household with you - including yourself and any children? «If anything is unclear: By this, we mean all the people who live with you and manage the household with you. Note on shared accommodation: Categorization is often more difficult particularly when it comes to shared accommodation. One key issue for determining whether or not shared accommodation constitutes a single household is its joint management. Criteria for this are, e.g. one common purse from which the necessary items for everyday life are paid (rent, telephone and Internet costs, food, washing machine, vacuum cleaner, etc.) !!and!! joint housekeeping (shopping, cleaning, cooking, doing laundry either individually on a task-sharing basis or together, and eating together). Ultimately, the opinion of the respondents is decisive for determining whether the shared accommodation also constitutes shared household management. If student respondents live in more than one household: Please refer to the household in which you reside most of the time during the semester. If respondents who are no longer students live in more than one household: Please refer to the household at your principal place of residence.»

tg64311 Referendariat: support fellow trainee teachers, materials

And now we come to your fellow trainee teachers. How do you find the support by your fellow trainee teachers? For each statement, please state again whether it does not apply to you, hardly applies to you, partially applies to you or applies to you completely. I regularly exchange materials with the other trainee teachers. «If TP asks who is meant by other trainee teachers: This refers to the persons TP is/was in the study seminar with. If TP rates the fellow trainee teachers differently: Please give your overall impression across all co-trainees.»

tg64312 Referendariat: support fellow trainee teachers, getting suggestions

I have already been given good suggestions about the approach to the lesson by the other trainee teachers. «If TP asks who is meant by other trainee teachers: This refers to the persons TP is/was in the study seminar with. If TP rates the fellow trainee teachers differently: Please give your overall impression across all co-trainees. Repeat the answer options if necessary.»

tg64313 Referendariat: support fellow trainee teachers, help with lesson

tg68001 Teacher self-efficacy: teaching subject content

You are currently studying to become a teacher or are planning to start a master's degree program in teaching in the near future. I would now like to talk about this course of study. In the following, I will read to you some statements that refer to work-related activities of teachers. For each statement, please tell me if it does not apply to you, if it does rather not apply, if it does rather apply, or if it does apply to you. I know that I am able to successfully teach all relevant subject content to even the most difficult students. «Repeat the answer options if necessary. In case of indication that no/too few classes have been taught, ask the respondent to put him/herself in the role of the teacher. Select BUTTON 'dna/no Referendariat/no teaching degree course' only if the TP states that he/she is not studying/has not studied for a teaching degree or is not in a Referendariat [period as a trainee teacher] or is not working as a teacher. If the TP has only interrupted his or her occupation as a teacher, please answer the questions anyway.»
