1 Preliminary Remarks & Reading Aid

In this codebook all 38 data files from the NEPS Scientific Use File of Starting Cohort 6 (Version 16.0.0, Onsite; doi:10.5157/NEPS:SC6:16.0.0) with a total of 3888 variables are documented. Each chapter starts with an overwiew of all variables in a file – in the order of their appearance in the file. The variable names are linked to the information on the respective variable.

This information – if available – is presented:

1. question (bold), partly with different wording alternatives with the corresponding conditions and clickable question numbers; closer definition of the question after delimiter ▹
2. variable name (as in data file)
3. variable label from data file
4. reference to the questionnaire (as described in the data manual)
5. question number in instrument after a colon
6. interview instructions inside «…»
7. table with frequencies
    a) column 1: value label
    b) column 2: value
    c) column 3: absolute frequencies (#)
    d) column 4-…: absolute frequencies by wave (if possible)
    e) missing values at the end of table and slanted

The length of the table has been technically limited; where required the number of removed lines is reported.

t741001 Size of household (persons)

Now a few questions about your household. How many persons are currently living with you in one household - including yourself and the children? «(if h_cohort = 6) In case of uncertainty: This refers to all persons who live and run the household together with you. (if h_cohort = 4) In case of uncertainty as to who belongs to the household: this refers to all persons who live and run the household together with you. If it is unclear whether your own household or that of your parents is meant, if you already have your own household: the questions refer to your own household.»

tx76004 Intro Numeracy

Now let's continue with the second task booklet. This task booklet is about numbers and calculating. People often deal with numbers in everyday life: For example to compare prices at the supermarket or reading statistics in journals. On the following pages, you will find different situations from everyday life on which the exercises are based. You have half an hour in total to work on all exercises. Please try to work on the exercises without interruption. I will read the instructions on page 3 to you so that you know how to work on the exercises. Please open the task booklet and read along. ««Take out the Numeracy task booklet, write person ID on cover page. Hand out task booklet and calculator. The instructions for Numeracy/Mathematics and Reading are identical, i.e. exercise formats and contents that are only included in the Reading task booklet are also explained in the Numeracy task booklet. [T1106=2] Convince target person of the importance to work on the next task bookletnevertheless. Use, if necessary, the argument that it is something completely different. It is not about speed anymore, and also the topic is a different one: Numbers and calculation. »»

tx76005 Instruction Numeracy

First, we would like to give you a few clues to fill out the task booklet. • Please read the texts or the exercises carefully and then answer the pertaining questions. You may always look up information in the text! • There are four types of questions. In the following you will see how you can answer these questions. 1. There are questions for which we give you several answer options out of which only one is correct. Please clearly tick the box next to the correct answer in case of these questions. Now please look at the respective example on page 3 (top). 2. In case of another question type, you need to decide for different statements whether each of them is true or false. Therefore, please tick in each line either 'yes' (or 'true' or 'right') or 'no' (or 'false' or 'not correct'). Now look at the respective example on page 3 (bottom). 3. For some questions, you should match different headlines with paragraphs or put results in the right order. Therefore, you need to put the right letters in the respective fields. Please have a look at the pertaining example on page 4 (top). 4. If there is a solution field, please insert your solution in it ! Now look at the respective example on page 4 (bottom). • If you wish to correct your solution at some point, clearly paint over the wrong cross or the wrong answer. Then, thick the correct solution anew and/or write a new result in the solution fields ! Please have a look at the respective example on page 5. • Please work on the texts and questions in the order given in the task booklet. • In case you are not able to answer a certain question, simply continue with the next question. If there is still time at the end, you can of course go back to the skipped questions. Some of the questions are rather easy and others rather difficult; hence, you will probably not be able to answer all questions. Please do not be confused, hardly anyone is able to answer all questions. It is important that you also try to answer difficult questions as well as possible. You may also use the calculator for the questions. Should you be ready prior to the end of the given time, you have the possibility to check your solutions once again. Then, please let me know that you have arrived at the STOP page (page 27). Do you have any further questions? ««Answer questions on instructions if necessary. In case of questions on the calculator, please only show where certain keys are located, do not explain all functions. If the interviewee refuses to read the instructions carefully: Try to convince the target person. Only enter the code 2 it the target person categorically insists on it in spite of all your objections.»»

