Let us start with the first activity, that you were carrying out since <intmPRE/intjPRE>. Is the first activity that you started ever since a gainful activity, that you started during your university studies? «Also gainful activities, that were started during the non-lecture period are student gainful activities. Gainful activities, that are started during an interruption of studies (e.g. holiday semester) or after completion of university are not student gainful activities.»

Firstly, tell me, if you were living together with a partner since the start of your studies in autumn 2010. «If necessary please point out the confidentiality of the information to TP with the following text: These information, like all other information, are confidential and will only be analysed anonymously.»

I now want to ask you about your apprenticeships and I would like to begin with the studies you started in autumn 2010. Since we are especially interested in your career after starting this studies and since the German system of university studies is very elaborate, I would like to record your educational career in details starting from this time point. In <abstmPRE/abstjPRE> you have studied <abhslPRE> and you have been in the first semester. «In case of inconsistency: The first institution of higher education is meant, in which the TP was enrolled in autumn 2010 in Germany. It is possible the change of university took place shortly after that, since admission to the favourite university was granted. These studies will be recorded in the next episode.»

What kind of apprenticeship was/is it? «Please do not read out options! In cases of doubt (e.g. with nurses) please make sure, if it was company (Code 1) or scholar (Code 2) training. If only university studies will be indicated, please ask about the kind of institution of higher education (Fachhochschule, university, Berufsakademie/cooperative state universities, college of public administration, academy of administration and business). University also means art, music, sport colleges, pedagogical, theological colleges, technical universities or Gesamthochschule [combination of university and university of applied sciences]! Cooperative state universities are currently only to be found in Baden-Württemberg; they are successors of the former Berufsakademie [university of cooperative education] in Baden-Württemberg. If TP indicates 'retraining', please have him/her exactly identify type of retraining (retraining measures may be: apprenticeship, Berufsfachschule, vocational school, training courses, classes to acquire specified licences).»
