Preliminary Remarks & Reading Aid

In this codebook all 33 data files from the NEPS Scientific Use File of Starting Cohort 6 (Version 10.0.1, Onsite; doi:10.5157/NEPS:SC6:10.0.1) with a total of 2921 variables are documented. Each chapter starts with an overview of all variables in a file – in the order of their appearance in the file. The variable names are linked to the information on the respective variable.

This information – if available – is presented:

1. question (bold), partly with different wording alternatives with the corresponding conditions and clickable question numbers; closer definition of the question after delimiter ►
2. variable name (as in data file)
3. variable label from data file
4. reference to the questionnaire (as described in the data manual)
5. question number in instrument after a colon
6. interview instructions inside «...»
7. table with frequencies
 - a) column 1: value label
 - b) column 2: value
 - c) column 3: absolute frequencies (#)
 - d) column 4-...: absolute frequencies by wave (if possible)
 - e) missing values at the end of table and slanted

The length of the table has been technically limited; where required the number of removed lines is reported.

2. variable name 3. variable label 4. questionnaire 5. question number

1. question

6. interview instruction

b) values

a) value labels

e) slanted: missing values

c) absolute frequencies

d) absolute frequencies by wave

Now let's continue with the second task booklet. This task booklet is about numbers and calculating. People often deal with numbers in everyday life: For example to compare prices at the supermarket or reading statistics in journals. On the following pages, you will find different situations from everyday life on which the exercises are based. You have half an hour in total to work on all exercises. Please try to work on the exercises without interruption. I will read the instructions on page 3 to you so that you know how to work on the exercises. Please open the task booklet and read along. «Take out the Numeracy task booklet, write person ID on cover page. Hand out task booklet and calculator. The instructions for Numeracy/Mathematics and Reading are identical, i.e. exercise formats and contents that are only included in the Reading task booklet are also explained in the Numeracy task booklet. [T1106=2] Convince target person of the importance to work on the next task booklet nevertheless. Use, if necessary, the argument that it is something completely different. It is not about speed anymore, and also the topic is a different one: Numbers and calculation. »»

First, we would like to give you a few clues to fill out the task booklet. • Please read the texts or the exercises carefully and then answer the pertaining questions. You may always look up information in the text! • There are four types of questions. In the following you will see how you can answer these questions. 1. There are questions for which we give you several answer options out of which only one is correct. Please clearly tick the box next to the correct answer in case of these questions. Now please look at the respective example on page 3 (top). 2. In case of another question type, you need to decide for different statements whether each of them is true or false. Therefore, please tick in each line either 'yes' (or 'true' or 'right') or 'no' (or 'false' or 'not correct'). Now look at the respective example on page 3 (bottom). 3. For some questions, you should match different headlines with paragraphs or put results in the right order. Therefore, you need to put the right letters in the respective fields. Please have a look at the pertaining example on page 4 (top). 4. If there is a solution field, please insert your solution in it ! Now look at the respective example on page 4 (bottom). • If you wish to correct your solution at some point, clearly paint over the wrong cross or the wrong answer. Then, thick the correct solution anew and/or write a new result in the solution fields ! Please have a look at the respective example on page 5. • Please work on the texts and questions in the order given in the task booklet. • In case you are not able to answer a certain question, simply continue with the next question. If there is still time at the end, you can of course go back to the skipped questions. Some of the questions are rather easy and others rather difficult; hence, you will probably not be able to answer all questions. Please do not be confused, hardly anyone is able to answer all questions. It is important that you also try to answer difficult questions as well as possible. You may also use the calculator for the questions. Should you be ready prior to the end of the given time, you have the possibility to check your solutions once again. Then, please let me know that you have arrived at the STOP page (page 27). Do you have any further questions? ««Answer questions on instructions if necessary. In case of questions on the calculator, please only show where certain keys are located, do not explain all functions. If the interviewee refuses to read the instructions carefully: Try to convince the target person. Only enter the code 2 if the target person categorically insists on it in spite of all your objections.»»

Now let's talk about the second task booklet. This task booklet is about reading. In everyday life, there are many different occasions and opportunities to read, e.g. reading newspapers, journals, information brochures or websites. Everywhere people can inform themselves, learn interesting things or simply read for pleasure. On the following pages you find five different texts and questions about them. For all texts and questions, you have half an hour in total to work on them. Please try to work on the task booklet without interruption. I will read the instructions from page 3 to you so that you know how to answer the questions. Please open the task booklet and read along. «Take out reading task booklet, insert person ID on cover page. Distribute task booklet. [T1106=2] Convince the target person of the importance to work on this task booklet even if the fast reading task booklet has not been worked on. If needed, use the argument that it is something completely different: It is not about speed anymore but about comprehension of longer texts.»

