1 Preliminary Remarks & Reading Aid

In this codebook all 10 data files from the NEPS Scientific Use File of Starting Cohort SC1 (Version 2.0.0, Onsite; doi:10.5157/NEPS:SC1:2.0.0) with a total of 2174 variables are documented. Each chapter starts with an overview of all variables in a file – in the order of their appearance in the file. The variable names are linked to the information on the respective variable.

Diagram illustrating the structure of a variable entry in the codebook, with labels 1 through 6 pointing to specific components:

- 1. question
- 2. variable name
- 3. variable label
- 4. questionnaire
- 5. question number
- 6. interview instruction

| Label | Code | # | by wave | |
|-----------------------------|------|-------|---------|------|
| | | | 1 | 3 |
| not specified | 0 | 22852 | 13581 | 9271 |
| specified | 1 | 3 | 2 | 1 |
| <i>Refused</i> | -97 | 1 | 1 | 0 |
| <i>Don't know</i> | -98 | 7 | 2 | 5 |
| <i>system missing value</i> | . | 8164 | 4327 | 3837 |

Additional labels for the table:

- a) value labels
- b) values
- c) absolute frequencies
- d) absolute frequencies by wave
- e) slanted: missing values

This information – if available – is presented:

1. question (bold), partly with different wording alternatives with the corresponding conditions and clickable question numbers; closer definition of the question after delimiter ►
2. variable name (as in data file)
3. variable label from data file
4. reference to the questionnaire (as described in the data manual)
5. question number in instrument after a colon
6. interview instructions inside «...»
7. table with frequencies
 - a) column 1: value label
 - b) column 2: value
 - c) column 3: absolute frequencies (#)
 - d) column 4-...: absolute frequencies by wave (if possible)
 - e) missing values at the end of table and slanted

The length of the table has been technically limited; where required the number of removed lines is reported.

Now I will shortly present the games to you, which we want to play with <name of target child>. To evaluate the games better afterwards, we want to record them with a camera. For a better understanding, what will be seen in such recordings, I brought a video demonstration card. 'In the left column, you can see, what we are doing; in the right column, you can see, what will be seen on the video. The games consist of two parts. In the first game 'Looking at pictures' we want to show some pictures to your child. We need a table, on which I can set up my laptop computer, and a fixed chair for you and your child. Your child will be at your lap, while his/her watches a series of stills on the laptop computer and listens to faint noises.' 'I will put a camera behind the laptop computer, which is pointed at the head of your child. You will not be seen on the recordings – just your shoulders. We are interested in the change of interest of your child in the pictures. We learn about early attention and learning itself. 'In the second game 'Playing with mother' I would like to record you and your child while you are playing together for ten minutes. I brought three bags of toys, which you can use for the playing together. These toys are suitable for infants and approved by a seal of quality, of course. They are wipeable and are completely cleaning by us after every usage. The game is about the way children play at that age with persons, they are familiar with. You may behave naturally; it does not have to look like on the photograph. Your child does not have to sit on your lap, but might sit or lie on the floor. Choose a position, which is pleasant for you and your child.' «Show the video demonstration card. If needed, please tell again that there needs to be a table high enough (75 cm +/- 10 cm) for the game 'Looking at pictures'. If there is no such table in the household, game 1 cannot be realized. If the parents want to know why there is a need for the recordings, please read out as follows: 'By the help of the recordings, we are able to assess very detailed, what are the strong interests of your child and how the child plays with persons he/she knows.' If there are questions concerning the data protection policy, please read out as follows: 'We guarantee that all your details will be treated confidentially and all legal policies of data protection will be strictly fulfilled. The recordings will be transferred by the infas to the coordinating office of the Otto-Friedrich University in Bamberg and will be collected and processed electronically. The video data will not be handed over to third parties. The video data will be deleted after the end of the study.»

In that case, I would now like to ask that you sign the statement of agreement for the video recordings. You can withdraw your agreement at any time without the need to give any reasons by contacting the infas contact person. «Please hand the statement(s) of agreement for the games over to the parent(s) taking part and ensure that the form(s) is / are filled out properly. Only those parents who have properly filled out and handed over a statement of agreement may take part in the games! At this point, you should check the signed statement(s) of agreement to ensure that the form(s) have been filled out correctly and then store it / them in the folder provided. Please refer to the covering letter for the infas contact person's details! If necessary: infas' contact person (Ms. Andrea Bauer) can be contacted by calling the free phone number (0800 6647436) or by emailing NEPS1@infas.de.»

p731801_g1 Highest educational qualification of respondent in Germany (edited) 162 : 63104

Now we have some questions on your own training and education qualifications. Did you complete your highest general school-leaving qualification in Germany? «Please note, this means school qualifications such as the leaving certificate of the Hauptschule, the leaving certificate of the Realschule or the Abitur, not training qualifications such as vocational training or a higher education.»

