1 Overview and Reading Aid

The documents in this section are based on the field versions but are extended by including the variable names and values. The variable names used in these generated documents can be found in the data files, as well. The field versions can be found in the corresponding column “Startkohorte 1: Neugeborene (SC1), Welle 2, Erhebungsinstrumente (Feldversion)” (only available in German). We recommend using the provided SUF versions over the field versions when working with the data. The material corresponds to Version 3.0.0 of the Scientific Use File (SUF) for the Starting Cohort 1 (SC1) (doi:10.5157/NEPS:SC1:3.0.0). Figure 1 describes the possible components of the documented survey.

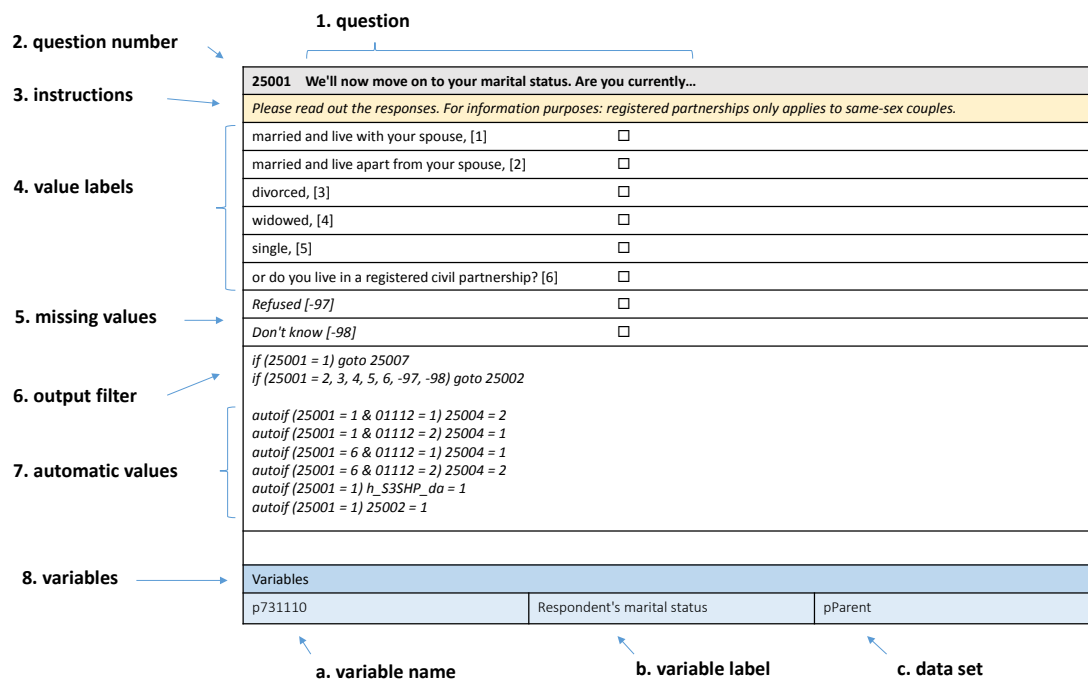

Figure 1: Reading aid for survey tools

If available, this information includes the following:

1. Questions (bold): Text, which is a) handed out in the form of PAPI or online surveys and b) read out during CATI or CAPI surveys by an interviewer (sometimes with variations depending on specific conditions).
2. Question numbers in the survey tool (bold)
3. Instructions (italic, shaded in yellow) are considered as a) guidelines for PAPI or online surveys and b) instructions for the interviewer for CATI or CAPI surveys, in order to ask the questions in a correct way and react appropriately to inquiries. These are not read out by the interviewer.
4. Values labels
5. Missing values (italic)
6. Output filters (italic)

7. Automatic values (*italic*): Under certain conditions, these are necessary, e.g. when coding auxiliary variables.
8. Variables
 - a) Variable name in SUF-data set (variable names indicated in brackets are not part of the SUF)
 - b) Variable label: This is a short form of the description of the item.
 - c) Data set, in which the variable(s) can be found.

