1 Preliminary Remarks & Reading Aid

In this codebook all 22 data files from the NEPS Scientific Use File of Starting Cohort 1 (Version 10.1.0, Onsite; doi:10.5157/NEPS:SC1:10.1.0) with a total of 6420 variables are documented. Each chapter starts with an overwiew of all variables in a file – in the order of their appearance in the file. The variable names are linked to the information on the respective variable.

This information – if available – is presented:

1. question (bold), partly with different wording alternatives with the corresponding conditions and clickable question numbers; closer definition of the question after delimiter ▹
2. variable name (as in data file)
3. variable label from data file
4. reference to the questionnaire (as described in the data manual)
5. question number in instrument after a colon
6. interview instructions inside «…»
7. table with frequencies
    a) column 1: value label
    b) column 2: value
    c) column 3: absolute frequencies (#)
    d) column 4-…: absolute frequencies by wave (if possible)
    e) missing values at the end of table and slanted

The length of the table has been technically limited; where required the number of removed lines is reported.

px80400 Willingness: panel participation

1021 : 34004

For our study, it is important to interview all respondents on the same topic in subsequent years as well. In order to be able to reach you again we need to store your address. The legal requirements of data protection require your consent. Your address will be kept - separately from the questionnaire - exclusively for the purpose of this subsequent survey. Of course, all legal requirements for data protection are complied with. Please continue to support this important study with your valuable participation. If you decided to do so, we would appreciate it very much. Of course, your participation is voluntary. You can also withdraw your consent at any time by contacting the person at infas without giving any reasons. Do you agree that we can store your address for this purpose only? «For the contact details of the contact person at infas, please refer to the cover letter or the thank-you letter! If necessary: The contact person at infas (Ms. Theresa Müller) can be reached on the free phone number 0800 6647436 or by e-mail at NEPS1@infas.de.»

px80401 Willingness: merging data from federal employment agency

1021 : 34027

In order to learn more about possible influences on the development of children, we would like to include excerpts from data available at the Institute for Employment Research of the Federal Employment Agency in Nuremberg when evaluating the survey. This includes, for example, information on employment relationships, phases of unemployment and participation in measures during unemployment, as well as company characteristics. For the purpose of linking this data to the interview data, I would like to ask you for your consent. Should this information be evaluated, it is absolutely guaranteed that all data protection regulations are strictly adhered to and that the data will not be passed on to third parties. Your consent is, of course, voluntary. You can also withdraw it at any time by contacting the person at infas. Do you agree to the linking of data from the Institute for Employment Research of the German Federal Employment Agency? «E-mail address and number of the contact person are in the cover letter. The consent is of great importance for the evaluation of the study, therefore please answer all questions of the target persons competently and confidently. Intensive knowledge of the data protection sheet is key!»

px80400 Willingness: panel participation 801 : 34004

For our study, it is important to interview all respondents on the same topic in subsequent years as well. In order to be able to reach you again we need to store your address. The legal requirements of data protection require your consent. Your address will be kept - separately from the questionnaire - exclusively for the purpose of this subsequent survey. Of course, all legal requirements for data protection are complied with. Please continue to support this important study with your valuable participation. If you decided to do so, we would appreciate it very much. Of course, your participation is voluntary. You can also withdraw your consent at any time by contacting the person at infas without giving any reasons. Do you agree that we can store your address for this purpose only? «« For the contact details of the contact person at infas, please refer to the cover letter or thank-you letter! If required: The contact person at infas (Ms. Andrea Bauer) can be reached at the phone number (free of charge) 0800 6647436 or by email at NEPS1@infas.de.»»

px80401 Willingness: merging data from federal employment agency 801 : 34027

In order to learn more about possible influences on the development of young children, we would like to include excerpts from data available at the Institute for Employment Research of the Federal Employment Agency in Nuremberg when evaluating the survey. This includes, for example, information on employment, phases of unemployment and participation in measures during unemployment, as well as company characteristics. For the purpose of linking this data to the interview data, I would like to ask you for your consent. If this information is analyzed, it is absolutely guaranteed that all data protection regulations will be strictly met and that the data will not be passed on to third parties. Your consent is, of course, voluntary. You can also withdraw it at any time by contacting the person at infas. Do you agree with the linking of data from the Institute for Employment Research of the Federal Employment Agency? ««E-mail address and number of the contact person are in the cover letter. The consent is of great importance for the evaluation of the study, therefore please answer all questions of the target persons competently and confidently. Intensive knowledge of the data protection sheet is key!»»

