1 Overview and Reading Aid

The documents in this section are based on the field versions but are extended by including the variable names and values. The variable names used in these generated documents can be found in the data files, as well. The field versions can be found in the corresponding column "Startkohorte 1: Neugeborene (SC1), Welle 3, Erhebungsinstrumente (Feldversion)" (only available in German). We recommend using the provided SUF versions over the field versions when working with the data. The material corresponds to Version 4.0.0 of the Scientific Use File (SUF) for the Starting Cohort 1 (SC1) (doi:10.5157/NEPS:SC1:4.0.0). Figure 1 describes the possible components of the documented survey.

Figure 1: Reading aid for survey tools

If available, this information includes the following:

1. Questions (bold): Text, which is a) handed out in the form of PAPI or online surveys and b) read out during CATI or CAPI surveys by an interviewer (sometimes with variations depending on specific conditions).

2. Question numbers in the survey tool (bold)

3. Instructions (italic, shaded in yellow) are considered as a) guidelines for PAPI or online surveys and b) instructions for the interviewer for CATI or CAPI surveys, in order to ask the questions in a correct way and react appropriately to inquiries. These are not read out by the interviewer.

4. Values labels

5. Missing values (italic)

6. Output filters (italic)

7. Automatic values (italic): Under certain conditions, these are necessary, e.g. when coding auxiliary variables.

8. Variables

   a) Variable name in SUF-data set (variable names indicated in brackets are not part of the SUF)

   b) Variable label: This is a short form of the description of the item.
   c) Data set, in which the variable(s) can be found.

Figure 2: Survey of Starting Cohort 1 and IDs of the instruments in wave 3

Figure 2 gives an overview of the field time for the third main survey. The survey was conducted via computer assisted personal or telepohne interviews (CAPI/CATI) with the mothers (parents) and paper and pencil interviews with care workers (day care institution or day care by childminder) taken place from April to November 2014. Additionally, direct measures of the children were assesed.

3.1 Child care workers, PAPI (310)

Dear child care worker, Thank you very much for taking the time to support our substudy "Education from the start" by answering these questions. Your collaboration is very important to us and it significantly contributes to the success of this study. We would like to now ask you to fill out this questionnaire. Please also fill this out when you have already participated in one of our studies. In addition to questions regarding your person, including your background and native language, this questionnaire in particular deals with the work with the children that you look after. Please answer all questions as you deem them relevant. There are no "right" or "wrong" answers. Your personal opinion is important to us! When you can't or don't want to answer particular questions, or if certain questions do not pertain to you, just leave them out. Filling out the written questionnaire should be done at your own free will and you will incur no disadvantage by doing so. When you do not want to fill out the questionnaire, this will of course have no disadvantage for you. We would like to sincerely thank you for you participation in this important study. Your NEPS-Team

Thank you for your help!

3.2 Childminder, PAPI (311)

Dear nanny/day care worker, thank you very much for taking the time to support our substudy on "Education from the very beginning" by answering the questions. Your participation is very important to us and contributes significantly to the success of this survey. We would like to ask you now to fill out this questionnaire. As well as questions about you personally and your care services, this questionnaire relates in particular to the work you do with the children in your care. Please answer all of the questions as you see fit. There are no "right" or "wrong" answers. Your personal opinion is important to us! If there are some questions that you can't answer/don't want to answer or that don't apply to you, just leave them out. Filling out the written questionnaire is voluntary and there will be no negative consequences. If you do not want to fill out the questionnaire, this will of course not disadvantage you in any way either. We would like to thank you very much for taking part in this important survey. Your NEPS Team Pointers when filling in the questionnaire • In order to achieve the highest possible degree of accuracy in the scanner supported data collection, we request that you fill out the questionnaire with a black pen and that you always fill in numbers right justified in the given boxes. • If you'd like to change your answer to a question, color in the box with the no longer valid answer and put a check in the correct box. • Numbers should be entered for some of the questions. Should these not be available to you, please estimate as precisely as you are able to. • For the collection and processing of your data, including your entries regarding your background and language of origin, we require your consent for legal reasons. You give your consent by filling out and returning this questionnaire. Please consider the 'data protection statement' regarding this, which has been attached to your letter. • After you have filled out the questionnaire, place it in the attached stamped envelope and send it directly to infas. Unauthorized persons or members of your institution cannot access your data. In order to ensure your anonymity, please don't write sender information on the return envelope. Thank you very much for your support!
