## 1 Overview and Reading Aid

The documents in this section are based on the field versions but are extended by including the variable names and values. The variable names used in this generated document of the questionnaires and programming masters can be found in the data files, as well. The field versions can be found in the corresponding column "Starting Cohort 3: Grade 5 (SC3), Wave 2, Survey Instruments (Field Version)" (only available in German). We recommend using the provided SUF versions over the field versions when working with the data. The material corresponds to Version 5.0.0 of the Scientific Use File (SUF) for the Starting Cohort 3 (SC3) (doi:10.5157/NEPS:SC3:4.0.0). Figure 1 describes the possible components of the documented survey.

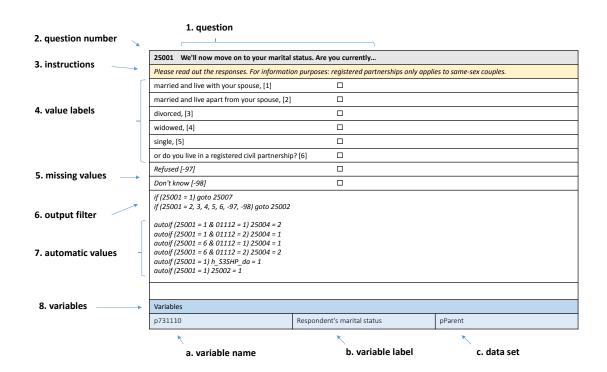

Figure 1: Reading aid for survey tools

If available, this information includes the following:

- Questions (bold): Text, which is a) handed out in the form of PAPI or online surveys and b) read out during CATI or CAPI surveys by an interviewer (sometimes with variations depending on specific conditions).
- 2. Question numbers in the survey tool (bold)
- 3. Instructions (italic, shaded in yellow) are considered as a) guidelines for PAPI or online surveys and b) instructions for the interviewer for CATI or CAPI surveys, in order to ask the questions in a correct way and react appropriately to inquiries. These are not read out by the interviewer.
- 4. Values labels
- 5. Missing values (italic)

- 6. Output filters (italic)
- 7. Automatic values (italic): Under certain conditions, these are necessary, e.g. when coding auxiliary variables.
- 8. Variables (shaded in blue)
  - a) Variable name in SUF-data set (variable names indicated in brackets are not part of the SUF)
  - b) Variable label: This is a short form of the description of the item.
  - c) Data set, in which the variable(s) can be found.

Figure 2: Survey of Starting Cohort 3 and ID of the survey instruments in wave 2

Figure 2 gives an overview of the field time for the second main survey. The survey was conducted via PAPI questionnaires within the school context from November 2011 to March 2012. Computer assisted interviews (CAPI) with the parents took place from February to May 2012.

Students of the 6th grade are interviewed in two samples - for regular schools and for schools for special educational needs (SEN). The questionnaires for the sample of students with special educational needs (SEN) contained a subset of the questions for students in regular schools. Moreover, as part of the second wave, information was collected on school teachers, school classes (via teachers), and on the schools themselves (via school principal).

The course of survey and all the applied survey instruments with IDs are provided in the figure. If there are divergent instruments for first-time and panel interviewees, the more extensive instrument for first-time interviewees will be put in the first place, the instrument for repeatedly interviewees in brackets. All questionnaires were used in the context of regular and special schools, divergent instruments are marked accordingly. During this wave new schoolmates of the students willing to participate in the panel survey were asked likewise; these are marked as first-time interviewees.

# **Questions regarding classes and learning**

| 10 To what extent do the fo  | To what extent do the following statements apply to your class? |                                 |                            |                |  |  |
|--|---|---------------------------------|----------------------------|----------------|--|--|
| Please tick a box in each line.  |   |                                 |                            |                |  |  |
|  | Does not apply [1]  | Does not<br>really apply<br>[2] | Applies to some extent [3] | Does apply [4] |  |  |
| I give students assignments ranging in complexity based on their capability.                               |   |                                 |                            |                |  |  |
| I am quick to notice a troubled student.   |   |                                 |                            |                |  |  |
| Everyone in my class knows the "rules of the game."  |   |                                 |                            |                |  |  |
| In my classes, exercises are repeated to solidify what my students have learned.                           |   |                                 |                            |                |  |  |
| I discuss general and current topics with my students even if it puts my lesson plan behind schedule.      |   |                                 |                            |                |  |  |
| I see it as my job in the classroom to present and teach proven concepts.                                  |   |                                 |                            |                |  |  |
| I summarize the material so that my students will remember it better.                                      |   |                                 |                            |                |  |  |
| In my class I often ask students to justify their answers with arguments.                                  |   |                                 |                            |                |  |  |
| There's a friendly and trusting relationship between me and my students.                                   |   |                                 |                            |                |  |  |
| I think absolute quiet in the classroom is important.  |   |                                 |                            |                |  |  |
| In my class the students are encouraged to find out for themselves why something is wrong or doesn't work. |   |                                 |                            |                |  |  |
| I like to give the faster students extra tasks to challenge them.  |   |                                 |                            |                |  |  |

## **Question regarding the career choice and training**

Teachers take up their profession for completely different reasons and pick different approaches to their professional goals. In order to be able to consider these individual motives and approaches, we would like to ask you some questions on your career choice and training.

| How important do you consider the following aspects for your job as a teacher?   |  |                            |                              |                      |                       |
|--|--|----------------------------|------------------------------|----------------------|-----------------------|
| Please tick a box in   | n each line.   |                            |                              |                      |                       |

#### **Questions about the composition of the class**

The educational work is dependent on the composition of the students in the classes. We therefore want to ask you some questions about the student population in your class. Where no exact information is available, please estimate.

| 1 How m                              | 1 How many students does your class consist of?              |                       |  |  |  |  |  |  |

#### **Questions about mainstreaming**

Some schools practice mainstreaming, i.e. students both with and without special educational needs learn together in the same class.

# 3.2 Regular schools: class teachers (ID 75)

|   | Are there any students in your class with diagnosed special educational needs? If yes, how many? |                         |                        |                     |                         |  |  |
|---|--|-------------------------|------------------------|---------------------|-------------------------|--|--|
| Please tick only on   | e answer.  |                         |                        |                     |                         |  |  |

# **Questions about spelling lessons**

At lower secondary level, the survey of competences in the written language, particularly in spelling, is a core feature of the NEPS study. Therefore, we are interested in finding out how you address spelling as a central topic in German lessons.

| 11 In Gern              | nan lessons, how much tir      | me on average do you spend or                         | n spelling?               |

#### **General questions about math classes**

First of all, we would like to ask you questions on how you conduct and organize math lessons in your class. Therefore, we have some questions on the teaching structure, your teaching methods and the type of performance assessment.

## **Questions about mainstreaming**

Some schools practice mainstreaming, i.e. students both with and without special educational needs learn together in the same class.

|   | ere any students<br>ow many? | s in your scho          | ool with diagr         | nosed special       | educational ı        | needs? If |