In order to make our survey even more meaningful, we also plan to play some games with <name of the target child> again in addition to the interview. The games are similar to those we offered last time. It will take about 45 minutes to set up and play the games. We would like to offer the games to all children, regardless of whether they have already played them before or not. For this purpose, a female infas interviewer would visit you at home in the next few weeks. Would you be willing to take part in this part of the survey? «Do not read out options. Motivation: 'In order to be able to learn as much as possible about toddlers' development, it is very important to us that you participate.' If there are any questions about handling data or data protection: 'We guarantee that all the information you provide will be treated with the strictest confidentiality and that all statutory data protection regulations will be complied with. The video material will be forwarded by infas to the NESP coordination center at the Otto-Friedrich University in Bamberg, where it will be electronically stored and analyzed in a data security room.' For questions on other ways to find out information: 'Your personal contact at infas is Ms. Andrea Bauer, phone 0800 - 66 47 436 (free of charge) or email at neps1@infas.de If the respondent asks if the games are to be recorded on video this time as well: 'We need to record the games on video this time, too, so that we can analyze our observations.'»

In this case I would like you to sign the consent form for the video recording. You can also withdraw your consent at any time by contacting the contact person at infas without giving reasons. ««Please hand over the consent form for the video recording to the parent and make sure that it is filled out properly. The tasks may also be carried out without the signed consent form. In this case, however, no video recordings are allowed. After that, please check the signed consent form again to make sure that it has been filled out correctly and file it in the folder provided for this purpose. For the contact details of the contact person at infas please refer to the letter! If required: The contact person at infas (Ms. Andrea Bauer) can be contacted under the free phone number 0800 6647436 or via email at NEPS1@infas.de.»»

px04003 Introduction of direct measures

478 : 290102

Now I will introduce you briefly the games, which we would like to perform with <name of the target child>. The games are carried out with the help of a tablet PC and last about 30 minutes in total. In order to give you a better idea of what will happen during the games, I have brought an explanation card here. Here you can see what we are doing from different perspectives. Altogether we want to play 3 games with <name of the target child>. In the first game ' Picture puzzle ' <name of the target child> will see different pictures and hear words. In the second game 'Nature and technology game' <name of the target child> can play with pictures that are about animals, plants, natural phenomena and technology. In the last game ' Gift game ' < name of the target child ' can select one of two brought gifts. «if (h_XKTVA2 = 2) Show explanation card. if (h_XKTVA2 = 1) Show explanation card. If the parents want to know why the video recordings are necessary, please read the following: 'With the help of the video recordings we can judge whether the game situations are carried out correctly'. Please note that the games can also be played if video recordings are not desired. If you have any questions regarding data protection, please read the following: 'We guarantee that all your details will be treated confidentially and that all legal data protection regulations will be strictly adhered to. The video data is forwarded by infas to the Leibniz Institute for Educational Trajectories at the Otto-Friedrich University of Bamberg, where it is electronically recorded and analysed in a data security room. The video data will not be passed on to third parties. The video data will be deleted after completion of the study'.»

px06033 Transition online testing 838 : 18020

All requirements for task processing should be fulfilled in your household. After this interview, you will be sent the access data and other important information for accessing the task processing. For sending the access data and for contacting you in case of further follow-up surveys, I would like to record an e-mail address that you regularly check. Could you please give me your e-mail address for this purpose? «The further procedure will be explained in detail once again in the mail or the letter.-»

p30911a Registration with a childcare institution for under three year olds?

