1 Preliminary Remarks & Reading Aid

In this codebook all 20 data files from the NEPS Scientific Use File of Starting Cohort 1 (Version 8.0.0, Onsite; doi:10.5157/NEPS:SC1:8.0.0) with a total of 5607 variables are documented. Each chapter starts with an overwiew of all variables in a file – in the order of their appearance in the file. The variable names are linked to the information on the respective variable.

This information – if available – is presented:

1. question (bold), partly with different wording alternatives with the corresponding conditions and clickable question numbers; closer definition of the question after delimiter ▹
2. variable name (as in data file)
3. variable label from data file
4. reference to the questionnaire (as described in the data manual)
5. question number in instrument after a colon
6. interview instructions inside «…»
7. table with frequencies
    a) column 1: value label
    b) column 2: value
    c) column 3: absolute frequencies (#)
    d) column 4-…: absolute frequencies by wave (if possible)
    e) missing values at the end of table and slanted

The length of the table has been technically limited; where required the number of removed lines is reported.

2. variable name
3. variable label
4. questionnaire
5. question number
t743028 fellow occupants grandchildren 55 : 32302
1. question
[MF] And with whom do you currently live in a household? ▸ with your grandchild / grandchildren «Multiple responses can be given. Read instructions aloud.»
6. interview instruction
b) values
a) value labels

px80400 Willingness: panel participation 801 : 34004

For our study it is important to carry out an interview with all of the respondents in the following year. In order to be able to reach you again we need to keep your address. The legal requirements of data protection require your consent. Your address is, separate from the questionnaire, kept exclusively for the purpose of this additional questionnaire. Of course all of the legal requirements of data protection will be upheld. We request that you continue to support this important this important study through your valuable participation. If you decide to do this we would be most grateful. Your participation is of course voluntary. You can revoke your consent at any time with the contact person at infas without having to state a reason. Do you consent to us keeping your address for exclusively this purpose? «« For the contact details of the contact person at infas, please refer to the cover letter or thank-you letter! If required: The contact person at infas (Ms. Andrea Bauer) can be reached at the phone number (free of charge) 0800 6647436 or by email at NEPS1@infas.de.»»

px80401 Willingness: merging data from federal employment agency 801 : 34027

In order to learn more about possible influences on the development of young children, we would like to include excerpts from data available at the Institute for Employment Research of the Federal Employment Agency in Nuremberg when evaluating the survey. This includes, for example, information on employment, phases of unemployment and participation in measures during unemployment, as well as company characteristics. For the purpose of linking this data to the interview data, I would like to ask you for your consent. If this information is analyzed, it is absolutely guaranteed that all data protection regulations will be strictly met and that the data will not be passed on to third parties. Your consent is, of course, voluntary. You can also withdraw it at any time by contacting the person at infas. Do you agree with the linking of data from the Institute for Employment Research of the Federal Employment Agency? ««E-mail address and number of the contact person are in the cover letter. The consent is of great importance for the evaluation of the study, therefore please answer all questions of the target persons competently and confidently. Intensive knowledge of the data protection sheet is key!»»

px80400 Willingness: panel participation 801 : 34004

For our study it is important to carry out an interview with all of the respondents in the following year. In order to be able to reach you again we need to keep your address. The legal requirements of data protection require your consent. Your address is, separate from the questionnaire, kept exclusively for the purpose of this additional questionnaire. Of course all of the legal requirements of data protection will be upheld. We request that you continue to support this important this important study through your valuable participation. If you decide to do this we would be most grateful. Your participation is of course voluntary. You can revoke your consent at any time with the contact person at infas without having to state a reason. Do you consent to us keeping your address for exclusively this purpose? «« For the contact details of the contact person at infas, please refer to the cover letter or thank-you letter! If required: The contact person at infas (Ms. Andrea Bauer) can be reached at the phone number (free of charge) 0800 6647436 or by email at NEPS1@infas.de.»»

