# 1 Overview

The documentation in this collection is based on the field version. For that, the field version has been supplemented by the variable names and the numeric values, which are also used in the data files. The field version can be found in the document “Startkohorte 5: Studierende (SC5), Welle 14, Erhebungsinstrumente (Feldversion)” (only available in German). For work with the data, it is recommended to prefer the SUF version over the field version. The material corresponds to version 14.1.0 of the Scientific Use File (SUF) for Starting Cohort 5 (SC5) (doi:10.5157/NEPS:SC5:14.1.0).

Figure 1 describes the possible components of the documented survey.

**Figure 1:** Reading aid for survey tools

If available, this information includes the following:

1. Questions (bold): Text, which is a) handed out in the form of PAPI or online surveys and b) read out during CATI or CAPI surveys by an interviewer (sometimes with variations depending on specific conditions).
2. Question numbers in the survey tool (bold)
3. Instructions (italic, shaded in yellow) are considered as a) guidelines for PAPI or online surveys and b) instructions for the interviewer for CATI or CAPI surveys, in order to ask the questions in a correct way and react appropriately to inquiries. These are not read out by the interviewer.
4. Values labels
5. Missing values (italic)

6. Output filters (*italic*)
7. Automatic values (*italic*): Under certain conditions, these are necessary, e.g. when coding auxiliary variables.
8. Variables
  - a) Variable name in SUF-data set (variable names indicated in brackets are not part of the SUF)
  - b) Variable label: This is a short form of the description of the item.
  - c) Data set, in which the variable(s) can be found.

**Figure 2:** Survey of Starting Cohort 5 and ID of the survey instrument in wave 14

Figure 2 gives an overview over the field time for wave 14 and the ID of the survey instrument. In wave 14 the survey was conducted with the basic sample and the teaching-oversample (sixth CAWI survey). These students were questioned from November to December 2018. In May 2020, the respondents took part in the additional survey NEPS Corona & Education.