138 : 100102

We are now interested in your opinion on the topic of daycare. Under the umbrella term of 'daycare', below we are also including day nurseries and similar childcare institutions for children under the age of three. Have you registered your child for a childcare institution that he / she ought to attend before the age of three years?

ph90001 Informed consent for the transmission of address and contact data

1021 : 32710

Finally, one more aspect. In order to ensure the continuity of this particular study in the future, we would like to ask you today for permission to transfer your address and contact data to the Leibniz Institute for Educational Trajectories. Address and contact data are first and last names as well as home addresses, telephone numbers, and e-mail addresses that you have provided to us. The following also applies to the Leibniz Institute for Educational Trajectories: Your data will be stored in a secure environment and used in the same way as by infas to contact you. Your consent to the transfer is, of course, voluntary. You can withdraw your consent at any time. You will find the contact details in the cover letter you received in advance. Do you agree that your address and contact data can be transmitted to the Leibniz Institute for Educational Trajectories? «In case of questions regarding data protection: 'The information from the data protection sheet you have already received continues to apply. For the time being, your address and contact data will remain with infas. You will be informed again for transmission.' For questions regarding withdrawal: 'Please contact Dr. Angela Prussog-Wagner at infas at the free telephone number 0800/664 7436 during normal office hours if you have any questions.'»

ph90002 Informed consent scientific use of address and contact data

1021 : 32711

In order to understand educational and life paths even better, we would like to use your address and contact data for scientific purposes. We would like to use this data, for example, to examine whether people are willing to travel longer distances for their vocational training or further education. For this purpose, your addresses are converted into geocoordinates in order to calculate distances. From the first names, for example, we can see whether there are also clusters of people with the same first name in certain occupational groups. The information resulting from this data cannot be used to draw any conclusions about your person. The address and contact data will not be passed on to third parties. Your consent to scientific use is, of course, voluntary. You can withdraw your consent at any time. You will find the contact details in the cover letter you received in advance. Do you agree that your address and contact data may be used for scientific purposes? «In case of questions regarding data protection: 'The information from the data protection sheet you received continues to apply. For the time being, your address and contact data will remain with infas. You will be informed again for transmission.' For questions about withdrawal: ' Please contact Dr. Angela Prussog-Wagner at infas at the free phone number 0800/664 7436 during normal office hours if you have any questions.' For the question 'What is a geocoordinate?': 'A geocoordinate consists of two numbers, a longitude and a latitude, and thus describes a geographical point on a map. For example, the geocoordinate of the Brandenburg Gate is approximately 51 degrees north latitude and 13 degrees east longitude.' When asked 'What could be researched with contact information?' 'First names, for example, are grouped by their regional name origin. The resulting groups are made available to researchers for analysis. The first names themselves are not shared.'»

p30912a Registration with a childcare institution for over three year olds?

171 : 100001

We are now interested in your opinion on the topic of Kindergarten. The generic term 'Kindergarten' refers not only to all types of Kindergarten, but also to daycare centers and similar childcare institutions for children from the age of three to six. Have you already registered <name of the target child> in such a childcare institution that <name of the target child> is to attend at the age of three or above? «Read the options aloud. Some of these childcare institutions already accept children from the age of two; these and the following statements include such institutions. If the child already attends a childcare institution: Ask if the child is already registered at this or a different childcare institution from the age of three to six or if it is on a waiting list there. If the child is on a waiting list or the respondent is unsure as to whether the child is officially registered or on a waiting list, please check '1'. If the child is registered with one institution and on the waiting list for another, please check 1.»

p281311 Collective activities: read out

162 : 080001

I would now like to find out about situations !!in the last week!! where you or someone else in your home had the time to exclusively interact with <name of the target child>. I am now going to mention a few situations and would like you to assess how often you or someone else in your home did those things together with <name of the target child> in the last week. You can choose between the following responses: several times per day, once per day, several times per week, once per week or not at all. Read to <name of the target child> or looked at picture books with <name of the target child>. «Read the options aloud if necessary. If the respondent points out of their own accord that the last week was very untypical for the child (e.g. due to the child being ill), then please read out: 'In this case, please don't refer to the last week, but to the last typical week.' 'Someone else' means all people that live in the household or regularly come to the household, such as acquaintances, relatives or au pairs. In addition to play together, the situations can also refer to, e.g. changing diapers, eating or bathing. not included are situations where something else was being done at the same time, such as house work or talking on the phone.»

