# 1 Preliminary Remarks & Reading Aid

In this codebook all 38 data files from the NEPS Scientific Use File of Starting Cohort 4 (Version 9.1.0, Onsite; doi:10.5157/NEPS:SC4:9.1.0) with a total of 6932 variables are documented. Each chapter starts with an overwiew of all variables in a file – in the order of their appearance in the file. The variable names are linked to the information on the respective variable.

This information – if available – is presented:

1. question (bold), partly with different wording alternatives with the corresponding conditions and clickable question numbers; closer definition of the question after delimiter ▹
2. variable name (as in data file)
3. variable label from data file
4. reference to the questionnaire (as described in the data manual)
5. question number in instrument after a colon
6. interview instructions inside «...»
7. table with frequencies
   a) column 1: value label
   b) column 2: value
   c) column 3: absolute frequencies (#)
   d) column 4-...: absolute frequencies by wave (if possible)
   e) missing values at the end of table and slanted

The length of the table has been technically limited; where required the number of removed lines is reported.

## tf80504 Type of draw 240 : 60771

**Following every survey, you get a small thank you in the form of cash. We would also like to thank all of the participants in 2016 for their regular participation in our surveys with a small campaign. We are interested in what our participants would like. We have a set sum of money. We could spend the money on different campaigns. Firstly: We hold a draw, for which the money is distributed between many small prizes, i.e. many participants have the chance of receiving small prizes. Secondly: We hold a draw, for which the money is distributed between a small number of large prizes, i.e. a few participants have the chance of receiving a large prize. Thirdly: We do not hold a draw but instead spend the money on a social project. Fourthly: We divide the sum of money equally between all of the participants and pay it in addition to the usual thank you. Which of these campaigns would you like best?**

## p723400 Grade 211 : 58126

**What grade is <target child's name> attending currently?** «Some schools have school entrance stages or phases. Here, students are taught in classes with mixed grades, usually the first and second grade together, rather than in grade-specific classes. Sometimes there is even a flexible school attendance period of up to three years. Parents can therefore not always specify the class. 'Grade' is synonymous with 'school year'.»