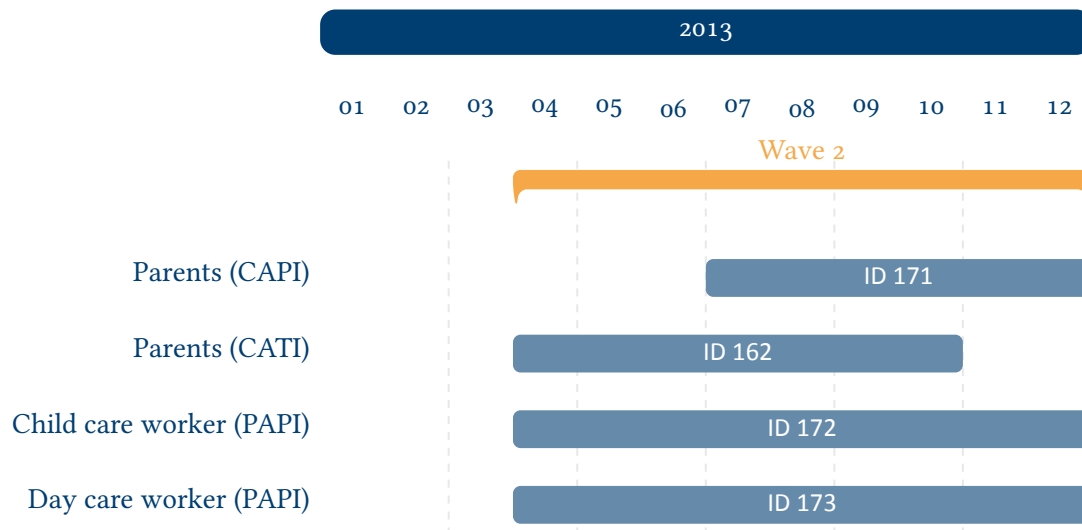

Figure 2: Survey of Starting Cohort 1 and IDs of the instruments in wave 2

Figure 2 gives an overview of the field time for the second main survey. The survey was conducted via computer assisted personal or telephone interviews (CAPI/CATI) with the mothers (parents) and paper and pencil interviews with care workers (day care institution or day care by childminder) taken place from April to December 2013. Additionally, direct measures of the children were assessed.

290102 Now I will shortly present the games to you, which we want to play with <name of target child>. To evaluate the games better afterwards, we want to record them with a camera. For a better understanding, what will be seen in such recordings, I brought a video demonstration card. “In the left column, you can see, what we are doing; in the right column, you can see, what will be seen on the video. The games consist of two parts. In the first game “Looking at pictures” we want to show some pictures to your child. We need a table, on which I can set up my laptop computer, and a fixed chair for you and your child. Your child will be at your lap, while his/her watches a series of stills on the laptop computer and listens to faint noises.” “I will put a camera behind the laptop computer, which is pointed at the head of your child. You will not be seen on the recordings – just your shoulders. We are interested in the change of interest of your child in the pictures. We learn about early attention and learning itself.” In the second game “Playing with mother” I would like to record you and your child while you are playing together for ten minutes. I brought three bags of toys, which you can use for the playing together. These toys are suitable for infants and approved by a seal of quality, of course. They are wipeable and are completely cleaning by us after every usage. The game is about the way children play at that age with persons, they are familiar with. You may behave naturally; it does not have to look like on the photograph. Your child does not have to sit on your lap, but might sit or lie on the floor. Choose a position, which is pleasant for you and your child.”

Show the video demonstration card. If needed, please tell again that there needs to be a table high enough (75 cm +/- 10 cm) for the game “Looking at pictures”. If there is no such table in the household, game 1 cannot be realized. If the parents want to know why there is a need for the recordings, please read out as follows: “By the help of the recordings, we are able to assess very detailed, what are the strong interests of your child and how the child plays with persons he/she knows.” If there are questions concerning the data protection policy, please read out as follows: “We guarantee that all your details will be treated confidentially and all legal policies of data protection will be strictly fulfilled. The recordings will be transferred by the infas to the coordinating office of the Otto-Friedrich University in Bamberg and will be collected and processed electronically. The video data will not be handed over to third parties. The video data will be deleted after the end of the study.