I will now ask you a few questions which are very important in terms of evaluating the games we've just performed. Measured on a normal day: How long does <name of the target child> sit on !!your!! lap? «Read the options aloud. Please address this question to the person who had the child sitting on their lap during 'Looking at pictures'. If 'Playing with mother' was performed, then address this question to the mother/person who was questioned in the interview. It doesn't matter whether the child is being held or is sitting freely.»

p103060 Cognition: Problem solving

228 : 530012

Now we will address everyday behavior or activities of <name of the target child>. Do not bother to think about this if you have not yet observed the asked after things in <name of the target child>. Children develop very differently during the first years. Thus, children are not always immediately successful, e.g. when they want to get a toy or when putting on a new piece of clothing. If <name of the target child> doesn't succeed right away, does she try more than two different approaches to reach her goal?

pa04020 Respondent: Parental leave so far (yes/no)

359 : 440101

Parental leave refers to the period following the birth of the child in which mothers and fathers can choose to look after their child themselves and still maintain contact with their work. Only those mothers and fathers that were in an employment relationship at the time the child was born are entitled to take parental leave. Have you taken parental leave for <name of the target child> since <0190P10/0190P8>? «If there are any questions about the employment relationship: 'Parental leave can be taken in any employment relationship, including fixed-term contracts, part-time contracts and marginal part-time employment. Apprentices, people retraining for different professions, employed people taking further professional training and people that work from home can also apply for parental leave.' The maternity protection period is not part of parental leave, but will be taken into account for the possible total duration of the parental leave. The father's parental leave can already start during the maternal protection period from the moment the child is born. During the parental leave, mothers and fathers can either be completely released from work or work a maximum of 30 hours per week. Self-employeds and unemployed persons are not entitled to parental leave.»

p31501d Knowledge of school-leaving qualification_optician 409 : 76121

And what about the profession of an optician? «« Read the options aloud if necessary. In case of questions: We're not interested in how it used to be, but how the situation is today. In case of questions: This question is not about formally required qualifications, but about the school-leaving qualifications that most people have. If the respondent's answer is 'the second' or 'the third', read out the option indicated again and ask if this is what he/she means. If the respondent's answer is 'higher education entrance qualification', allocate this to the Abitur category. If the respondent is not familiar with the term 'Hauptschulabschluss': Other related terms are 'Mittelschulabschluss' or 'Berufsbildungsreife'. If the respondent is not familiar with the terms 'Realschulabschluss' or 'intermediate school-leaving qualification': Other related terms are Mittlerer Abschluss or Fachoberschulreife. »»

pb11401_v1 Language support/speech therapy needs - diagnosed 478 : 10100

In our study we are also interested in speech support and speech therapy. Has there ever been a need!!! for speech support or speech therapy for <name of the target child>? «By language support we mean exercises to improve the language skills of children. The aim of these measures is, for example, the age-appropriate pronunciation and use of speech. By speech therapy we mean logopedics. The aim here is to treat linguistic abnormalities. The determination of the need can be done for example by a doctor or therapist.»

p66805a Temperament - frustration

478 : 070001

The following questions are about the behavior of your child in everyday situations. Please state how strongly each description usually applies to <name of the target child> in such situations. Please give your answers on a scale from 0 to 6. '0' means that the description 'does not apply at all' to <name of the target child>, '6' means that it 'completely applies'. You can indicate your assessment by choosing a number in between. Please refer your answer to the last six months! <name of the target child> is very frustrated when she cannot do what she wants. ««Read the options aloud if necessary. p31540a Knowledge about enrollment – choice elementary school 1 528 : 76002

now, I'd like to ask you some concrete questions about the topic school enrollment. Please consider the regulations in the federal state that you are currently living in. If you don't know the answer, please state 'don't know'! For long time, every federal state had so-called school districts. This means that the state assigns every child to a public elementary school according to its place of residence. How is it nowadays in your federal state? Are there any school districts?

Has <name of the target child> received additional language support in a care institution, e.g. kindergarten, since our last interview in <0190P32/0190P30>? «« By language support in a care institution we do not mean speech therapy or logopedics. Language support within a care facility includes pre-school language support programs to strengthen and develop language skills, e.g. by the educator or other support staff. If the respondent is not sure about the care institution: ’ By care institution we do not mean the school, but rather all types of daycare or care institution for children, including parent-child initiatives, i.e. care institutions managed by parents and/or educators themselves’. »»

p67600a Reacts angrily 838 : 67301

Now I have a few more questions about how you see <name of target child>. I'll give you some statements and ask you to assess to what extent they apply to <name of target child>. Please think of <name of target child> with each statement and assess to what extent the individual statement applies. Let us begin with the first statement: My child often reacts excessively angrily to minor disappointments. Does this statement not apply, rather not apply, rather apply or apply to <name of target child>? «Repeat answer options if necessary.»