<i>system missing value</i>	.	3723	3723	0	0	0

First, we would like to give you a few clues to fill out the task booklet. • Please read the texts or the exercises carefully and then answer the pertaining questions. You may always look up information in the text! • There are four types of questions. In the following you will see how you can answer these questions. 1. There are questions for which we give you several answer options out of which only one is correct. Please clearly tick the box next to the correct answer in case of these questions. Now please look at the respective example on page 3 (top). 2. In case of another question type, you need to decide for different statements whether each of them is true or false. Therefore, please tick in each line either 'yes' (or 'true' or 'right') or 'no' (or 'false' or 'not correct'). Now look at the respective example on page 3 (bottom). 3. For some questions, you should match different headlines with paragraphs or put results in the right order. Therefore, you need to put the right letters in the respective fields. Please have a look at the pertaining example on page 4 (top). 4. If there is a solution field, please insert your solution in it ! Now look at the respective example on page 4 (bottom). • If you wish to correct your solution at some point, clearly paint over the wrong cross or the wrong answer. Then, thick the correct solution anew and/or write a new result in the solution fields ! Please have a look at the respective example on page 5. • Please work on the texts and questions in the order given in the task booklet. • In case you are not able to answer a certain question, simply continue with the next question. If there is still time at the end, you can of course go back to the skipped questions. Some of the questions are rather easy and others rather difficult; hence, you will probably not be able to answer all questions. Please do not be confused, hardly anyone is able to answer all questions. It is important that you also try to answer difficult questions as well as possible. You may also use the calculator for the questions. Should you be ready prior to the end of the given time, you have the possibility to check your solutions once again. Then, please let me know that you have arrived at the STOP page (page 31). Do you have any further questions? ««Answer questions on instructions if necessary. If the interviewee refuses to read the instructions: Try to convince the target person. Only enter the code 2 if the target person categorically insists on it in spite of all your objections.»»

Now let's continue with the last task booklet. This task booklet is about numbers and calculating. People often deal with numbers in everyday life: For example to compare prices at the supermarket or reading statistics in journals. On the following pages, you will find different situations from everyday life on which the exercises are based. You have half an hour in total to work on all exercises. Please try to work on the exercises without interruption. Please open the task booklet on page 3. As you can see, there are again the same types of exercises that you have already worked on just before. The general instructions are the same as we have explained them before in the Reading task booklet. Again, some questions will be rather difficult and others rather easy and hardly anyone will be able to answer all questions. However, it is important that you also try to answer the difficult questions as well as possible. Do you have any further questions? «Take out booklet Numeracy, insert person ID on cover page. Distribute task booklet and calculator. [T1202<>2] If necessary, answer questions about the instructions. In case of questions about the calculator, please only show where certain keys are located; do not explain all functions. The instructions are identical for Reading and Numeracy, i.e. in the Numeracy task booklet, only exercise formats and contents that are also included in the Reading task booklet are explained. Hence, the instructions do not necessarily have to be repeated for the second task booklet. [T1202=2 OR T1203=2]: Convince the target person of the importance to work on this task booklet, even if the Reading task booklet has not been worked with. If necessary, use the argument that it is something completely different: It is not about comprehension of longer texts anymore but about numbers and calculating.»

First, we would like to give you a few clues to fill out the task booklet. • Please read the texts or the exercises carefully and then answer the pertaining questions. You may always look up information in the text! • There are four types of questions. In the following you will see how you can answer these questions. 1. There are questions for which we give you several answer options out of which only one is correct. Please clearly tick the box next to the correct answer in case of these questions. Now please look at the respective example on page 3 (top). 2. In case of another question type, you need to decide for different statements whether each of them is true or false. Therefore, please tick in each line either 'yes' (or 'true' or 'right') or 'no' (or 'false' or 'not correct'). Now look at the respective example on page 3 (bottom). 3. For some questions, you should match different headlines with paragraphs or put results in the right order. Therefore, you need to put the right letters in the respective fields. Please have a look at the pertaining example on page 4 (top). 4. If there is a solution field, please insert your solution in it ! Now look at the respective example on page 4 (bottom). • If you wish to correct your solution at some point, clearly paint over the wrong cross or the wrong answer. Then, thick the correct solution anew and/or write a new result in the solution fields ! Please have a look at the respective example on page 5. • Please work on the texts and questions in the order given in the task booklet. • In case you are not able to answer a certain question, simply continue with the next question. If there is still time at the end, you can of course go back to the skipped questions. Some of the questions are rather easy and others rather difficult; hence, you will probably not be able to answer all questions. Please do not be confused, hardly anyone is able to answer all questions. It is important that you also try to answer difficult questions as well as possible. You may also use the calculator for the questions. Should you be ready prior to the end of the given time, you have the possibility to check your solutions once again. Then, please let me know that you have arrived at the STOP page (page 27). Do you have any further questions? «Answer questions about the instructions, if necessary. In case of questions about the calculator, please only show where certain keys are located; do not explain all functions. If the target person refuses to read the instruction: Try to convince the target person. Enter code 2 only if the target person categorically insists in spite of all your objections.»