px80401 Willingness: merging data from federal employment agency 801 : 34027

In order to learn more about possible influences on the development of young children, we would like to include excerpts from data available at the Institute for Employment Research of the Federal Employment Agency in Nuremberg when evaluating the survey. This includes, for example, information on employment, phases of unemployment and participation in measures during unemployment, as well as company characteristics. For the purpose of linking this data to the interview data, I would like to ask you for your consent. If this information is analyzed, it is absolutely guaranteed that all data protection regulations will be strictly met and that the data will not be passed on to third parties. Your consent is, of course, voluntary. You can also withdraw it at any time by contacting the person at infas. Do you agree with the linking of data from the Institute for Employment Research of the Federal Employment Agency? ««E-mail address and number of the contact person are in the cover letter. The consent is of great importance for the evaluation of the study, therefore please answer all questions of the target persons competently and confidently. Intensive knowledge of the data protection sheet is key!»»

px02000 Games Consent 162 : 34019

In order to make our survey even more meaningful, we also plan to play some games with <name of the target child> again in addition to the interview. The games are similar to those we offered last time. It will take about 45 minutes to set up and play the games. We would like to offer the games to all children, regardless of whether they have already played them before or not. For this purpose, a female infas interviewer would visit you at home in the next few weeks. Would you be willing to take part in this part of the survey? «Do not read out options. Motivation: 'In order to be able to learn as much as possible about toddlers' development, it is very important to us that you participate.' If there are any questions about handling data or data protection: 'We guarantee that all the information you provide will be treated with the strictest confidentiality and that all statutory data protection regulations will be complied with. The video material will be forwarded by infas to the NESP coordination center at the Otto-Friedrich University in Bamberg, where it will be electronically stored and analyzed in a data security room.' For questions on other ways to find out information: 'Your personal contact at infas is Ms. Andrea Bauer, tel. 0800 - 66 47 436 (free phone) or email at neps1@infas.de If the respondent asks if the games are to be recorded on video this time as well: 'We need to record the games on video this time, too, so that we can analyze our observations.'»

px04003 Introduction of direct measures

478 : 290102

Now I will introduce you briefly the games, which we would like to perform with <name of the target child>. The games are carried out with the help of a tablet PC and last about 30 minutes in total. In order to give you a better idea of what will happen during the games, I have brought an explanation card here. Here you can see what we are doing from different perspectives. Altogether we want to play 3 games with <name of the target child>. In the first game ' Picture puzzle ' <name of the target child> will see different pictures and hear words. In the second game 'Nature and technology game' <name of the target child> can play with pictures that are about animals, plants, natural phenomena and technology. In the last game ' Gift game ' < name of the target child ' can select one of two brought gifts. «if (h_XKTVA2 = 2) Show explanation card. if (h_XKTVA2 = 1) Show explanation card. If the parents want to know why the video recordings are necessary, please read the following: 'With the help of the video recordings we can judge whether the game situations are carried out correctly'. Please note that the games can also be played if video recordings are not desired. If you have any questions regarding data protection, please read the following: 'We guarantee that all your details will be treated confidentially and that all legal data protection regulations will be strictly adhered to. The video data is forwarded by infas to the Leibniz Institute for Educational Trajectories at the Otto-Friedrich University of Bamberg, where it is electronically recorded and analysed in a data security room. The video data will not be passed on to third parties. The video data will be deleted after completion of the study'.»

p515051 Willingness to take risks in general 811 : 19001

Thank you very much for your responses so far. Now we would like to ask you some final questions specifically about the current corona pandemic. How do you personally assess yourself: Are you generally willing to take risks or do you try to avoid risks? «Please answer on a scale from 0 to 10. '0' means you are not willing to take risks at all, '10' means you are very willing to take risks. You can use the numbers in between to gradate your answer.»

p30912a Registration with a childcare institution for over three year olds?

