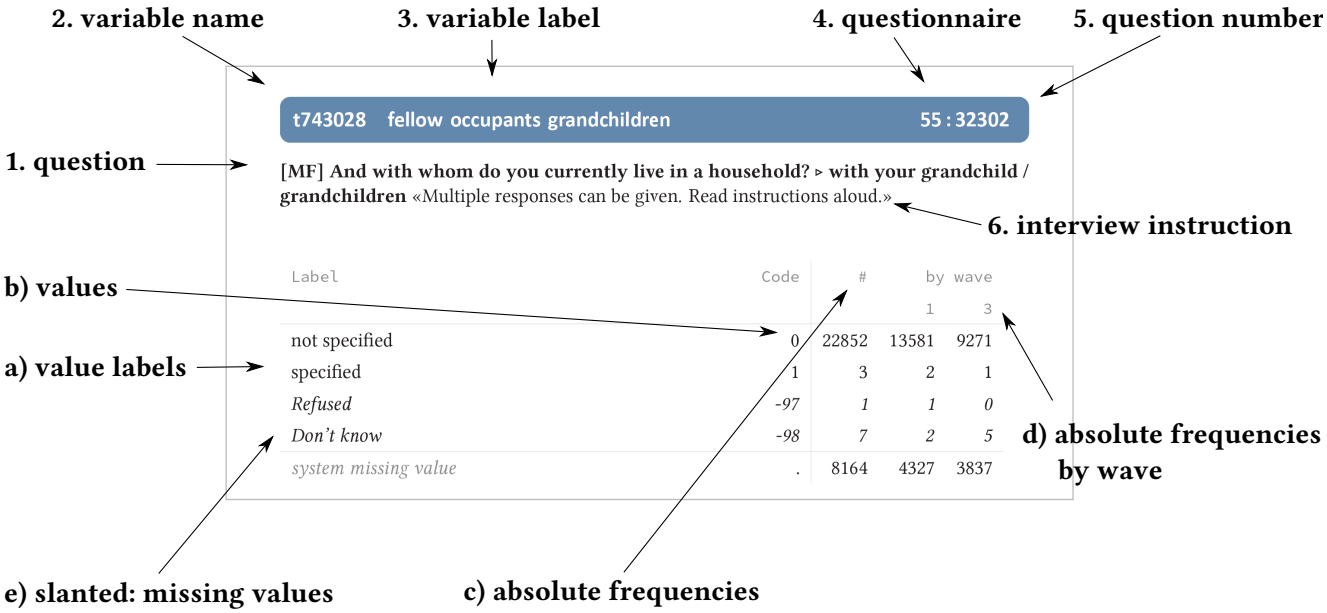
1 Preliminary Remarks & Reading Aid

In this codebook all 18 data files from the NEPS Scientific Use File of Starting Cohort SC2 (Version 4.0.0, Onsite; doi:10.5157/NEPS:SC2:4.0.0) with a total of 3268 variables are documented. Each chapter starts with an overwiew of all variables in a file – in the order of their appearance in the file. The variable names are linked to the information on the respective variable.



This information – if available – is presented:

1. question (bold), partly with different wording alternatives with the corresponding conditions and clickable question numbers; closer definition of the question after delimiter ▹
2. variable name (as in data file)
3. variable label from data file
4. reference to the questionnaire (as described in the data manual)
5. question number in instrument after a colon
6. interview instructions inside «...»
7. table with frequencies
   a) column 1: value label
   b) column 2: value
   c) column 3: absolute frequencies (#)
   d) column 4-...: absolute frequencies by wave (if possible)
   e) missing values at the end of table and slanted

The length of the table has been technically limited; where required the number of removed lines is reported.

Regardless of this, does your child ‼currently‼ have any special educational needs (SEN)? This means that a special needs teacher has assessed your child's learning capabilities. «If there are any questions about what special needs teachers are: These are teachers who have been trained to offer particular support to students who have learning disabilities, hearing defects, behavioral problems, speech impediments, or who are visually impaired or physically disabled. If there are any questions: Dyscalculia, dyslexia and being highly-gifted are not special educational needs. If an assessment was issued some time ago and it is still valid, your child has special educational needs.»

p723400 Grade 211 : 58126

What grade is <target child's name> attending currently? «Some schools have school entrance stages or phases. Here, students are taught in classes with mixed grades, usually the first and second grade together, rather than in grade-specific classes. Sometimes there is even a flexible school attendance period of up to three years. Parents can therefore not always specify the class. 'Grade' is synonymous with 'school year'.»

p712051 School enrollment regular, early, delayed 175 : 11107

Did <name of target child> start school regularly, early or delayed? «In case of questions: Early school enrollment means a child starts school before the start of compulsory education. These children are also referred to in some states as 'can' children. In case of questions: Delayed attendance means that a child has been deferred from attending school for one year and thus started school later, although he/she would have been required to attend school according to date specified by the state.»