Knowledge of scientific topics and of computer and internet applications is a particular focus of our study. We have all acquired it and also use it frequently, but to different degrees. In this context, we are particularly interested in how important this knowledge actually is for different life paths. Therefore, I would like to show you two task booklets. You are requested to use the books to complete exercises on the said topics.

Label	Code	by wave

<i>Missing by design</i>	-54	15682	0	0	9131	6551

We now come to the first task booklet. This book is on science. Scientific topics often crop up in everyday life: For example in matters relating to the environment, health or technology. Some questions will be quite difficult and some quite easy and hardly anyone will be able to answer all the questions. It is important however that you try to answer even the difficult questions to the best of your ability. In order to know how to work on the exercises, open the book on page 2.

Now let's talk about the first task booklet. As you know, sometimes we have to read very accurately and slowly, sometimes rather fast. Our first task booklet is about fast reading. If you normally wear glasses, you should also wear them now.

Label	Code	by wave				
		#	3	5	7	9
continue to the next screen page	1	10565	7296	3269	0	0
<i>Missing by design</i>	-54	15682	0	0	9131	6551
<i>system missing value</i>	.	7041	70	6971	0	0

In this task booklet you find a series of phrases. The content of the phrases is not always correct. It is your task to indicate for each phrase whether it is correct or false by ticking boxes. You may find the phrases pretty easy, sometimes also funny. But please do not think too much about the content of the phrases. What matters during reading is rather speed and less knowledge. To explain you the task, let us look at the two examples on page 3 together. I will read the examples aloud, please read along silently. Please continue to page 3 now!

Label	Code	by wave

Example 1: There is no school during the Christmas vacation. You see two boxes behind the phrase. If a phrase is true, please tick the left box, if it is false, please tick the right box. Now what would you tick for this phrase? **Example 2:** Cats and mice are part of the family of fish. If you have ticked the false answer once, simply paint over the wrong cross clearly and then tick the correct solution again. The ticking does not have to look very beautiful but it should be done quickly. There are many such phrases on the next two pages. Please work through the phrases as explained just before. If you are done with one page, go directly to the next page. You have two minutes in total. Please read accurately and try to work on as many phrases as possible.

Now let's talk about the second task booklet. This task booklet is about reading. In everyday life, there are many different occasions and opportunities to read, e.g. reading newspapers, journals, information brochures or websites. Everywhere people can inform themselves, learn interesting things or simply read for pleasure. On the following pages you find five different texts and questions about them. For all texts and questions, you have half an hour in total to work on them. Please try to work on the task booklet without interruption. I will read the instructions from page 2 to you so that you know how to answer the questions. Please open the task booklet and read along.

Label	Code	by wave

First, we would like to give you a few notes to fill out the task booklet. • Please read the texts or the exercises carefully and then answer the relevant questions. You may always look up information in the text! • There are three types of questions. In the following you will see how you can answer these questions. 1. There are questions for which we give you several answer options out of which only one is correct. Please clearly tick the box next to the correct answer in case of these questions. Now please look at the respective example on page 2 (top). 2. In case of another question type, you need to decide for different statements whether each of them is true or false. Therefore, please tick in each line either 'yes' (or 'true' or 'right') or 'no' (or 'false' or 'not correct'). Now look at the respective example on page 2 (bottom). 3. For some questions, you should allocate different headlines to paragraphs or put results in the right order. Therefore, you need to put the right letters in the respective fields. Please have a look at the pertaining example on page 3 (top). • If you wish to correct your solution at some point, clearly paint over the wrong cross or the wrong answer. Then, thick the correct solution anew and/or write a new result in the solution fields ! Please have a look at the respective example on page 3. • Please work on the texts and questions in the order given in the task booklet. • In case you are not able to answer a certain question, simply continue with the next question. If there is still time at the end, you can of course go back to the skipped questions. Some of the questions are rather easy and others rather difficult; hence, you will probably not be able to answer all questions. Please do not be confused, hardly anyone is able to answer all questions. It is important that you also try to answer difficult questions as well as possible. You have 28 minutes to work on the task booklet. Should you be ready prior to the end of the given time, you have the possibility to check your solutions once again. Then, please let me know that you have arrived at the STOP page (page 29). Do you have any further questions?

