# 1 Overview and Reading Aid

The material in this document is based on the field versions and programming templates, which have been extended by variable names and values. The variable names used in these generated version are the same as those found in the data files. The field version can be found in the document “Startkohorte 1: Neugeborene (SC1), Welle 10, Erhebungsinstrumente (Feldversion)” (only available in German). For working with the data, it is recommended to use this SUF version of the survey instruments over the field version. The material corresponds to version 10.0.0 of the Scientific Use File (SUF) for the Starting Cohort 1 (SC1) (doi:10.5157/NEPS:SC1:10.0.0). Figure 1 describes the possible components of the documented survey.

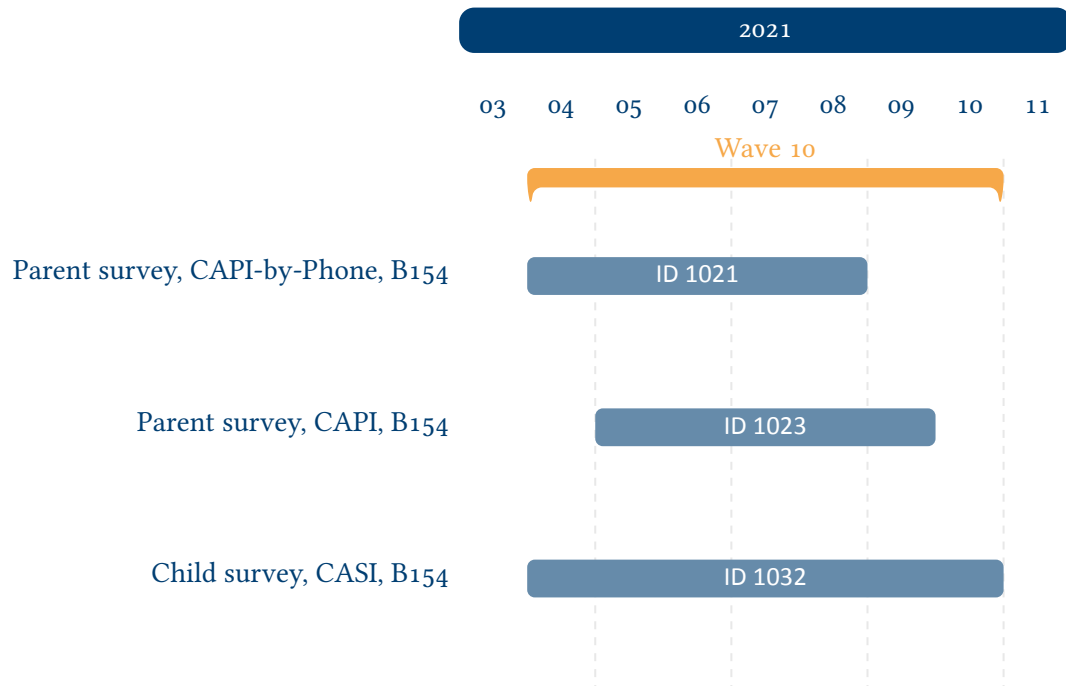

**Figure 1:** Reading aid for survey tools

If available, this information includes the following:

1. Questions (bold): Text, which is a) handed out in the form of PAPI or online surveys and b) read out during CATI or CAPI surveys by an interviewer (sometimes with variations depending on specific conditions).
2. Question numbers in the survey tool (bold)
3. Instructions (italic, shaded in yellow) are considered as a) guidelines for PAPI or online surveys and b) instructions for the interviewer for CATI or CAPI surveys, in order to ask the questions in a correct way and react appropriately to inquiries. These are not read out by the interviewer.
4. Values labels
5. Missing values (italic)
6. Output filters (italic)

7. Automatic values (*italic*): Under certain conditions, these are necessary, e.g. when coding auxiliary variables.
8. Variables
  - a) Variable name in SUF-data set (variable names indicated in brackets are not part of the SUF)
  - b) Variable label: This is a short form of the description of the item.
  - c) Data set, in which the variable(s) can be found.

**Figure 2:** Survey of Starting Cohort 1 and IDs of the instruments in wave 10

Figure 2 provides an overview of the field time of the tenth main survey. The survey was conducted between April and October 2021 using computer-assisted personal interviews (CAPI) and telephone interviews (CAPI-by-Phone) with parents. Furthermore, three competence tests (picture puzzle, science and technology game, and signs puzzle) were conducted with the children using technology-based testing (TBT) and a self-administered survey of the children (CASI) was conducted on a tablet PC. If no visit to the household was possible or wished, the families received an invitation to the online child survey (CAWI) following the parent interview.

# 2 Parent survey, CAPI-by-Phone (ID 1021)

## 08 Language Language of origin 2021 11 26

**36001 Now let's move on to the language of your family. First of all, let's talk about your mother tongue. What language did you learn as a child in your family?**

Please select from list! If more than two mother tongues: "Please indicate the mother tongue you understand better." The second mother tongue will be recorded in the next question. If respondent is confused about the question, answer: We would like to check this information again in order to verify the already recorded data.

