1 Preliminary Remarks & Reading Aid

In this codebook all 18 data files from the NEPS Scientific Use File of Starting Cohort 3 (Version 6.0.0, Onsite; doi:10.5157/NEPS:SC3:6.0.0) with a total of 5329 variables are documented. Each chapter starts with an overwiew of all variables in a file – in the order of their appearance in the file. The variable names are linked to the information on the respective variable.

This information – if available – is presented:

1. question (bold), partly with different wording alternatives with the corresponding conditions and clickable question numbers; closer definition of the question after delimiter ▹
2. variable name (as in data file)
3. variable label from data file
4. reference to the questionnaire (as described in the data manual)
5. question number in instrument after a colon
6. interview instructions inside «...»
7. table with frequencies
   a) column 1: value label
   b) column 2: value
   c) column 3: absolute frequencies (#)
   d) column 4-...: absolute frequencies by wave (if possible)
   e) missing values at the end of table and slanted

The length of the table has been technically limited; where required the number of removed lines is reported.

p723400 Attended grade level 323 : 58126

What grade is <name of target child> in currently? «In some schools, there are school entrance stages or phases. No grade-specific classes are formed, but teaching is done across several grades, usually the first and second grade together. Sometimes there even is a flexible retention time of up to three years of school attendance. Parents can therefore not always specify the class. Grade level is equivalent to grade.»

Regardless of this, does your child ‼currently‼ have any special educational needs (SEN)? This means that a special needs teacher has assessed your child's learning capabilities. «If there are any questions about what special needs teachers are: These are teachers who have been trained to offer particular support to students who have learning disabilities, hearing defects, behavioral problems, speech impediments, or who are visually impaired or physically disabled. If there are any questions: Dyscalculia, dyslexia and being highly-gifted are not special educational needs. If an assessment was issued some time ago and it is still valid, your child has special educational needs.»