p201400 Use of digital media Frequency 838 : 39202

The following is about <name of target child>'s use of digital media. Please indicate how often <name of target child> usually uses devices such as computers, laptops, tablets, smartphones, or game consoles by himself/herself. «Please read the options aloud. If the respondent asks what 'game consoles' are, answer: Game consoles are, for example, Nintendo, PlayStation or Xbox. If the respondent answers for each of the mentioned devices, say that it is about the general use of such devices, not about each one individually. If the respondent wants to know whether television is also one of the mentioned media, answer that normal television devices do not count, but computers, laptops, tablets or smartphones, on which movies or television can also be watched, do.»

p20142h Duration (average hours) use of digital media Weekday 838 : 39204

Approximately, how long does <name of target child> use this device(s) on a typical weekday from monday to friday? If <name of target child> uses multiple devices, please add up the usage times. «If the respondent answers 'not at all', please enter 0 hours - 0 minutes. If the respondent does not name a specific duration or if there are any uncertainties, ask to specify the duration of use in hours or minutes, if possible. In case of simple from-to specifications (e.g., 'from one to two hours'), please enter the average value (here: 1 hour 30 minutes) without further inquiry! If the respondent is confused as to why only weekdays are queried, answer that the following question will deal with the weekends only.»

p20243b Use of digital media: regular check

1021 : 39227

[NCS] The following statements are about the supervision and regulation of your child's use of digital media. Please think of devices such as computers, laptops, tablets or smartphones and assess the extent to which each statement applies. We regularly check what <name of target child> has done with the digital media. «Read the options aloud if necessary.»

Let's move on to your employment status. Are you currently employed full-time or part-time, on the side, or not employed? «By part-time employment we mean less than 15 hours a week or even marginally employed persons. If someone has two part-time jobs, then he or she is considered full-time employed. In training is defined as not employed.»

It seems we haven't noted that down correctly. Please tell me what your current occupation is: «Ask for exact professional title or occupation. Please, e.g. not 'mechanic', but 'precision or motor mechanic'; not 'teacher', but ' Gymnasium teacher for history'. In case of temporary employment, ask about the predominant occupation with the same temporary employment agency: 'What was your predominant occupation with the temporary employment agency?' If someone has more than one occupation, indicate the occupation with the higher number of hours; if this is also the same, relate the questions to the occupation with the higher income.»

I would now like to know which language you use on different occasions. In which language do you read books in your spare time? ▹ if ((h_Erstbefragte = 1) OR ((h_Erstbefragte = 2) & (2101P1 = .))) «if (h_Erstbefragte = 1) Read the options aloud. The question should only refer to German and the language of origin even if the target person states that he/she also uses a third language. If the target person states that he/she 'mostly' or 'only' uses a third language, please select the response 'mostly/only uses a third language'. If the respondent answers here with 'equally often', then please ask for the tendency. If no classification can be found, please select the response 'equally often German and language of origin'. if (h_Erstbefragte = 2) Read the options aloud. If the displayed language of origin does not match the respondent's statement, then select the answer 'language of origin only German' or 'other non-German language of origin' and ask: 'Excuse me. Then we must have noted this down incorrectly during the last interview. Then we will now continue with the other questions.' The question should only refer to German and the language of origin even if the target person indicates that he/she also uses a third language. If the target person indicates using 'mostly' or 'only' a third language, please select response 'uses mostly/only a third language.' Which grade does <name of target child> currently attend? «Some schools have preschool (Schuleingangsstufe) or mixed-grade classes, which means that, for example, 3rd and 4th grades are taught together. Therefore, parents sometimes cannot specify the grade. If there is no preschool (Schuleingangsstufen) and respondent cannot specify, enter 'don't know'. Do not read specifications aloud; class level is the same as grade level.»

