1 Preliminary Remarks & Reading Aid

In this codebook all 30 data files from the NEPS Scientific Use File of Starting Cohort 5 (Version 9.0.0, Onsite; doi:10.5157/NEPS:SC5:9.0.0) with a total of 3657 variables are documented. Each chapter starts with an overview of all variables in a file – in the order of their appearance in the file. The variable names are linked to the information on the respective variable.

This information – if available – is presented:

1. question (bold), partly with different wording alternatives with the corresponding conditions and clickable question numbers; closer definition of the question after delimiter ▶
2. variable name (as in data file)
3. variable label from data file
4. reference to the questionnaire (as described in the data manual)
5. question number in instrument after a colon
6. interview instructions inside «...»
7. table with frequencies
 - a) column 1: value label
 - b) column 2: value
 - c) column 3: absolute frequencies (#)
 - d) column 4-...: absolute frequencies by wave (if possible)
 - e) missing values at the end of table and slanted

The length of the table has been technically limited; where required the number of removed lines is reported.

2. variable name 3. variable label 4. questionnaire 5. question number

1. question

6. interview instruction

b) values

a) value labels

e) slanted: missing values

c) absolute frequencies

t741001 Size of Household (persons)

338 : 32301

I now have a few questions about your household. How many people are currently living in one household with you - including yourself and any children? «If anything is unclear: By this, we mean all the people who live with you and manage the household with you. Note on shared accommodation: Categorization is often more difficult particularly when it comes to shared accommodation. One key issue for determining whether or not shared accommodation constitutes a single household is its joint management. Criteria for this are, e.g. one common purse from which the necessary items for everyday life are paid (rent, telephone and Internet costs, food, washing machine, vacuum cleaner, etc.) !!and!! joint housekeeping (shopping, cleaning, cooking, doing laundry either individually on a task-sharing basis or together, and eating together). Ultimately, the opinion of the respondents is decisive for determining whether the shared accommodation also constitutes shared household management. If student respondents live in more than one household: Please refer to the household in which you reside most of the time during the semester. If respondents who are no longer students live in more than one household: Please refer to the household at your principal place of residence.»

Since <20101P3(intmPRE / intjPRE)> have you attended a school leading to a general education qualification? By this we mean, for example, a leaving certificate of the Realschule or the Abitur. In this case we do **!!not!!** mean vocational schools which you have attended in the context of career preparations or vocational training which you have already mentioned. «if (h_etappe = 7, 8) Record only those schools here that (also) lead to a general school-leaving qualification (i.e. leaving certificate of the Hauptschule [school for basic secondary education], leaving certificate of the Realschule [intermediate secondary school], Fachhochschulreife [entrance qualification for universities of applied sciences] or Abitur [university entrance qualification]). General school-leaving qualifications (e.g. leaving certificate of the Hauptschule, leaving certificate of the Realschule, Fachhochschulreife, Abitur) are not qualifications for a profession. if (h_etappe = 6) If necessary, give additional or more precise examples: For example, a Fachoberschule [vocational school at upper secondary level leading to the entrance qualification for universities of applied sciences], a vocational Gymnasium [type of school leading to upper secondary education and Abitur], a vocational college, a Berufsoberschule [vocational school at upper secondary level] or an upper-level commercial school.»

Sorry, but we seem to have accidentally recorded this information incorrectly in the last interview. In order to be able to correctly record your apprenticeship career, I would first like to ask you to tell me if you have started or continued any other vocational training program (possibly in a different form) since <20101P3(intmPRE/intjPRE)>. Have you, for example, started a new degree course, a doctorate or habilitation, studied at another higher education institution, or started an apprenticeship or other type of vocational training? «Excluded are: (teaching) preparatory service, training time, Volontariat, traineeships or internships. These periods will be recorded later as employment (or preparatory service!) or in the internship module (where it is a student internship). Short-term, job-related continuing education/training measures are not to be recorded here!»

We are also interested in retraining measures, vocational training leading to a master's or technician's certificate, classes at an association or a chamber, such as classes at the Chamber of Industry and Commerce or vocational training in the public sector to prepare for the civil service examination. Since <20101P3(intmPRE/intjPRE)>, have you done such a training course or vocational training that you have not yet mentioned? «Excluded are: (teaching) preparatory service, training time, Volontariat, traineeships or internships. These periods will be recorded later as employment (or preparatory service!) or in the internship module (where it is a student internship). Short-term, job-related continuing education/training measures are not to be recorded here! Examples of chamber examinations and IHK (Chamber of Industry and Commerce) courses: instructor (suitability) exam, accountant, controller, qualified merchant, business administrator, tax consultant, auditor.»

ts15104 Intro Vocational training 14

338 : 24309

Have you earned any other certificate as part of an external examination since <20101P3(intmPRE/intjPRE)>, e.g. medical specialist examination, 2nd state examination, theological examination? «By state examination, we mean the !!second!! and !!third!! state examinations taken subsequent to a period of practical training/preparatory service; e.g. 2nd state examination in teaching, law, or theology, 3rd state examination in pharmacy. We do not mean the state examinations concluding the period of university study (1st state examination in teaching, law, or theology, 2nd state examination in pharmacy and medicine). The external examination enables, for instance, employees with relevant work experience to make up for or acquire a vocational or study certificate. Students who take an external examination usually prepare themselves for it independently and, if necessary, with the help of a continuing training institution.»

