1 Overview and Reading Aid

The documents in this section are based on the field versions but are supplemented by the variable names and values. The variable names in this generated document are also used in the data files. The field versions can be found in the corresponding column “Startkohorte 1: Neugeborene (SC1), Welle 7, Erhebungsinstrumente (Feldversion)” (only available in German). For the work with the data, it is recommended to prefer the SUF version over the field version. The material corresponds to version 7.0.0 of the Scientific Use File (SUF) for the Starting Cohort 1 (SC1) (doi:10.5157/NEPS:SC1:7.0.0). Figure 1 describes the possible components of the documented survey.

Figure 1: Reading aid for survey tools

If available, this information includes the following:

1. Questions (bold): Text, which is a) handed out in the form of PAPI or online surveys and b) read out during CATI or CAPI surveys by an interviewer (sometimes with variations depending on specific conditions).
2. Question numbers in the survey tool (bold)
3. Instructions (italic, shaded in yellow) are considered as a) guidelines for PAPI or online surveys and b) instructions for the interviewer for CATI or CAPI surveys, in order to ask the questions in a correct way and react appropriately to inquiries. These are not read out by the interviewer.
4. Values labels
5. Missing values (italic)
6. Output filters (italic)

7. Automatic values (*italic*): Under certain conditions, these are necessary, e.g. when coding auxiliary variables.
8. Variables
 - a) Variable name in SUF-data set (variable names indicated in brackets are not part of the SUF)
 - b) Variable label: This is a short form of the description of the item.
 - c) Data set, in which the variable(s) can be found.

Figure 2: Survey of Starting Cohort 1 and IDs of the instruments in wave 7

Figure 2 gives an overview of the field time for the seventh main survey. The survey includes computer assisted personal or telephone interviews (CAPI/CATI) as well as additional paper-based interviews with the parents. Furthermore, paper and pencil interviews with persons in charge outside the family (institution managers and group managers) were conducted. The survey took place from April to September 2018. Additionally, direct measures of the children were assessed.

<<By speech therapy we mean logopedics, which is performed by a speech therapist. The need for speech therapy is determined by a physician or a therapist. The goal here is to treat disorders, impairments or delays in speech development. Language support refers to general support measures and offers of support. The need for language support is determined on the basis of language level assessments or recommended by educator or teacher. The goal of language support is to encourage and strengthen language development, e.g. by expanding vocabulary. Group manager, PAPI (ID 699)

Dear educator, as a pedagogical specialist you see the children in their day-to-day care routine. In order to obtain a more comprehensive picture of the children, we would now like to ask you some questions about the child participating in the study. In addition, the questionnaire refers to the work with the children you are looking after. Please answer all questions as you see fit. There are no "right" or "wrong" answers. Your personal opinion is important to us! If you cannot or do not want to answer individual questions or if questions do not apply to you, simply leave them out. Participation in this survey is voluntary and will not result in any disadvantages for you. If you do not want to complete the questionnaire, this will of course have no disadvantages for you. Of course, you can also interrupt filling out the questionnaire at any time. It may happen that you have already completed this questionnaire once for another child. For reasons of data protection, it is not possible for us to find out whether you have already completed a questionnaire. Since each completed questionnaire provides important information about the care situation of children in Germany, we would nevertheless ask you to complete this questionnaire again. We thank you very much for your cooperation in this important study, your NEPS-Team

Short notes on completing the questionnaire ☐ In order to comply with the legal provisions on data protection, you will find the name of the child in the cover letter. This will tell you for which child you will be asked to complete part A "Information about the child" of this questionnaire. ☐ In order to achieve the highest possible accuracy in scanner-assisted data collection, please use a black pen to complete the questionnaire and always enter numbers right-justified in the specified boxes. ☐ If you would like to change your answer to a question, please color the box with the no longer valid answer and check the correct box. ☐ Some questions require numerical values. If you do not have these, please estimate as best you can. ☐ Legally we need your consent for the collection and processing of your data. You give your consent by completing and returning this questionnaire. Please also note the "Declaration on data protection" attached to your cover letter. ☐ The assignment of your information to further information about the child is done exclusively via the sequence of numbers printed on the cover sheet. Identification of persons is excluded. ☐ After you have completed the questionnaire, please put it in the enclosed stamped envelope and send it directly to infas. Unauthorised third parties or even members of your institution will not be able to access your data. In order to guarantee your anonymity, please do not note the sender on the return envelope. Thank you very much for your support!

Institution manager, PAPI (ID 663)

Dear institution manager, thank you for taking the time to support our sub-study "Education from the very beginning" by answering the questions. Your cooperation is very important to us and contributes decisively to the success of this study. We would now like to ask you to fill out this questionnaire. This questionnaire relates to your institution. Please answer all questions as you see fit. There are no "right" or "wrong" answers. Your personal opinion is important to us! If you cannot or do not want to answer individual questions or if questions do not apply to you, simply leave them out. Filling out the questionnaire is voluntary and will not cause you any disadvantages. If you do not want to fill out the questionnaire, this will of course have no disadvantages for you. It can happen that you have already filled out this questionnaire once. For reasons of data protection it is unfortunately not possible for us to find out whether you have already filled out a questionnaire. Since each completed questionnaire provides important information about the care situation of children in Germany, we would nevertheless ask you to fill out this questionnaire again. We would like to thank you very much for your cooperation in this important study, your NEPS team

____ Short notes on completing the questionnaire ☐ In order to achieve the highest possible accuracy in scanner-assisted data collection, please use a black pen to complete the questionnaire and always enter numbers right-justified in the specified boxes. ☐ If you would like to change your answer to a question, please color the box with the no longer valid answer and check the correct box. ☐ Some questions require numerical values. If you do not have these, please estimate as best you can. ☐ Legally we need your consent for the collection and processing of your data. You give your consent by completing and returning this questionnaire. Please also note the "Declaration on data protection" attached to your cover letter. ☐ The assignment of your information to further information about the child is done exclusively via the sequence of numbers printed on the cover sheet. Identification of persons is excluded. ☐ After you have completed the questionnaire, please put it in the enclosed stamped envelope and send it directly to infas. Unauthorised third parties or even members of your institution will not be able to access your data. In order to guarantee your anonymity, please do not note the sender on the return envelope. Thank you very much for your support!