tx76023 Intro Reading

Now let's talk about the second task booklet. This task booklet is about reading. In everyday life, there are many different occasions and opportunities to read, e.g. reading newspapers, journals, information brochures or websites. Everywhere people can inform themselves, learn interesting things or simply read for pleasure. On the following pages you find five different texts and questions about them. For all texts and questions, you have half an hour in total to work on them. Please try to work on the task booklet without interruption. I will read the instructions from page 3 to you so that you know how to answer the questions. Please open the task booklet and read along. «Take out reading task booklet, insert person ID on cover page. Distribute task booklet. [T1106=2] Convince the target person of the importance to work on this task booklet even if the reading speed task booklet has not been worked on. If needed, use the argument that it is something completely different: It is not about speed anymore but about comprehension of longer texts.»

tx76038 Intro Numeracy

***[ATTENTION: There are several question formulations for this variable – see the Variable Search or Survey Instruments for detailed information!]* Now let's continue with the last task booklet. This task booklet is about numbers and calculating. People often deal with numbers in everyday life: For example to compare prices at the supermarket or reading statistics in journals. On the following pages, you will find different situations from everyday life on which the exercises are based. You have half an hour in total to work on all exercises. Please try to work on the exercises without interruption. Please open the task booklet on page 3. As you can see, there are again the same types of exercises that you have already worked on just before. The general instructions are the same as we have explained them before in the Reading task booklet. Again, some questions will be rather difficult and others rather easy and hardly anyone will be able to answer all questions. However, it is important that you also try to answer the difficult questions as well as possible. Do you have any further questions?** «Take out booklet Numeracy, insert person ID on cover page. Distribute task booklet and calculator. [T1202<>2] If necessary, answer questions about the instructions. In case of questions about the calculator, please only show where certain keys are located; do not explain all functions. The instructions are identical for Reading and Numeracy, i.e. in the Numeracy task booklet, only exercise formats and contents that are also included in the Reading task booklet are explained. Hence, the instructions do not necessarily have to be repeated for the second task booklet. [T1202=2 OR T1203=2]: Convince the target person of the importance to work on this task booklet, even if the Reading task booklet has not been worked with. If necessary, use the argument that it is something completely different: It is not about comprehension of longer texts anymore but about numbers and calculating.»

tx76039 Instruction Numeracy

First, we would like to give you a few clues to fill out the task booklet. • Please read the texts or the exercises carefully and then answer the pertaining questions. You may always look up information in the text! • There are four types of questions. In the following you will see how you can answer these questions. 1. There are questions for which we give you several answer options out of which only one is correct. Please clearly tick the box next to the correct answer in case of these questions. Now please look at the respective example on page 3 (top). 2. In case of another question type, you need to decide for different statements whether each of them is true or false. Therefore, please tick in each line either 'yes' (or 'true' or 'right') or 'no' (or 'false' or 'not correct'). Now look at the respective example on page 3 (bottom). 3. For some questions, you should match different headlines with paragraphs or put results in the right order. Therefore, you need to put the right letters in the respective fields. Please have a look at the pertaining example on page 4 (top). 4. If there is a solution field, please insert your solution in it ! Now look at the respective example on page 4 (bottom). • If you with to correct your solution at some point, clearly paint over the wrong cross or the wrong answer. Then, thick the correct solution anew and/or write a new result in the solution fields ! Please have a look at the respective example on page 5. • Please work on the texts and questions in the order given in the task booklet. • In case you are not able to answer a certain question, simply continue with the next question. If there is still time at the end, you can of course go back to the skipped questions. Some of the questions are rather easy and others rather difficult; hence, you will probably not be able to answer all questions. Please do not be confused, hardly anyone is able to answer all questions. It is important that you also try to answer difficult questions as well as possible. You may also use the calculator for the questions. Should you be ready prior to the end of the given time, you have the possibility to check your solutions once again. Then, please let me know that you have arrived at the STOP page (page 27). Do you have any further questions? «If necessary, answer questions about the instructions. In case of questions about the calculator, please only show where certain keys are, do not explain all functions. If the target person refuses to read the instruction: Try to convince the target person. Only enter code 2 if the target person absolutely insists on it despite all your objections.»