We would like you to tell us first of all if you have lived with a partner since our last telephone interview in <20101P3(intmPRE/intjPRE>. «If necessary please point out the confidentiality of the information to TP with the following text: This information, like all other information, is confidential and will only be analyzed anonymously.»

t741001 Size of household

338 : 32301

I now have a few questions about your household. How many people are currently living in one household with you - including yourself and any children? «If anything is unclear: By this, we mean all the people who live with you and manage the household with you. Note on shared accommodation: Categorization is often more difficult particularly when it comes to shared accommodation. One key issue for determining whether or not shared accommodation constitutes a single household is its joint management. Criteria for this are, e.g. one common purse from which the necessary items for everyday life are paid (rent, telephone and Internet costs, food, washing machine, vacuum cleaner, etc.) !!and!! joint housekeeping (shopping, cleaning, cooking, doing laundry either individually on a task-sharing basis or together, and eating together). Ultimately, the opinion of the respondents is decisive for determining whether the shared accommodation also constitutes shared household management. If student respondents live in more than one household: Please refer to the household in which you reside most of the time during the semester. If respondents who are no longer students live in more than one household: Please refer to the household at your principal place of residence.»

tg2608b Type of student employment

338 : 26108b

Please tell me, what kind of activity it is. «Please read out options. Work as !!student assistant/student employee in a company!! (code 1) does not include temporary student jobs in all sorts of companies. Jobs in this category are characterized in particular by their relevance to the field of study, and often teach subject-relevant practical skills and are most frequently pursued by engineering students. !!Semi-skilled/unskilled work, temporary jobs!! (code 3) are jobs that are often described as temporary work in an assisting capacity that do not require any (extensive) training. Typical examples are: Temping in factories, offices, gastronomy or retail, distributing (trade fair) ads/flyers, babysitting, etc. Compared to semi-skilled/unskilled work, !!qualified non-self-employed work!! (code 5) requires a certain level of training. This may, for example, be a job in a profession pursued before the degree course was started (provided this job was started during the degree course). !!Freelance work, self-employed work!! (code 6) can also be termed contract employment. Typical areas are jobs in the arts and culture industry, advisory services/coaching, free journalism. The payment of fees and employment on the basis of contracts for work and services (i.e. no permanent dependent employment) are particular characteristics of these types of jobs. A contract for work and services stipulates the specific job description and the amount of the agreed fee. !!Self-employed work in own company!! (code 7) should include all self-employed work irrespective of whether this is a one-man/one-woman business or self-employed persons with their own employees. Self-employed work is to be distinguished from dependent employment. Please select code 8 (!!another type of occupation!!) only in exceptional cases if the occupation indicated cannot be assigned to any of the other categories.»

t733030 Living together with partner

338 : 28406

I'd now like to talk to you about the topic of partnership and children. Both can be of major importance for your education and life in general. A partnership can influence the decision on where to study or offer emotional and financial support. And although children bring joy, looking after them can be very time-consuming. Therefore we would also like to ask you some questions about these issues. Let's begin with partnerships. We would like you to tell us first of all if you have lived with a partner since our last telephone interview in <20101P3(intmPRE/intjPRE>. «If necessary please point out the confidentiality of the information to TP with the following text: This information, like all other information, is confidential and will only be analyzed anonymously.»

I'd now like to talk to you about the topic of partnership and children. Both can be of major importance for your education and life in general. A partnership can influence the decision on where to study or offer emotional and financial support. And although children bring joy, looking after them can be very time-consuming. Therefore we would also like to ask you some questions about these issues. Let's begin with partnerships. In our last interview in <20101P3(intmPRE/intjPRE> we noted that you were married to and living with <28109> at that time. «In case of questions about the partner's name: This was asked while recording the information on partnerships in the last interview to simplify the interview. In case of objection, please point out that a fictional name can be given if preferred.»

Have you earned any other certificate as part of an external examination since <20101P3(intmPRE/intjPRE)>, e.g. medical specialist examination, 2nd state examination, theological examination? «By state examination, we mean the !!second!! and !!third!! state examinations taken subsequent to a period of practical training/preparatory service; e.g. 2nd state examination in teaching, law, or theology, 3rd state examination in pharmacy. We do not mean the state examinations concluding the period of university study (1st state examination in teaching, law, or theology, 2nd state examination in pharmacy and medicine). The external examination enables, for instance, employees with relevant work experience to make up for or acquire a vocational or study certificate. Students who take an external examination usually prepare themselves for it independently and, if necessary, with the help of a continuing training institution.»
