1 Overview and Reading Aid

The documents in this section are based on the field versions but are supplemented by the variable names and values. The variable names in this generated document are also used in the data files. The field versions can be found in the corresponding column “Startkohorte 1: Neugeborene (SC1), Welle 8, Erhebungsinstrumente (Feldversion)” (only available in German). For the work with the data, it is recommended to prefer the SUF version over the field version. The material corresponds to version 8.0.0 of the Scientific Use File (SUF) for the Starting Cohort 1 (SC1) (doi:10.5157/NEPS:SC1:8.0.0). Figure 1 describes the possible components of the documented survey.

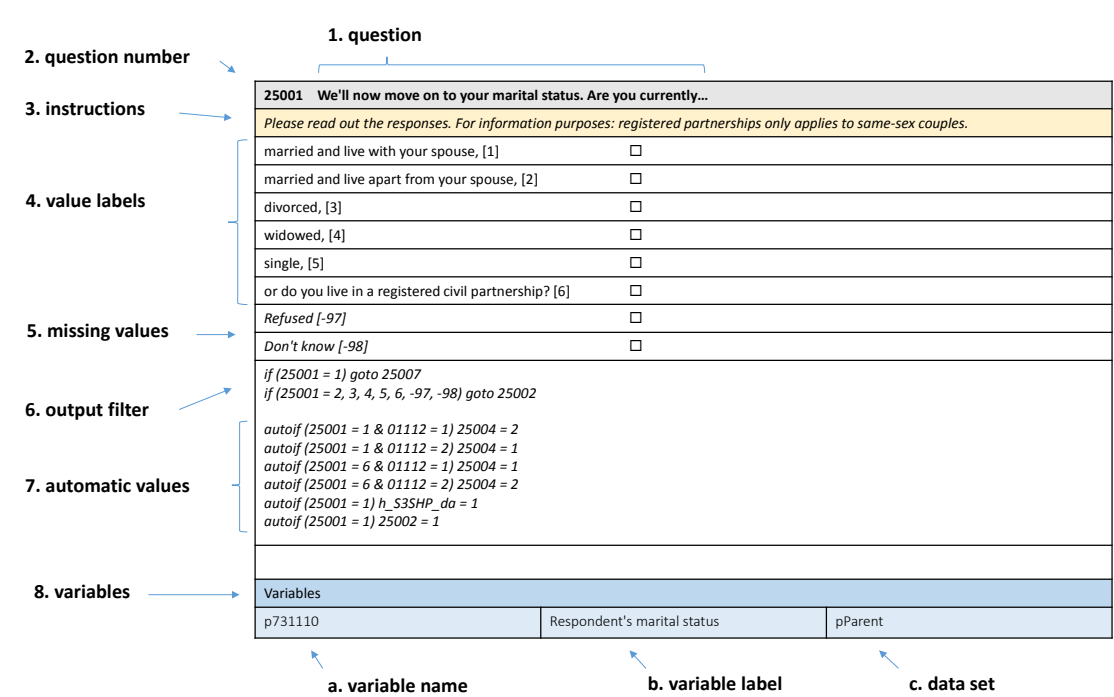

Figure 1: Reading aid for survey tools

If available, this information includes the following:

1. Questions (bold): Text, which is a) handed out in the form of PAPI or online surveys and b) read out during CATI or CAPI surveys by an interviewer (sometimes with variations depending on specific conditions).
2. Question numbers in the survey tool (bold)
3. Instructions (italic, shaded in yellow) are considered as a) guidelines for PAPI or online surveys and b) instructions for the interviewer for CATI or CAPI surveys, in order to ask the questions in a correct way and react appropriately to inquiries. These are not read out by the interviewer.
4. Values labels
5. Missing values (italic)
6. Output filters (italic)

7. Automatic values (*italic*): Under certain conditions, these are necessary, e.g. when coding auxiliary variables.
8. Variables
 - a) Variable name in SUF-data set (variable names indicated in brackets are not part of the SUF)
 - b) Variable label: This is a short form of the description of the item.
 - c) Data set, in which the variable(s) can be found.