tx76055 Intro Task booklet Science

***[ATTENTION: There are several question formulations for this variable – see the Variable Search or Survey Instruments for detailed information!]* We now come to the first task booklet. This book is on science. Scientific topics often crop up in everyday life: For example in matters relating to the environment, health or technology. Some questions will be quite difficult and some quite easy and hardly anyone will be able to answer all the questions. It is important however that you try to answer even the difficult questions to the best of your ability. In order to know how to work on the exercises, open the book on page 2.**

system missing value	.	7041	70	6971	0	0	0

tx76068 Instruction Task booklet Reading speed

In this task booklet you find a series of phrases. The content of the phrases is not always correct. It is your task to indicate for each phrase whether it is correct or false by ticking boxes. You may find the phrases pretty easy, sometimes also funny. But please do not think too much about the content of the phrases. What matters during reading is rather speed and less knowledge. To explain you the task, let us look at the two examples on page 3 together. I will read the examples aloud, please read along silently. Please continue to page 3 now!

system missing value	.	7041	70	6971	0	0	0

tx76069 Instruction Task booklet Reading speed 2

Example 1: There is no school during the Christmas vacation. You see two boxes behind the phrase. If a phrase is true, please tick the left box, if it is false, please tick the right box. Now what would you tick for this phrase? Example 2: Cats and mice are part of the family of fish. If you have ticked the false answer once, simply paint over the wrong cross clearly and then tick the correct solution again. The ticking does not have to look very beautiful but it should be done quickly. There are many such phrases on the next two pages. Please work through the phrases as explained just before. If you are done with one page, go directly to the next page. You have two minutes in total. Please read accurately and try to work on as many phrases as possible.

tx76072 Intro Task booklet Reading

Now let's talk about the second task booklet. This task booklet is about reading. In everyday life, there are many different occasions and opportunities to read, e.g. reading newspapers, journals, information brochures or websites. Everywhere people can inform themselves, learn interesting things or simply read for pleasure. On the following pages you find five different texts and questions about them. For all texts and questions, you have half an hour in total to work on them. Please try to work on the task booklet without interruption. I will read the instructions from page 2 to you so that you know how to answer the questions. Please open the task booklet and read along.

tx76073 Instructions task booklet Reading

First, we would like to give you a few notes to fill out the task booklet. • Please read the texts or the exercises carefully and then answer the relevant questions. You may always look up information in the text! • There are three types of questions. In the following you will see how you can answer these questions. 1. There are questions for which we give you several answer options out of which only one is correct. Please clearly tick the box next to the correct answer in case of these questions. Now please look at the respective example on page 2 (top). 2. In case of another question type, you need to decide for different statements whether each of them is true or false. Therefore, please tick in each line either 'yes' (or 'true' or 'right') or 'no' (or 'false' or 'not correct'). Now look at the respective example on page 2 (bottom). 3. For some questions, you should allocate different headlines to paragraphs or put results in the right order. Therefore, you need to put the right letters in the respective fields. Please have a look at the pertaining example on page 3 (top). • If you wish to correct your solution at some point, clearly paint over the wrong cross or the wrong answer. Then, thick the correct solution anew and/or write a new result in the solution fields ! Please have a look at the respective example on page 3. • Please work on the texts and questions in the order given in the task booklet. • In case you are not able to answer a certain question, simply continue with the next question. If there is still time at the end, you can of course go back to the skipped questions. Some of the questions are rather easy and others rather difficult; hence, you will probably not be able to answer all questions. Please do not be confused, hardly anyone is able to answer all questions. It is important that you also try to answer difficult questions as well as possible. You have 28 minutes to work on the task booklet. Should you be ready prior to the end of the given time, you have the possibility to check your solutions once again. Then, please let me know that you have arrived at the STOP page (page 29). Do you have any further questions?

tx76079 Intro1 TBT-tasks

***[ATTENTION: There are several question formulations for this variable – see the Variable Search or Survey Instruments for detailed information!]* A particular focus of our study is skills and knowledge that we use every day, even if to very different degrees. We are particularly interested in how important this knowledge actually is for different life paths. In the following, the focus is on answering everyday mathematics and reading tasks on the computer. Some tasks will be rather difficult and others rather easy. Hardly anyone can do all the tasks. However, it is important that you try to answer difficult tasks as well as possible. The task processing takes about 60 minutes in total.**