171 : 100001

We are now interested in your opinion on the topic of Kindergarten. The generic term 'Kindergarten' refers not only to all types of Kindergarten, but also to daycare centers and similar childcare institutions for children from the age of three to six. Have you already registered <name of the target child> in such a childcare institution that <name of the target child> is to attend at the age of three or above? «Read out the options. Some of these childcare institutions already accept children from the age of two; these and the following statements include such institutions. If the child already attends a childcare institution: Ask if the child is already registered at this or a different childcare institution from the age of three to six or if it is on a waiting list there. If the child is on a waiting list or the respondent is unsure as to whether the child is officially registered or on a waiting list, please check '1'. If the child is registered with one institution and on the waiting list for another, please check 1.»

You can choose between the following responses: several times per day, once per day, several times per week, once per week or not at all. Read to <name of the target child> or looked at picture books with <name of the target child>. «Read out the options if necessary. If the respondent points out of their own accord that the last week was very untypical for the child (e.g. due to the child being ill), then please read out: 'In this case, please don't refer to the last week, but to the last typical week.' 'Someone else' means all people that live in the household or regularly come to the household, such as acquaintances, relatives or au pairs. In addition to play together, the situations can also refer to, e.g. changing diapers, eating or bathing. not included are situations where something else was being done at the same time, such as house work or talking on the phone.»

228 : 530012

Now we will address everyday behavior or activities of <name of the target child>. Do not bother to think about this if you have not yet observed the asked after things in <name of the target child>. Children develop very differently during the first years. Thus, children are not always immediately successful, e.g. when they want to get a toy or when putting on a new piece of clothing. If <name of the target child> doesn't succeed right away, does she try more than two different approaches to reach her goal?

pa04020 Respondent: Parental leave so far (yes/no)

359 : 440101

Parental leave refers to the period following the birth of the child in which mothers and fathers can choose to look after their child themselves and still maintain contact with their work. Only those mothers and fathers that were in an employment relationship at the time the child was born are entitled to take parental leave. Have you taken parental leave for <name of the target child> since <0190P10/0190P8>? «If there are any questions about the employment relationship: 'Parental leave can be taken in any employment relationship, including fixed-term contracts, part-time contracts and marginal part-time employment. Apprentices, people retraining for different professions, employed people taking further professional training and people that work from home can also apply for parental leave.' The maternity protection period is not part of parental leave, but will be taken into account for the possible total duration of the parental leave. The father's parental leave can already start during the maternal protection period from the moment the child is born. During the parental leave, mothers and fathers can either be completely released from work or work a maximum of 30 hours per week. Self-employeds and unemployed persons are not entitled to parental leave.»

pb11401_v1 Speech support / speech therapy needs - diagnosed 478 : 10100

In our study we are also interested in speech support and speech therapy. Has there ever been a need!!! for speech support or speech therapy for <Target child's name>? «By language support we mean exercises to improve the language skills of children. The aim of these measures is, for example, the age-appropriate pronunciation and use of speech. By speech therapy we mean logopedics. The aim here is to treat linguistic abnormalities. The determination of the need can be done for example by a doctor or therapist.»

p66805a Temperament - Frustration

478 : 070001

The following questions are about the behavior of your child in everyday situations. Please state how strongly each description usually applies to <name of the target child> in such situations. Please give your answers on a scale from 0 to 6. '0' means that the description 'does not apply at all' to <name of the target child>, '6' means that it 'completely applies'. You can indicate your assessment by choosing a number in between. Please refer your answer to the last six months! <name of the target child> is very frustrated when she cannot do what she wants. ««Read out the options if necessary. If the respondent states that the question cannot be answered because the child has not been in such a situation yet, indicate 'not assessable'.»»

p66805l Temperament - Rushes into new situations

478 : 070012

<name of the target child> often charges into new situations. ««Read out answer categories only if necessary.explain: ’0’ means that the description ’does not apply at all’, ’6’ means that it ’completely applies’. The numbers in between can be used to scale the assessment. If the respondent states that the question cannot be answered because the child has never been in such a situation, indicate ’not assessable’.»