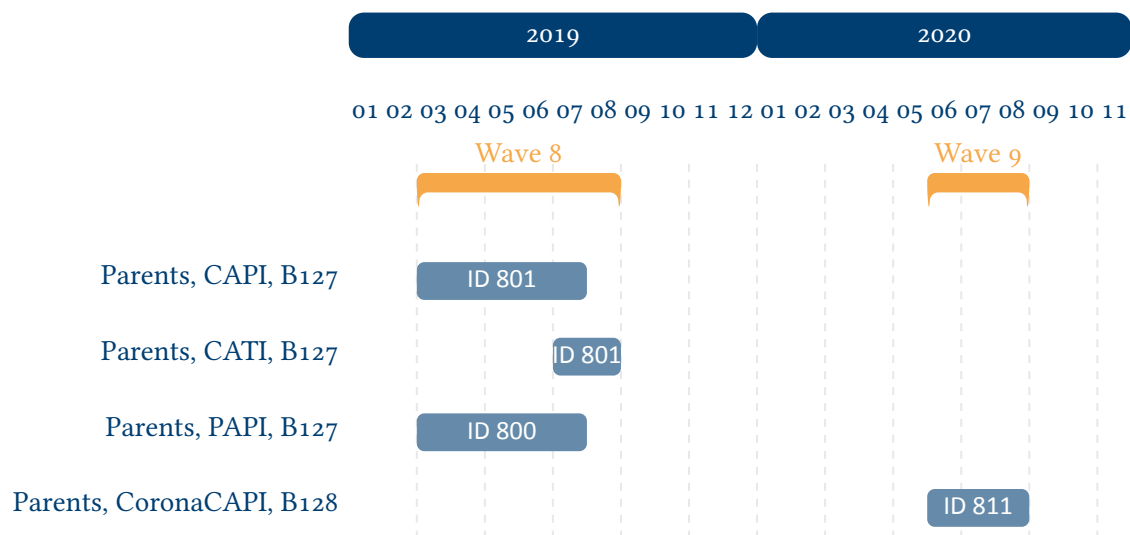

Figure 2: Survey of Starting Cohort 1 and IDs of the instruments in wave 8 and the CoronaCAPI module for parents in wave 9

Figure 2 gives an overview of the field time for the eighth main survey. The main survey was conducted between March and August 2019 using computer-assisted personal interviews (CAPI) or alternatively telephone interviews (CATI) and additional paper questionnaires (PAPI) for the parents. Four competence tests (direct measures as TBT tests) were conducted with the children as part of the eighth main survey. In addition, this overview contains the corona module of the parents CAPI from the ninth main survey, which is released in advance with the release of the eighth wave.

58126 Which grade does <name of target child> currently attend?

At some schools there are school entry levels or phases. In these schools, there are no age-group classes; instead, teaching is carried out throughout several age groups, i.e. usually the 1st and 2nd grades together. In some cases there is even a flexible length of stay of up to three years of school attendance. Therefore parents cannot specify a grade sometimes. If it is not a school entry level and the respondent is not able to specify a grade, enter "don't know". Class level is the same as grade level.

58143 Does your child !!currently!! have special educational needs? This means that an expert opinion has been created by a special needs teacher or another specialist, e.g. a psychologist or a physician, about your child's learning abilities.

In case of comprehension questions: Special needs teachers are specialists who have been trained to provide special support to students with problems with learning, vision, hearing, behavior, speech, or physical handicaps. In case of further questions: "dyscalculia, dyslexia and intellectual giftedness are not special educational needs." "If an expert opinion was issued a long time ago and is still valid, your child has special educational needs."

10100 In our study we are also interested in language support and speech therapy. Has <name of target child> been !!diagnosed!! with a need for language support or speech therapy since our last interview in <0190P36/0190P34>?

<<Speech therapy refers to logopedics carried out by a speech therapist. The need for speech therapy is diagnosed by a doctor or a therapist. The goal is to treat disorders, impairments or delays in speech development. Language support refers to general support measures and support offers. The need for language support is determined on the basis of a diagnostic test or recommended by an educator or a teacher. The goal of language support is to promote and strengthen language development, e.g. by expanding vocabulary. Language support is a helpful tool e.g. for multilingual children in their language development.>>

Modul20 Gen. S5 Household income

200001 In many cases, childcare or education of children entails costs. In the following, we will therefore look at the total income of your entire household: What is the monthly household income of all household members today? Please indicate the net amount, i.e. after deduction of taxes and social security contributions. Please include regular payments such as pensions, housing allowance, parental and child benefits, BAföG, alimony payments, unemployment benefits, etc.!

<<If not known exactly: have the monthly amount estimated. Inform about anonymity. If unclear what the net income is: "Please indicate the amount you received after deduction of taxes and social security contributions".>>

Modul34 Gen infas Final questions

34004 For our study it is important to carry out an interview with all of the respondents in the following year. In order to be able to reach you again we need to keep your address. The legal requirements of data protection require your consent. Your address is, separate from the questionnaire, kept exclusively for the purpose of this additional questionnaire. Of course all of the legal requirements of data protection will be upheld. We request that you continue to support this important study through your valuable participation. If you decide to do this we would be most grateful. Your participation is of course voluntary. You can revoke your consent at any time with the contact person at infas without having to state a reason. Do you consent to us keeping your address for exclusively this purpose?

<< For the contact details of the contact person at infas, please refer to the cover letter or thank-you letter! If required: The contact person at infas (Ms. Andrea Bauer) can be reached at the phone number (free of charge) 0800 6647436 or by email at NEPS1@infas.de.>>