Please tell me what you are currently employed as: «Please ask for an exact description or activity. For example, please state 'precision or car mechanic' instead of 'mechanic', and 'history teacher at a Gymnasium' instead of 'teacher'. In the case of temporary employment [placement by commercial employment agencies], please ask for the main professional activity at the same temporary employment firm: 'What was your main professional activity at the temporary employment firm?' If someone has several activities, please indicate the activity with the greatest number of hours; if the hours are the same, please relate the questions to the activity with the higher income. If the respondent becomes irritated or complains: 'As you are taking part in this survey for the first time, it is important that we obtain this information from you. It is possible that you have already answered similar questions in a different context during this interview. Nevertheless, we would like you to answer the questions we ask about your employment.'»

Please tell me what he is currently employed as: «Please ask for an exact description or activity. For example, please state 'precision or car mechanic' instead of 'mechanic', and 'history teacher at a Gymnasium' instead of 'teacher'. In the case of temporary employment [placement by commercial employment agencies], please ask for the main professional activity at the same temporary employment firm: 'What was your main professional activity at the temporary employment firm?' If someone has several activities, please indicate the activity with the greatest number of hours; if the hours are the same, please relate the questions to the activity with the higher income. If the respondent becomes irritated or complains: 'As you are taking part in this survey for the first time, it is important that we obtain this information from you. It is possible that you have already answered similar questions in a different context during this interview. Nevertheless, we would like you to answer the questions we ask about your employment.'»

We are now interested in your opinion on the topic of Kindergarten. The generic term 'Kindergarten' refers not only to all types of Kindergarten, but also to day care centers and similar child care institutions for children from the age of three to six. Have you already registered <target child's name> in such a child care institution that <target child's name> is to attend at the age of three or above? «Read out options. Some of these child care institutions already accept children from the age of two; these and the following statements include such institutions. If the child already attends a child care institution: Ask if the child is already registered at this or a different child care institution from the age of three to six or if it is on a waiting list there. If the child is on a waiting list, or the respondent is unsure as to whether the child is officially registered, or on a waiting list, please check '1'. If the child is registered with one institution and on the waiting list for another, please check 1.»

A child must have attended a Kindergarten for at least one year before starting school. «Only read out options if necessary. For yes/no answer ask: 'Correct, incorrect, or don't know?' For ambiguous answers, e.g. 'don't know/not sure, don't think so' ask: 'Correct, incorrect, or don't know?'. If the respondent questions or is unsure about what period the statement refers to: 'This refers to the !!current!! situation and not to future regulations.' If there are any questions or uncertainties on the topic of Kindergarten: 'The term 'Kindergarten' refers to Kindergartens, day care centers, and similar child care institutions for children from the age of three to six, and possibly as young as two.'»

pa04020 Respondent: Parental leave to date (yes/no)

162 : 440101

Parental leave refers to the period following the birth of the child in which mothers and fathers can choose to look after their child themselves and still maintain contact with their work. Only those mothers and fathers that were in an employment relationship at the time the child was born are entitled to take parental leave. Have you taken parental leave for <target child's name> to date? «If there are any questions about the employment relationship: 'Parental leave can be taken in any employment relationship, including fixed-term contracts, part-time contracts and marginal part-time employment. Apprentices, people retraining for different professions, employed people taking advanced professional training and people that work from home can also apply for parental leave.' The maternity protection period is not part of parental leave, but will be taken into account for the possible total duration of the parental leave. The employer must be informed of your intention to take parental leave, but it does not require his consent. During parental leave, mothers and fathers can either be released from work completely, or can work for a maximum of 30 hours/week. Parents are entitled to parental leave until the child reaches the age of three. There is an entitlement to parental leave regardless of whether or not parental allowance is paid. However, employees often have to assert their right to parental leave in order to be able to reduce their working hours and benefit from the parental allowance. Self-employed persons and unemployed persons are not entitled to parental leave.»