A special focus of our study is on abilities and skills, which we use daily even if we do so to varying degrees. What we are particularly interested in, is how important these skills really are for different ways of living. In the following, we want you to work on everyday mathematics and reading tasks on the computer. Some tasks are fairly difficult while others are fairly easy. Almost nobody manages to solve all tasks. It is, however, important that you try to answer even the difficult tasks as well as you can. You have approximately 60 minutes to work on the tasks.

TP basically refuses to wok on task booklet(s)	2	91	0	0	0	91
<i>Missing by design</i>	-54	26737	7366	10240	9131	0

I am about to give you the computer. Please follow the instructions on the screen. The program is going to lead you through the various tasks. First, you will see an instruction, which will give you an idea of how to work on the following tasks. First, you will have a maximum of 28 minutes for the everyday life mathematics tasks. Afterwards, you will have another 28 minutes to work on five short texts and the corresponding questions. Please note that in the reading tasks you may return to the respective text. You may use a pen and scrap paper for the mathematics tasks. Please return those after the mathematics section of the test. If you have further questions concerning the proceedings or technical problems, I am glad to help you. If you usually wear glasses for reading or require a hearing aid, you should use these now, too. If you want to get a glass of water or anything else, then please do so now. If there is nothing you require now, then we would like to start.

tx80401 Willingness: Merging data from Federal Employment Agency

438 : 26400

In order to keep the following interview sections as short as possible, we would like to incorporate data held by the 'Institut für Arbeitsmarkt- und Berufsforschung der Bundesagentur für Arbeit' (Institute for Employment Research of the Federal Employment Agency) in Nuremberg into the analysis of this questionnaire. This includes, for instance, information relating to previous employment relationships, phases of unemployment, participation in training measures during unemployment as well as company characteristics. I would ask you to give your official consent for the transfer and incorporation of this data into the interview data. If this information is evaluated, we guarantee that it is done so in strict compliance with all data protection regulations and that no information is passed on to third parties. Your consent is, of course, voluntary. You can withdraw this consent at any time by informing the contact person at infas. Do you consent to the transfer of data held by the 'Institut für Arbeitsmarkt- und Berufsforschung der Bundesagentur für Arbeit' (Institute for Employment Research of the Federal Employment Agency)? «Vorgaben, Mailadresse und Nummer der Ansprechpartnerin sind im Anschreiben enthalten. Das Einverständnis ist für die Auswertung der Studie von großer Bedeutung, daher bitte alle Nachfragen der Zielpersonen kompetent und souverän beantworten. Intensive Vertrautheit mit Datenschutzblatt ist zentral!»

t31064a Idealistic aspiration for further qualifications

390 : 80032

So far we have talked about courses and training programs. To learn more about your job area, it is also possible to take a further school-leaving qualification or vocational qualification, for instance the leaving certificate of the Realschule, the Abitur, vocational training, master's / foreman's examination or to pursue higher education. If you could do what you liked, regardless of your job obligations and private commitments: Would you like to gain an extra school-leaving qualification so that you could learn more to do with your job?

t524860 ADHD diagnosis

431 : 32162

Attention deficits with or without hyperactivity are very frequent nowadays, not merely among children and teenagers. Thus, we have one question concerning this topic: Have you ever been diagnosed with an attention deficit with or without hyperactivity by a doctor or psychologist?

t514001 Satisfaction with life

438 : 20110a

First of all, I would like to ask you some questions about your current satisfaction with various aspects of your life. Please answer on a scale from 0 to 10. '0' means that you are completely !un!!satisfied, '10' means that you are completely satisfied. You can gradate your answer with the numbers in between. All in all, how satisfied are you with your life at the moment?

t515051 Willingness to take risks in general

438 : 20112

How do you personally assess yourself: Are you, in !!general!!, a person who is willing to take risks or are you trying to avoid risks? Please answer on a scale from 0 to 10. '0' means that you are not willing to take risks at all, '10' means that you are very willing to take risks. With the numbers in between, you can adjust your assessment.

