We now have a few questions regarding your goals in life. By goals we mean changes you are aiming for that improve your current situation. However, we also mean the intention to leave things how they currently are in order to prevent deterioration. We are interested here in both work/vocational training and private/family life. With regard to your educational or working life, please tell us your most important goal for the next 3 years:

t291541 Good preparation in work techniques

355 : 67108

We now have some questions about your higher education program. First of all, it is about how well-prepared you felt for the higher education program. If you think back to the time when you started university: how would you rate the following statements? When I started university, I was sufficiently familiar with and comfortable with the work techniques needed for university study (proper citation of sources, taking down a record of a discussion, planning experiments, etc.). «Please mark the relevant answer for each of the following.»

There are many reasons for deciding on a particular profession. Often, money plays a big role. First, we would like to know what you think the monthly take-home pay would be for the jobs you have just stated. This means the pay that is deposited directly to your account each month (after taxes). How much do you think the take-home pay immediately after finishing your vocational training position or higher education is ... > a) ... in your ideal profession? «If you are unsure, just estimate a rough amount. Please enter numbers right-aligned.»