pa04020_w1 Respondent: Parental leave to date (yes/no)

162 : 440101

Parental leave refers to the period following the birth of the child in which mothers and fathers can choose to look after their child themselves and still maintain contact with their work. Only those mothers and fathers that were in an employment relationship at the time the child was born are entitled to take parental leave. Have you taken parental leave for <target child's name> to date? «If there are any questions about the employment relationship: 'Parental leave can be taken in any employment relationship, including fixed-term contracts, part-time contracts and marginal part-time employment. Apprentices, people retraining for different professions, employed people taking advanced professional training and people that work from home can also apply for parental leave.' The maternity protection period is not part of parental leave, but will be taken into account for the possible total duration of the parental leave. The employer must be informed of your intention to take parental leave, but it does not require his consent. During parental leave, mothers and fathers can either be released from work completely, or can work for a maximum of 30 hours/week. Parents are entitled to parental leave until the child reaches the age of three. There is an entitlement to parental leave regardless of whether or not parental allowance is paid. However, employees often have to assert their right to parental leave in order to be able to reduce their working hours and benefit from the parental allowance. Self-employed persons and unemployed persons are not entitled to parental leave.»

162 : 430014

How many hours per week did your (female) partner work on average at the end of this job?

«For self-employed and freelance workers, this means the average working hours; for other employment positions, this means the contractually agreed working hours. Two decimal places allowed! Can be entered with either a comma or a period. For teachers and trainee teachers, this does not refer to the number of teaching hours only, but to the job as a whole.»

p510005 Monthly household income, open

162 : 200001

In many areas, child care and vocational training for children can be costly. Now, we would like to look at all of the income from your entire household: What is the current monthly household income from all the members of the household? Please give the net amount, after deduction of all taxes and social security contributions. Please include regular payments such as pensions, rent allowance, parental and child allowance, student loans/grants, alimony payments, unemployment benefits, etc.! «If this is not known exactly, ask for a monthly estimate. Mention anonymity. If there are uncertainties about the net income: 'Please tell me the amount you receive after all taxes and social security contributions have been deducted.'»

p281311 Joint activities read out

162 : 080001

I would now like to find out about situations **!!in the last week!!** where you or someone else in your home had the time to exclusively interact with <target child's name>. I am now going to mention a few situations and would like you to assess how often you or someone else in your home did those things together with <target child's name> in the last week. You can choose between the following responses: **several times per day, once per day, several times per week, once per week, or not at all.** Read to <target child's name> or looked at picture books with <target child's name>. «Read out options if necessary. If the respondent points out of their own accord that the last week was very untypical for the child (e.g. due to the child being ill), then please read out: 'In this case, please don't refer to the last week, but to the last typical week.' 'Someone else' means all people that live in the household or regularly come to the household, such as acquaintances, relatives, or au-pairs. In addition to play together, the situations can also refer to, e.g. changing diapers, eating, or bathing. Not included are situations where something else was being done at the same time, such as house work or talking on the phone.»

Let's move on to your employment status. Are you currently in full-time or part-time employment, working a side job, or unemployed? «By a side job, we mean working less than 15 hours per week, this also includes marginal employment. If someone has two part-time jobs, he/she is considered to be in full-time employment. Vocational training counts as unemployed. If the respondent becomes irritated or complains: 'As you are taking part in this survey for the first time, it is important that we obtain this information from you. It is possible that you have already answered similar questions in a different context during this interview. Nevertheless, we would like you to answer the questions we ask about your employment.'»

In the case of temporary employment or seasonal work: 'What position did you mainly hold at the firm where you were temporarily employed?' Please adapt the formulation of the answers to the gender of the respondent. If the respondent becomes irritated or complains: 'As you are taking part in this survey for the first time, it is important that we obtain this information from you. It is possible that you have already answered similar questions in a different context during this interview. Nevertheless, we would like you to answer the questions we ask about your employment.'»

Is your partner currently in full-time or part-time employment, does he have a side job, or is he unemployed? «By a side job, we mean working less than 15 hours per week, this also includes marginal employment. If someone has two part-time jobs, he/she is considered to be in full-time employment. Vocational training counts as unemployed. If the respondent becomes irritated or complains: 'As you are taking part in this survey for the first time, it is important that we obtain this information from you.