tf11101 Intro schools 1

438 : 22105a

Since <20101P3(intmPRE / intjPRE)> have you attended a school leading to a general school-leaving qualification? By this we mean, for example, a leaving certificate of the Realschule or the Abitur. In this case we do **!!not!!** mean vocational schools which you have attended in the context of career preparations or vocational training which you have already mentioned. «if (h_etappe = 8) Hier sollen nur Schulen aufgenommen werden, die (auch) zu einem allgemeinbildenden Schulabschluss (d.h. Hauptschulabschluss, Mittlere Reife, Fachhochschulreife, Abitur) führen. if (h_etappe = 6) Bei Bedarf weitere Beispiele / Präzisierungen nennen: Gemeint sind zum Beispiel eine Fachoberschule, ein berufliches Gymnasium, ein Fachgymnasium, ein Berufskolleg, eine Berufsoberschule oder eine höhere Handelsschule.»

Have you acquired a general school-leaving certificate or have been awarded one since <20101P3(intmPRE / intjPRE)> (for example, by taking an external examination or by reaching grade 11 of the Gymnasium)? «Als Teilnehmer einer Externenprüfung zählt man, wenn man nicht am vorbereitenden Unterricht zum Erreichen des entsprechenden Schulabschlusses teilnimmt, sondern sich selbstständig oder durch einen anderen Unterricht vorbereitet. Allgemeinbildende Abschlüsse sind z.B. Hauptschulabschluss, Mittlere Reife, Fachhochschulreife oder Abitur; sie sind keine Ausbildung für einen Beruf.»

t320705 Expectations Partner 1

438 : 28500a

I would now like to ask you two questions about the expectations your (male) partner has of you. Please answer the questions to the best of your ability, even if you are not too sure about the answer. If your partner has no expectations, just say 'has no expectations'. 1. How important is it to your partner that you get ahead in your career? Does your partner consider it very important, relatively important, neither important nor unimportant, relatively unimportant, or very unimportant?

Label	Code	#	by wave

t32600a Position generator: Nurse or male nurse

438 : 32430a

I am now going to read out various professions. For each profession, please tell me if you know a person in your social circle who is currently pursuing this profession in Germany. By social circle I mean e.g. your partner, your family or relatives, your friends, colleagues or other acquaintances. Do you know a nurse or male nurse in your social circle?

t451200 Proportion friends with migration background

438 : 32102

Let's now talk about different aspects of living together. How is it with your friends in Germany? How many persons from your friend circle have a migration background, i.e. they themselves or at least one parent were born abroad?

t26190a Intro1 Volunteering

438 : 80102

In our society there are many opportunities to participate in different areas. We are interested in whether you actively participate, for example in an association or in an organization. Think, for example, of sports clubs, political parties, trade unions or congregations. Have you !!actively!! participated in one or more areas in the last 12 months, that is from <intm/(intj-1)> until today?

Label	Code	#	by wave

t66507a_O Goal orientation: Work/Health

438 : 80161

We now have a few questions regarding your goals for the next few years. By goals, we mean, on the one hand, the changes you are striving for to improve your current situation. On the other hand, we also mean the possible intention to leave things as they are in order to prevent deterioration. You can have such goals in different areas of life. We are interested here in the area !!health!!. Please name us with regard to the area !!health!! your most important goal for the next 5 years:

You can scale the extent to which the following statements apply to you with numbers from 0 to 10. Here, 0 means that the statement does not apply to you at all, while 10 means that it completely applies to you. You can scale with the numbers in between. If obstacles get in my way, I will not give up until I have overcome them.

t320705 Expectations Partner 1

438 : 28500a

I would now like to ask you two questions about the expectations your (male) partner has of you. Please answer the questions to the best of your ability, even if you are not too sure about the answer. If your partner has no expectations, just say 'has no expectations'. 1. How important is it to your partner that you get ahead in your career? Does your partner consider it very important, relatively important, neither important nor unimportant, relatively unimportant, or very unimportant?

Label	Code	#
very important	1	1971
rather important	2	3777

438 : 21100

Now I would like to ask you about all places where you have lived since <21001P5(wgintmPRE / wgintjPRE)>. We are interested !!in all places where you have lived!!, regardless of whether you were officially registered there. Tell us also all places where you have lived e.g. because of an education or a professional activity, even though you have lived e.g. at the same time with your family. In <21001P5 (wgintmPRE / wgintjPRE)> we noted that you lived in <h_ortPRE> at that time.