p190201 Special educational diagnosis

1021 : 58143

Does your child !!currently!! have special educational needs? This means that an expert opinion has been created by a special needs teacher or another specialist, e.g. a psychologist or a physician, about your child's learning abilities. «In case of comprehension questions: Special needs teachers are specialists who have been trained to provide special support to students with problems with learning, vision, hearing, behavior, speech, or physical handicaps. In case of further questions: 'dyscalculia, dyslexia and intellectual giftedness are not special educational needs.' 'If an expert opinion was issued a long time ago and is still valid, your child has special educational needs.'»

h_p42812 Definition country of origin 838 : 31020

You told us that you were born in <31000P4 (LABEL)>. Therefore, we are interested in your relationship to this country and to the people from this country. Please consider both people in <31000P4 (LABEL)> and also people who themselves or whose families <31000P5 (LABEL)> moved to Germany. «Read introduction and then continue with the next question. If the respondent states that the country mentioned is not applicable to him/her, please select 6 and use the right country. If the respondent objects energetically because he/she belongs to an ethnic minority there, please select 7.»

pb11401 Language support/speech therapy needs - diagnosed 838 : 10100

In our study we are also interested in language support and speech therapy. Has <name of target child> ever been !!diagnosed!! with a need for language support or speech therapy? ««Speech therapy refers to logopedics carried out by a speech therapist. The need for speech therapy is diagnosed by a doctor or a therapist. The goal is to treat disorders, impairments or delays in speech development. Language support refers to general support measures and support offers. The need for language support is determined on the basis of a diagnostic test or recommended by an educator or a teacher. The goal of language support is to promote and strengthen language development, e.g. by expanding vocabulary. Language support is a helpful tool e.g. for multilingual children in their language development.»»

p416080 Language support outside institution 838 : 10013

Has <name of target child> received additional language support !!outside!! the school since our last interview in <0190P32/0190P30>? «Language support does not mean speech therapy or logopedics. Language support includes language support programs at and outside the school, as well as daycare center to strengthen and develop language skills, which are carried out either by a teacher, an educator or by an external person.»

In many cases, childcare or education of children entails costs. In the following, we will therefore look at the total income of your entire household: What is the monthly household income of all household members today? Please indicate the net amount, i.e. after deduction of taxes and social security contributions. Please include regular payments such as pensions, housing allowance, parental and child benefits, BAföG, alimony payments, unemployment benefits, etc.! «If not known exactly: have the monthly amount estimated. Inform about anonymity. If unclear what the net income is: 'Please indicate the amount you received after deduction of taxes and social security contributions'.»

px80401 Willingness: merging data from federal employment agency

1021 : 34027

In order to learn more about possible influences on the development of children, we would like to include excerpts from data available at the Institute for Employment Research of the Federal Employment Agency in Nuremberg when evaluating the survey. This includes, for example, information on employment relationships, phases of unemployment and participation in measures during unemployment, as well as company characteristics. For the purpose of linking this data to the interview data, I would like to ask you for your consent. Should this information be evaluated, it is absolutely guaranteed that all data protection regulations are strictly adhered to and that the data will not be passed on to third parties. Your consent is, of course, voluntary. You can also withdraw it at any time by contacting the person at infas. Do you agree to the linking of data from the Institute for Employment Research of the German Federal Employment Agency? «E-mail address and number of the contact person are in the cover letter. The consent is of great importance for the evaluation of the study, therefore please answer all questions of the target persons competently and confidently. Intensive knowledge of the data protection sheet is key!»

pa04020 Respondent: Parental leave so far (yes/no)

359 : 440101

Parental leave refers to the period following the birth of the child in which mothers and fathers can choose to look after their child themselves and still maintain contact with their work. Only those mothers and fathers that were in an employment relationship at the time the child was born are entitled to take parental leave. Have you taken parental leave for <name of the target child> since <0190P10/0190P8>? «If there are any questions about the employment relationship: 'Parental leave can be taken in any employment relationship, including fixed-term contracts, part-time contracts and marginal part-time employment. Apprentices, people retraining for different professions, employed people taking further professional training and people that work from home can also apply for parental leave.' The maternity protection period is not part of parental leave, but will be taken into account for the possible total duration of the parental leave. The father's parental leave can already start during the maternal protection period from the moment the child is born. During the parental leave, mothers and fathers can either be completely released from work or work a maximum of 30 hours per week. Self-employeds and unemployed persons are not entitled to parental leave.»