p31540a Knowledge about enrollment – choice elementary school 1 528 : 76002

now, I'd like to ask you some concrete questions about the topic school enrollment. Please consider the regulations in the federal state that you are currently living in. If you don't know the answer, please state 'don't know'! For long time, every federal state had so-called school districts. This means that the state assigns every child to a public elementary school according to its place of residence. How is it nowadays in your federal state? Are there any school districts?

p416090 Language support measure in care institution 528 : 10103

Has <name of the target child> received additional language support in a care institution, e.g. kindergarten, since our last interview in <0190P32/0190P30>?
«« By language support in a care institution we do not mean speech therapy or logopedics. Language support within a care facility includes pre-school language support programs to strengthen and develop language skills, e.g. by the educator or other support staff. If the respondent is not sure about the care institution: ’ By care institution we do not mean the school, but rather all types of daycare or care institution for children, including parent-child initiatives, i.e. care institutions managed by parents and/or educators themselves’. »»

The next questions are about your personal environment and the pursuit of different professions. Please tell me whether you know a person in your personal environment who is currently pursuing such a profession in Germany. By personal environment I mean, for example, your partner, your family or relatives, your friends, colleagues or other acquaintances. Do you know a nurse in your personal environment? «A nurse can only be considered part of your social circle if your relationship with this person is more than purely professional.»

What is your partner's highest general school-leaving qualification? ««Read the options aloud only if necessary, have allocated. If 'Fachabitur' is specified: please ask 'Did this allow access to higher education at a university of applied sciences or a university?' In case of university of applied sciences, assign to category 4, in case of university, assign to category 5. For qualifications acquired abroad: 'What would this qualifications approximately correspond to in Germany?'»»

pa07000 Partner: Working hours and childcare

801 : 670002

For some parents it is possible to take care of their child during working hours, e.g. if they work from home or if they are allowed to bring their children to work. How many hours of your partner's average weekly working time does he/she simultaneously spend taking care of <name of target child> !!while!! working? ««If the child is not (or cannot be) cared for by the partner while working, enter '0'. If it varies, ask for the average.»»

p723400 Grade attended 801 : 58126

Which grade does <name of target child> currently attend? «At some schools there are school entry levels or phases. In these schools, there are no age-group classes; instead, teaching is carried out throughout several age groups, i.e. usually the 1st and 2nd grades together. In some cases there is even a flexible length of stay of up to three years of school attendance. Therefore parents cannot specify a grade sometimes. If it is not a school entry level and the respondent is not able to specify a grade, enter ' don't know'. Class level is the same as grade level.»

p190201 Special educational diagnosis 801 : 58143

Does your child !!currently!! have special educational needs? This means that an expert opinion has been created by a special needs teacher or another specialist, e.g. a psychologist or a physician, about your child's learning abilities. «In case of comprehension questions: Special needs teachers are specialists who have been trained to provide special support to students with problems with learning, vision, hearing, behavior, speech, or physical handicaps. In case of further questions: 'dyscalculia, dyslexia and intellectual giftedness are not special educational needs.' 'If an expert opinion was issued a long time ago and is still valid, your child has special educational needs.'»

pb11401 Language support/speech therapy need - diagnosed 801 : 10100

In our study we are also interested in language support and speech therapy. Has <name of target child> ever been !!diagnosed!! with a need for language support or speech therapy? ««Speech therapy refers to logopedics carried out by a speech therapist. The need for speech therapy is diagnosed by a doctor or a therapist. The goal is to treat disorders, impairments or delays in speech development. Language support refers to general support measures and support offers. The need for language support is determined on the basis of a diagnostic test or recommended by an educator or a teacher. The goal of language support is to promote and strengthen language development, e.g. by expanding vocabulary. Language support is a helpful tool e.g. for multilingual children in their language development.»»