**45 SC1 EWE scientific use and transmission 2021 11 26**

**32710 Finally, one more aspect. In order to ensure the continuity of this particular study in the future, we would like to ask you today for permission to transfer your address and contact data to the Leibniz Institute for Educational Trajectories. Address and contact data are first and last names as well as home addresses, telephone numbers, and e-mail addresses that you have provided to us. The following also applies to the Leibniz Institute for Educational Trajectories: Your data will be stored in a secure environment and used in the same way as by infas to contact you. Your consent to the transfer is, of course, voluntary. You can withdraw your consent at any time. You will find the contact details in the cover letter you received in advance. Do you agree that your address and contact data can be transmitted to the Leibniz Institute for Educational Trajectories?**

*In case of questions regarding data protection: "The information from the data protection sheet you have already received continues to apply. For the time being, your address and contact data will remain with infas. You will be informed again for transmission." For questions regarding withdrawal: "Please contact Dr. Angela Prussog-Wagner at infas at the free telephone number 0800/664 7436 during normal office hours if you have any questions."*

yes [1]	<input type="checkbox"/>
no [2]	<input type="checkbox"/>

*goto 32711*

Variables		
ph90001	Informed consent for the transmission of address and contact data	pParent

**32711** In order to understand educational and life paths even better, we would like to use your address and contact data for scientific purposes. We would like to use this data, for example, to examine whether people are willing to travel longer distances for their vocational training or further education. For this purpose, your addresses are converted into geocoordinates in order to calculate distances. From the first names, for example, we can see whether there are also clusters of people with the same first name in certain occupational groups. The information resulting from this data cannot be used to draw any conclusions about your person. The address and contact data will not be passed on to third parties. Your consent to scientific use is, of course, voluntary. You can withdraw your consent at any time. You will find the contact details in the cover letter you received in advance. Do you agree that your address and contact data may be used for scientific purposes?

*In case of questions regarding data protection: "The information from the data protection sheet you received continues to apply. For the time being, your address and contact data will remain with infas. You will be informed again for transmission." For questions about withdrawal: " Please contact Dr. Angela Prussog-Wagner at infas at the free phone number 0800/664 7436 during normal office hours if you have any questions." For the question "What is a geocoordinate?": "A geocoordinate consists of two numbers, a longitude and a latitude, and thus describes a geographical point on a map. For example, the geocoordinate of the Brandenburg Gate is approximately 51 degrees north latitude and 13 degrees east longitude." When asked "What could be researched with contact information?" "First names, for example, are grouped by their regional name origin. The resulting groups are made available to researchers for analysis. The first names themselves are not shared."*

## **48 Modul34 Gen infas Final questions 2021 11 26**

**34004** For our study, it is important to interview all respondents on the same topic in subsequent years as well. In order to be able to reach you again we need to store your address. The legal requirements of data protection require your consent. Your address will be kept - separately from the questionnaire - exclusively for the purpose of this subsequent survey. Of course, all legal requirements for data protection are complied with. Please continue to support this important study with your valuable participation. If you decided to do so, we would appreciate it very much. Of course, your participation is voluntary. You can also withdraw your consent at any time by contacting the person at infas without giving any reasons. Do you agree that we can store your address for this purpose only?

*For the contact details of the contact person at infas, please refer to the cover letter or the thank-you letter! If necessary: The contact person at infas (Ms. Theresa Müller) can be reached on the free phone number 0800 6647436 or by e-mail at NEPS1@infas.de.*

**34027** In order to learn more about possible influences on the development of children, we would like to include excerpts from data available at the Institute for Employment Research of the Federal Employment Agency in Nuremberg when evaluating the survey. This includes, for example, information on employment relationships, phases of unemployment and participation in measures during unemployment, as well as company characteristics. For the purpose of linking this data to the interview data, I would like to ask you for your consent. Should this information be evaluated, it is absolutely guaranteed that all data protection regulations are strictly adhered to and that the data will not be passed on to third parties. Your consent is, of course, voluntary. You can also withdraw it at any time by contacting the person at infas. Do you agree to the linking of data from the Institute for Employment Research of the German Federal Employment Agency?

*E-mail address and number of the contact person are in the cover letter. The consent is of great importance for the evaluation of the study, therefore please answer all questions of the target persons competently and confidently. Intensive knowledge of the data protection sheet is key!*

**290112**

*Do not read the question aloud! Now, is it possible to start the task(s) and/or the interview with <name of target child>? Decide at this point if the situation is favorable to begin the task(s) and/or child interview. Select "2" only if performing the task(s) and interviewing the child seem impossible. If the parents indicate by themselves that they do not want their child to complete the task(s) and interview, then select "2". If the task(s) and/or child interview cannot be conducted, point out that it is not possible to conduct it at another time.*

start with competence tests and/or child survey [1]

competence tests and/or child survey cannot be carried out [2]

## Child survey, CASI (ID 1032)

### Satisfaction

**Fr\_ZU1** At the beginning we would like to ask you a short question about your satisfaction. How satisfied are you overall with your life?

*Please mark one answer. If you are completely dissatisfied, the value "1", if you are completely satisfied, the value "7". You can gradate your assessment with the numbers in between.*

At the beginning we would like to ask you a short question about your satisfaction. How satisfied are you overall with your life?
