1 Preliminary Remarks & Reading Aid

In this codebook all 35 data files from the NEPS Scientific Use File of Starting Cohort SC4 (Version 7.0.0, Onsite; doi:10.5157/NEPS:SC4:7.0.0) with a total of 6052 variables are documented. Each chapter starts with an overwiew of all variables in a file – in the order of their appearance in the file. The variable names are linked to the information on the respective variable.

This information – if available – is presented:

1. question (bold), partly with different wording alternatives with the corresponding conditions and clickable question numbers; closer definition of the question after delimiter ▹
2. variable name (as in data file)
3. variable label from data file
4. reference to the questionnaire (as described in the data manual)
5. question number in instrument after a colon
6. interview instructions inside «...»
7. table with frequencies
   a) column 1: value label
   b) column 2: value
   c) column 3: absolute frequencies (#)
   d) column 4-...: absolute frequencies by wave (if possible)
   e) missing values at the end of table and slanted

The length of the table has been technically limited; where required the number of removed lines is reported.

tx80401 Willingness: merging data from Federal Employment Agency 207 : 26400

In order to keep the following interview sections as short as possible, we would like to incorporate data held by the 'Institut für Arbeitsmarkt- und Berufsforschung der Bundesagentur für Arbeit' (Institute for Employment Research of the Federal Employment Agency) in Nuremberg into the analysis of this questionnaire. This includes, for instance, information relating to previous employment relationships, phases of unemployment, participation in training measures during unemployment as well as company characteristics. I would ask you to give your official consent for the transfer and incorporation of this data into the interview data. If this information is evaluated, we guarantee that it is done so in strict compliance with all data protection regulations and that no information is passed on to third parties. Your consent is, of course, voluntary. You can withdraw this consent at any time by informing the contact person at infas. Do you consent to the transfer of data held by the 'Institut für Arbeitsmarkt- und Berufsforschung der Bundesagentur für Arbeit' (Institute for Employment Research of the Federal Employment Agency)? «Contact person's details, e-mail address and telephone number are given in the letter. This consent is of great importance to the analysis of the study. Therefore please answer any questions the target persons may have in a professional, competent manner. A high degree of familiarity with the data protection sheet is vital!»

What grade is <target child's name> attending currently? «Some schools have school entrance stages or phases. Here, students are taught in classes with mixed grades, usually the first and second grade together, rather than in grade-specific classes. Sometimes there is even a flexible school attendance period of up to three years. Parents can therefore not always specify the class. 'Grade' is synonymous with 'school year'.»

Regardless of this, does your child ‼currently‼ have any special educational needs (SEN)? This means that a special needs teacher has assessed your child's learning capabilities. «If there are any questions about what special needs teachers are: These are teachers who have been trained to offer particular support to students who have learning disabilities, hearing defects, behavioral problems, speech impediments, or who are visually impaired or physically disabled. If there are any questions: Dyscalculia, dyslexia and being highly-gifted are not special educational needs. Then we haven't recorded that correctly. Please tell me, what is your current occupation? «Please ask for an exact job description or occupation. For example, please don't put 'mechanic' but rather 'precision or car mechanic', or instead of 'teacher' put 'History teacher at a Gymnasium'. In the case of temporary employment [placement by commercial employment agencies], please ask for the main occupation at the same temporary employment firm: 'What is your main occupation at the temporary employment firm?' If someone has several occupations, please indicate the activity with the greatest number of hours, if this is the same, please relate the questions to the occupation with the higher income.»

p510005 Monthly household income, open 211 : 28001

In many areas, child care and vocational training for children can be costly. Now, we would like to look at all of the income from your entire household: What is the current monthly household income from all the members of the household? Please give the net amount, after deduction of all taxes and social security contributions. Please include regular payments such as pensions, rent allowance, parental and child allowance, student loans/grants, alimony payments, unemployment benefits, etc.! «If this is not known exactly, ask for a monthly estimate. Mention anonymity. If there are uncertainties about the net income: 'Please tell me the amount you receive after all taxes and social security contributions have been deducted.'»