Please hand the statement(s) of agreement for the games over to the parent(s) taking part and ensure that the form(s) is / are filled out properly. Only those parents who have properly filled out and handed over a statement of agreement may take part in the games! At this point, you should check the signed statement(s) of agreement to ensure that the form(s) have been filled out correctly and then store it / them in the folder provided. Please refer to the covering letter for the infas contact person's details! If necessary: infas' contact person (Ms. Andrea Bauer) can be contacted by calling the free phone number (0800 6647436) or by emailing NEPS1@infas.de.

Module10 S3 RCT

100001 We are now interested in your opinion on the topic of Kindergarten. The generic term “Kindergarten” refers not only to all types of Kindergarten, but also to day care centers and similar child care institutions for children from the age of three to six. Have you already registered <target child's name> in such a child care institution that <target child's name> is to attend at the age of three or above?

Read out options. Some of these child care institutions already accept children from the age of two; these and the following statements include such institutions. If the child already attends a child care institution: Ask if the child is already registered at this or a different child care institution from the age of three to six or if it is on a waiting list there. If the child is on a waiting list, or the respondent is unsure as to whether the child is officially registered, or on a waiting list, please check "1". If the child is registered with one institution and on the waiting list for another, please check 1.

Module44 Gen. E1 SD Parental leave respondent

2.1 Parents, CAPI (171)

440101 Parental leave refers to the period following the birth of the child in which mothers and fathers can choose to look after their child themselves and still maintain contact with their work. Only those mothers and fathers that were in an employment relationship at the time the child was born are entitled to take parental leave. Have you taken parental leave for <target child's name> to date?

If there are any questions about the employment relationship: "Parental leave can be taken in any employment relationship, including fixed-term contracts, part-time contracts and marginal part-time employment. Apprentices, people retraining for different professions, employed people taking advanced professional training and people that work from home can also apply for parental leave." The maternity protection period is not part of parental leave, but will be taken into account for the possible total duration of the parental leave. The employer must be informed of your intention to take parental leave, but it does not require his consent. During parental leave, mothers and fathers can either be released from work completely, or can work for a maximum of 30 hours/week. Parents are entitled to parental leave until the child reaches the age of three. There is an entitlement to parental leave regardless of whether or not parental allowance is paid. However, employees often have to assert their right to parental leave in order to be able to reduce their working hours and benefit from the parental allowance. Self-employed persons and unemployed persons are not entitled to parental leave.

If the respondent points out of their own accord that the last week was very untypical for the child (e.g. due to the child being ill), then please read out: "In this case, please don't refer to the last week, but to the last typical week." "Someone else" means all people that live in the household or regularly come to the household, such as acquaintances, relatives, or au-pairs. In addition to play together, the situations can also refer to, e.g. changing diapers, eating, or bathing. Not included are situations where something else was being done at the same time, such as house work or talking on the phone.

100001 We are now interested in your opinion on the topic of Kindergarten. The generic term “Kindergarten” refers not only to all types of Kindergarten, but also to day care centers and similar child care institutions for children from the age of three to six. Have you already registered <target child's name> in such a child care institution that <target child's name> is to attend at the age of three or above?

380002 On the topic of Kindergarten, there are many areas that are not always known to the public. I will now read out some statements. Please tell me if each statement is correct, incorrect, or if you don't know.

The parents are obligated by law to always choose the nearest Kindergarten for their child.