***[ATTENTION: There are several question formulations for this variable – see the Variable Search or Survey Instruments for detailed information!]* I am about to give you the computer. Please follow the instructions on the screen. The program is going to lead you through the various tasks. First, you will see an instruction, which will give you an idea of how to work on the following tasks. First, you will have a maximum of 28 minutes for the everyday life mathematics tasks. Afterwards, you will have another 28 minutes to work on five short texts and the corresponding questions. Please note that in the reading tasks you may return to the respective text. You may use a pen and scrap paper for the mathematics tasks. Please return those after the mathematics section of the test. If you have further questions concerning the proceedings or technical problems, I am glad to help you. If you usually wear glasses for reading or require a hearing aid, you should use these now, too. If you want to get a glass of water or anything else, then please do so now. If there is nothing you require now, then we would like to start.**

tx80401 Willingness: Merging data from federal employment agency

In order to keep the following interview sections as short as possible, we would like to incorporate data held by the 'Institut für Arbeitsmarkt- und Berufsforschung der Bundesagentur für Arbeit' (Institute for Employment Research of the Federal Employment Agency) in Nuremberg into the analysis of this questionnaire. This includes, for instance, information relating to previous employment relationships, phases of unemployment, participation in training measures during unemployment as well as company characteristics. I would ask you to give your official consent for the transfer and incorporation of this data into the interview data. If this information is evaluated, we guarantee that it is done so in strict compliance with all data protection regulations and that no information is passed on to third parties. Your consent is, of course, voluntary. You can withdraw this consent at any time by informing the contact person at infas. Do you consent to the transfer of data held by the 'Institut für Arbeitsmarkt- und Berufsforschung der Bundesagentur für Arbeit' (Institute for Employment Research of the Federal Employment Agency)? «Contact person's details, e-mail address and telephone number are included in the letter. The informed consent is of great importance for the evaluation of the study, therefore please answer all questions of the target persons competently and confidently. Intensive knowledge of the data protection sheet is essential!»

th09241 Financial contributions last 12 months

Many people give others gifts or money, or help others - for instance, their parents, children, grandchildren, relatives or friends. Have you, in the last twelve months, helped someone within or outside your household out by giving them money or gifts worth at least 250 euro? Please do not consider free food or accommodation here. ««This question refers to both cash contributions and the assumption of specific costs; e.g., for medical care, insurance, training, or down payments for property purchases, as well as donations. Loans and inheritance do not count here.»»

t31300d Generalized attitude towards education - school education lost time

The following statements relate to what value you personally place on education and profession. For example, many people on principle consider a high level of education to be absolutely essential, others are less convinced. How strongly do you agree with the following statements? Staying in school for many years is a waste of time.

t31371a Generalized attitude further education – necessity additional qualifications

So far we have talked about courses and training programs. However, in your working life you can also acquire another educational or vocational qualifications, e.g. leaving certificate of the Realschule, the Abitur, a vocational qualification, master craftsman's/craftswoman's examination or a higher education qualification. How strongly do you agree with the following statements on this subject? Even if you already have a profession, you should still acquire additional qualifications.

t525207 Alcohol consumption quantity per day

When you drink alcohol, how many alcoholic drinks do you normally consume in one day? By one alcoholic drink, we mean a small bottle of beer (0.33 liter), a small glass of wine (0.125 liter), one glass of sparkling wine, a double measure of spirits (4 cl) or an alcopop bottle.

t524860 ADHD diagnosis

Attention deficits with or without hyperactivity are very frequent nowadays, not merely among children and teenagers. Thus, we have one question concerning this topic: Have you ever been diagnosed with an attention deficit with or without hyperactivity by a doctor or psychologist?

t66503l OPS WORK/HEALTH: Seeing positive

Even if everything goes wrong, I can still often see something positive in the situation.

t67001a Persistence in pursuing goals: The more difficult a goal is…

The following statements refer to situations in which you cannot realize your wishes, goals or plans in the way you would like to. Please tell me for each one of them whether the statement does not apply at all, rather not apply, partly apply, rather apply or completely apply to you. The more difficult a goal is to achieve, the more desirable it often seems to me.

th20001 Generalized values: creativity (self-direction)

***[ATTENTION: There are several question formulations for this variable – see the Variable Search or Survey Instruments for detailed information!]* Now I will briefly describe a few people. Please tell me in each case how similar or dissimilar the described person is to you. You can grade your answer: This person is very similar to me, is similar to me, is rather similar to me, is a little bit similar to me, is not similar to me, or is not similar to me at all. It is important for him to develop new ideas and be creative. He likes to do things in his own original way.**

t421020 Share of persons from the same country of origin in neighborhood

***[ATTENTION: There are several question formulations for this variable – see the Variable Search or Survey Instruments for detailed information!]* In a previous interview you told us that you are <20220P2(LABEL)>, which means that you or your parents were born there. What would you guess, how many people live here in your neighborhood, who also come from <20220P2(LABEL)>?** «In case of further questions please read aloud: 'By neighborhood we mean the entire area around your home, which can be reached by foot at normal speed within five minutes.'»