In the following we will talk about the use of digital media by <name of target child>. Please indicate how often <name of target child> normally uses devices such as tablets, mobile phones, computers or game consoles. ««Please read the options aloud. If the respondent asks what game consoles are, answer: game consoles are Nintendo, Play Station or Xbox, for example. If the respondent mentions each of the devices, say that it is about the general use of such devices, not about each of them. If the respondent wants to know whether television is also one of the media, answer that normal TVs are not included. However, tablets, mobile phones or computers, on which films or television can also be watched, are.»»

p418000 Language of origin Readng 801 : 54001

You have just told us that you or someone else read(s) something to <name of target child> at home. Now we are interested in what language this happens. During this interview we noted that <name of target child> has learned <36029> in your family. How often do you or does someone else read something to <name of target child> in <36029> at home? «« Read the options aloud only if necessary. If a spontaneous answer is given which can be clearly assigned to the answer categories (e.g. three times a day = category 1 several times a day), please assign and don't ask again or read all categories aloud. Ask only in case of uncertainty.» «By 'someone else' we mean all persons who live in the household or regularly come to the household, e.g. acquaintances and relatives. If the displayed language of origin does not correspond to the statement of the respondent, please select the button 'language of origin only German' or 'other non-German language of origin' and: 'Please excuse me. We must have noted that wrong.' »»

px80400 Willingness: panel participation 801 : 34004

For our study it is important to carry out an interview with all of the respondents in the following year. In order to be able to reach you again we need to keep your address. The legal requirements of data protection require your consent. Your address is, separate from the questionnaire, kept exclusively for the purpose of this additional questionnaire. Of course all of the legal requirements of data protection will be upheld. We request that you continue to support this important this important study through your valuable participation. If you decide to do this we would be most grateful. Your participation is of course voluntary. You can revoke your consent at any time with the contact person at infas without having to state a reason. Do you consent to us keeping your address for exclusively this purpose? «« For the contact details of the contact person at infas, please refer to the cover letter or thank-you letter! If required: The contact person at infas (Ms. Andrea Bauer) can be reached at the phone number (free of charge) 0800 6647436 or by email at NEPS1@infas.de.»»

px80401 Willingness: merging data from federal employment agency 801 : 34027

In order to learn more about possible influences on the development of young children, we would like to include excerpts from data available at the Institute for Employment Research of the Federal Employment Agency in Nuremberg when evaluating the survey. This includes, for example, information on employment, phases of unemployment and participation in measures during unemployment, as well as company characteristics. For the purpose of linking this data to the interview data, I would like to ask you for your consent. If this information is analyzed, it is absolutely guaranteed that all data protection regulations will be strictly met and that the data will not be passed on to third parties. Your consent is, of course, voluntary. You can also withdraw it at any time by contacting the person at infas. Do you agree with the linking of data from the Institute for Employment Research of the Federal Employment Agency? ««E-mail address and number of the contact person are in the cover letter. The consent is of great importance for the evaluation of the study, therefore please answer all questions of the target persons competently and confidently. Intensive knowledge of the data protection sheet is key!»»

pa04020 Respondent: Parental leave so far (yes/no)

359 : 440101

Parental leave refers to the period following the birth of the child in which mothers and fathers can choose to look after their child themselves and still maintain contact with their work. Only those mothers and fathers that were in an employment relationship at the time the child was born are entitled to take parental leave. Have you taken parental leave for <name of the target child> since <0190P10/0190P8>? «If there are any questions about the employment relationship: 'Parental leave can be taken in any employment relationship, including fixed-term contracts, part-time contracts and marginal part-time employment. Apprentices, people retraining for different professions, employed people taking further professional training and people that work from home can also apply for parental leave.' The maternity protection period is not part of parental leave, but will be taken into account for the possible total duration of the parental leave. The father's parental leave can already start during the maternal protection period from the moment the child is born. During the parental leave, mothers and fathers can either be completely released from work or work a maximum of 30 hours per week. Self-employeds and unemployed persons are not entitled to parental leave.»