Read out options. For yes/no answer ask: "Correct, incorrect, or don't know?" For ambiguous answers, e.g. "don't know/not sure, don't think so" ask: "Correct, incorrect, or don't know?". If the respondent questions or is unsure about what period the statement refers to: "This refers to the !!current!! situation and not to future regulations." Module44 Gen E1 SD Parental leave Respondent

440101 Parental leave refers to the period following the birth of the child in which mothers and fathers can choose to look after their child themselves and still maintain contact with their work. Only those mothers and fathers that were in an employment relationship at the time the child was born are entitled to take parental leave. Have you taken parental leave for <target child's name> to date?

If there are any questions about the employment relationship: "Parental leave can be taken in any employment relationship, including fixed-term contracts, part-time contracts and marginal part-time employment. Apprentices, people retraining for different professions, employed people taking advanced professional training and people that work from home can also apply for parental leave." The maternity protection period is not part of parental leave, but will be taken into account for the possible total duration of the parental leave. The employer must be informed of your intention to take parental leave, but it does not require his consent. During parental leave, mothers and fathers can either be released from work completely, or can work for a maximum of 30 hours/week. Parents are entitled to parental leave until the child reaches the age of three. There is an entitlement to parental leave regardless of whether or not parental allowance is paid. However, employees often have to assert their right to parental leave in order to be able to reduce their working hours and benefit from the parental allowance. Self-employed persons and unemployed persons are not entitled to parental leave.

080001 I would now like to find out about situations !!in the last week!! where you or someone else in your home had the time to exclusively interact with <target child's name>. I am now going to mention a few situations and would like you to assess how often you or someone else in your home did those things together with <target child's name> in the last week. You can choose between the following responses: several times per day, once per day, several times per week, once per week, or not at all. Read to <target child's name> or looked at picture books with <target child's name>.

Read out options if necessary. If the respondent points out of their own accord that the last week was very untypical for the child (e.g. due to the child being ill), then please read out: "In this case, please don't refer to the last week, but to the last typical week." "Someone else" means all people that live in the household or regularly come to the household, such as acquaintances, relatives, or au-pairs. In addition to play together, the situations can also refer to, e.g. changing diapers, eating, or bathing. Not included are situations where something else was being done at the same time, such as house work or talking on the phone.

Module64 Gen S34 Respondent employment

64101	Let's move on to your employment status. Are you currently in full-time or part-time employment, working a side job, or unemployed?	
<p><i>By a side job, we mean working less than 15 hours per week, this also includes marginal employment. If someone has two part-time jobs, he/she is considered to be in full-time employment. Vocational training counts as unemployed. If the respondent becomes irritated or complains: "As you are taking part in this survey for the first time, it is important that we obtain this information from you. It is possible that you have already answered similar questions in a different context during this interview. Nevertheless, we would like you to answer the questions we ask about your employment."</i></p>

Dear child care worker, thank you very much for taking the time to support our substudy on "Education from the very beginning" by answering the questions. Your participation is very important to us and contributes significantly to the success of this survey. We would like to ask you now to fill out this questionnaire. As well as questions about you personally and your child care institution, this questionnaire relates in particular to the work you do with the children in your care. Please answer all of the questions as you see fit. There are no "right" or "wrong" answers. Your personal opinion is important to us! If there are some questions that you can't answer/don't want to answer or that don't apply to you, just leave them out. Filling out the written questionnaire is voluntary and there will be no negative consequences. If you do not want to fill out the questionnaire, this will of course not disadvantage you in any way either. We would like to thank you very much for taking part in this important survey.

Dear nanny/day care worker, thank you very much for taking the time to support our substudy on "Education from the very beginning" by answering the questions. Your participation is very important to us and contributes significantly to the success of this survey. We would like to ask you now to fill out this questionnaire. As well as questions about you personally and your care services, this questionnaire relates in particular to the work you do with the children in your care. Please answer all of the questions as you see fit. There are no "right" or "wrong" answers. Your personal opinion is important to us! If there are some questions that you can't answer/don't want to answer or that don't apply to you, just leave them out. Filling out the written questionnaire is voluntary and there will be no negative consequences. If you do not want to fill out the questionnaire, this will of course not disadvantage you in any way either. We would like to thank you very much for taking part in this important survey.