			by wave

t67810d Ability to handle conflicts: taking on someone else's perspective

[NCS] The following statements describe possible courses of action in different situations. Please rate how well or badly you usually manage to behave in the described way. Being able to take a friend's perspective in an argument and understand his or her point of view. «Only read aloud again if necessary: Do you manage this badly, rather badly, mediocrely, rather well or well?»

t341000 Module Incorporated high cultural capital Intro

At the end of our interview today, we have prepared a kind of 'quiz' this time. I will ask you a few questions about art and culture. Some questions are rather simple, some rather tricky. If you don't know the answer, then just enter 'don't know'. «Do not read the answers aloud.»

t30261f Benefit expectation courses and training - getting a job again

Let's briefly come back to courses and training courses: Courses and training courses can have different effects depending on the situation. How much would courses or training courses help you to get a job (again)? Very much, rather much, partially, rather little, or not at all? «Read the options aloud again if necessary.»

t31064a Idealistic aspiration further qualification

So far we have talked about courses and training courses. But in order to advance professionally, you can also acquire a further school-leaving qualification or do a vocational qualification, for example, the school-leaving certificate of a Realschule, the Abitur, vocational training, the master craftsman/craftswoman training or a course of study. If it was up to you, regardless of your professional and private obligations: Would you like to acquire an additional qualification in order to advance professionally? «In case of questions: this also includes a school-leaving certificate of a Hauptschule, a technician training, attendance of a Fachschule, vocational school, university of applied sciences or a doctorate.»

t320105 Friends: expectations 1

I would now like to ask you a few questions about the expectations your close friends have of you. Please answer the questions as best as you can, even if you are not completely sure. If your close friends have no expectations, just say 'have no expectations'. How important is it to your close friends that you get very far ahead professionally? Is this very important, rather important, partly important, rather unimportant or completely unimportant for your close friends?

			by wave

t516200 Left-right classification

In politics you sometimes talk about 'left' and 'right'. Where on a scale from 0 to 10 would you grade yourself, if 0 is left and 10 is right? «If the respondent is not familiar with the terms 'left-wing' and 'right-wing', please enter 'don't know'.»

t34001e_g1 Quantity reading - free time

On average, how much time do you spend reading in your free time every day? «In addition to conventional books and texts in printed form, please also consider e-mails, texts on the internet, e-books or other digital texts. Please enter '0' if you don't read in your free time. If you read more on non-working days than on working days, please indicate the average reading time.»

th2140a Frequency form of mobility by bicycle

Now it's all about how you get from A to B in everyday life. I will list various forms of mobility below. Please tell me how often you usually use them to cover everyday distances. How often do you usually use…' …bicycle or pedelec? ««Please read the options aloud.» « Pedelecs are bicycles with an electric auxiliary motor (which is only active when pedalling and up to 25 km/h), but do not require a license plate or helmet. Colloquially, they are often mistakenly equated with e-bikes; however, owners/users usually know the difference.»

t261908 Volunteer participation

There are many ways to get involved in society outside of work and family. Please think of activities that you perform on a voluntary basis or other social commitment, for example in associations, initiatives, projects or self-help groups. We are talking about voluntary tasks and work that you do unpaid or for a small expense allowance. Thinking about the last 12 months: Have you been socially involved or volunteered? ««It is !!not!! about simple free time activities in clubs and organized groups, but about regular voluntary work. Read aloud if necessary (in case TP is irritated because the question does not fit because of corona): We are aware that there were many restrictions due to the corona pandemic last year. However, for scientific reasons it is important that we ask the same questions every year. Only then can we compare results and see changes over time.»»

			by wave

t261909 Number volunteer activities (open)

There are many different types of volunteer activities. They can range from coaching in a sports club to serving drinks at an event. We are interested in whether you have volunteered for one or more activities and jobs, for example, within a club or organized group. How many volunteer activities have you participated in over the past 12 months so far? ««If the target person participates in more than one activity within a club or organized group: e.g. coaching activities in a sports club and additionally serving drinks at events of the same sports club, please enter the number '2'. The target person can enter as many different activities as he or she wishes. Detailed information is then only available for the three most important activities. Read aloud if necessary (in case the target person is irritated because the question does not fit because of corona): We are aware that there were many restrictions due to the corona pandemic last year. However, for scientific reasons it is important that we ask the same questions every year. Only then can we compare results and see changes over time.»»

