1 Preliminary Remarks & Reading Aid

In this codebook all 20 data files from the NEPS Scientific Use File of Starting Cohort 2 (Version 6.0.0, Onsite; doi:10.5157/NEPS:SC2:6.0.0) with a total of 4387 variables are documented. Each chapter starts with an overwiew of all variables in a file – in the order of their appearance in the file. The variable names are linked to the information on the respective variable.

This information – if available – is presented:

1. question (bold), partly with different wording alternatives with the corresponding conditions and clickable question numbers; closer definition of the question after delimiter ▹
2. variable name (as in data file)
3. variable label from data file
4. reference to the questionnaire (as described in the data manual)
5. question number in instrument after a colon
6. interview instructions inside «...»
7. table with frequencies
   a) column 1: value label
   b) column 2: value
   c) column 3: absolute frequencies (#)
   d) column 4-...: absolute frequencies by wave (if possible)
   e) missing values at the end of table and slanted

The length of the table has been technically limited; where required the number of removed lines is reported.

What is the highest level of general school-leaving qualification that your partner has? «Read out options only if necessary, allocate appropriately. If 'Fachabitur' is indicated, please ask: 'Does this provide you the eligibility to study at a university of applied sciences or a university?' In case of 'Fachhochschule [university of applied sciences]' assign to category 4, in case of university, assign to category 5. For qualifications that were obtained abroad, please allocate as follows: 'What would be the approximate equivalent qualification in Germany?'»

p281365 Learning environment at home - painting, drawing, doing crafts 175 : 06110

[NCS] Now we would like to look at things which you, or someone else, do at home with <name of target child>. I am interested in how often you do things like this together such as you, or someone else, reading aloud to <name of target child> at home. You, or someone else, paint, draw or do crafts with <name of target child> at home. «Read options aloud only if necessary. If a spontaneous answer is given, which can be clearly assigned to an answer category (e.g. three times a day = category 1 several times a day), please allocate appropriately and do not ask again or read out all the categories. Only ask again if something is unclear. 'someone else' means anyone who lives in the household or who regularly comes into the household e.g. relatives and friends.»

Does <target child's name> regularly take part in sports activities, e.g. children's gymnastics or swimming, training at a sports club, riding lessons or similar? Regular means that there are fixed times, which, however, can be arranged separately each time, meaning that they don't necessarily run according to a strict plan.' p723400 Attended grade level 373 : 58126

What grade is <name of target child> in currently? «In some schools, there are school entrance stages or phases. No grade-specific classes are formed, but teaching is done across several grades, usually the first and second grade together. Sometimes there even is a flexible retention time of up to three years of school attendance. Parents can therefore not always specify the class. Grade level is equivalent to grade.»

p190100 Current special needs education 373 : 58142

Is your child ‼currently‼ receiving particular support from a special needs teacher at school? «If there are any questions about what special needs teachers are: These are teachers who have been trained to offer particular support to students who have learning disabilities, hearing defects, behavioral problems, speech impediments, or who are visually impaired or physically disabled. If there are any questions: There are schools where a special needs teacher comes into the classroom on a regular basis to offer assistance to those students who are in particular need of it. If this is the case for your child, I can make a note of this here [[Interviewer: Please press 'whole class receives special needs lessons' button]].»

p190200 Diagnosis of special educational needs 373 : 58143

Regardless of this, does your child ‼currently‼ have any special educational needs (SEN)? This means that a special needs teacher has assessed your child's learning capabilities. «If there are any questions about what special needs teachers are: These are teachers who have been trained to offer particular support to students who have learning disabilities, hearing defects, behavioral problems, speech impediments, or who are visually impaired or physically disabled. If there are any questions: Dyscalculia, dyslexia and being highly-gifted are not special educational needs. If an assessment was issued some time ago and it is still valid, your child has special educational needs.»
