t291541 Good preparation in work techniques 738 : 67108

We now have some questions about your higher education program. First of all, it is about how well-prepared you felt for the higher education program. If you think back to the time when you started university: how would you rate the following statements? When I started university, I was sufficiently familiar with and comfortable with the work techniques needed for university study (proper citation of sources, taking down a record of a discussion, planning experiments, etc.). «Please mark the relevant answer for each of the following.»

The next section deals with your experiences with your current degree program. If you are studying several subjects, these can be quite different, for example, in terms of content and/or the organization of the curriculum. For this reason, we ask you to select the main/primary subject to that you would like to relate your information in the next few questions. «Please state the name of your main/primary subject and select the exact name from the list below. Then click on the gray arrow to confirm your selection.»

There are several reasons why one chooses a particular profession. Income often plays a major role. First of all, we would like to know how high you estimate your future monthly net income to be. This is the money that is transferred directly to your account. How high do you think this net income will be in the period immediately after vocational training or studies? …… in your future profession? «If you are unsure, just estimate an approximate amount. Please enter numbers.»

Have you acquired a general school-leaving certificate or have been awarded one since <20101P3(intmPRE / intjPRE)> (for example, by taking an external examination or by reaching grade 11 of the Gymnasium)? «As a participant in an external examination you are not attending preparatory classes in order to obtain the corresponding school-leaving qualification, but rather preparing yourself independently or through other classes. General educational qualifications are e.g. school-leaving certificate of a Hauptschule, school-leaving certificate of a Realschule (Mittlere Reife), entry qualification for universities of applied sciences (Fachhochschulreife) or Abitur; they do not count as vocational training for a profession.»