t26214a Value of internet use: contacts

We would like to know what you think about the internet - whether you use it or not. Please think of the internet as websites, apps, search engines, etc. that can be accessed via computer, cell phone, tablet and other digital media. It's about you !!personally!!, to what extent do the following statements apply to you? I think the internet makes it easier to stay in touch with family and other people. «« Please read the options aloud. If the respondent is unsure about their answer, e.g. because they don't use digital media or the internet, please say 'Please give your own personal assessment. It is not important whether you use the internet regularly or not.' »»

t34009a Participation in high culture: museum, art exhibition

Now, let's move on to activities that you can do in your free time. How often have you done the following things in the last 12 months?…visited a museum or an art exhibition? «Please mark the applicable answer. We are aware that there were many restrictions last year due to the corona pandemic. However, for scientific reasons, it is important that we ask the same questions every year. Only then can we compare the results and identify changes over time.»

t514001 Satisfaction with life

First of all, I would like to ask you some questions about your current satisfaction with various aspects of your life. Please answer on a scale from 0 to 10. 0 means that you are completely !!un!!satisfied, 10 means that you are completely satisfied. You can gradate your answer with the numbers in between. All in all, how satisfied are you with your life at the moment?

th34310 Writing of 1-page texts (main employment)

The next questions are about whether you need to write anything regularly as part of this occupation. Please think about everything you write, whether you write it down by hand or on a computer or tablet, for example. Do you write texts that are at least one page or longer as part of your occupation? «This means continuous texts of at least one page and not several shorter texts that together make up one page.»

t514658 Pressure: performance pressure

[NCS] When you think of your work as <h_etauswahl>, how often in the last 3 months … … did you have too much work to do? «Read the options aloud if necessary. If the TP indicates that the job has not yet lasted 3 months: 'Please refer to the period of employment up to now'.»

th60002 Digitalization: change in work

If you compare your job as <h_etauswahl> today and two years ago, you are using networked digital technologies today … «Some examples of networked digital technologies are online platforms, e-mails, tablets, cloud services and self-controlled or self-learning computer systems. Do not read aloud: If the respondent has changed his/her job in the last two years, compare the position two years ago with the current one. If the respondent was not employed two years ago, please select 'not employed two years ago'.»

th60007 Automatization: occupational characteristic

So far, our questions about digitalization have mainly concerned the use of networked digital technologies. But we are also interested in another aspect: !!the automatization of work processes!! By this we mean the use of computer systems that determine, evaluate or optimize work processes mostly independently by making their own decisions. What about your work? To what extent are the work processes at !!your workplace!! automatized?

t745001 Nursing last 12 months

We are also interested in how people help each other. The next questions are about help, especially care services you have provided for people in your environment. Since our last interview in <20101P3(intmPRE / intjPRE)>, have you taken care of/nursed a person privately or voluntarily due to bad health and/or have you regularly helped the person? «We do not mean professional care activities, e.g. of nurses for the sick or elderly, as part of their professional activities.»

t741001 Household size

Now a few questions about your household. How many persons are currently living with you in one household - including yourself and the children? «(if h_cohort = 6) In case of uncertainty: This refers to all persons who live and run the household together with you. (if h_cohort = 4) In case of uncertainty as to who belongs to the household: this refers to all persons who live and run the household together with you. If it is unclear whether your own household or that of your parents is meant, if you already have your own household: the questions refer to your own household.»

t32600a Position generator: nurse

I will now read some professions to you. Please tell me in each case whether you know a person in your personal environment who is currently working in such a profession in Germany. By personal environment I mean, for example, your partner, your family or relatives, your friends, colleagues at work or other acquaintances. Do you know a nurse in your personal environment? «Your physician or tax consultant, for example, only belong to the personal environment if you have a relationship with these persons that goes beyond the business relationship.»

t517400 Social belonging/social exclusion

You may feel that you are part of society and that you belong to it, or that you feel excluded. What about you? To what extent do you feel more like belonging or excluded? Please answer on a scale from 0 to 10. '0' means that you feel completely excluded from social life, '10' means that you feel completely belonging to it. You can gradate your answer with the numbers in between.

t516400 Understanding of Democracy: free elections

I would like to ask you some questions about democracy. There are no right or wrong answers. Please tell me what you think personally. How important you think is it for democracy in general that the elections of the national parliament are free and fair? Please answer on a scale from 0 to 10. '0' means 'not at all important for democracy in general' and '10' means 'extremely important for democracy in general'. You can gradate your answer with the numbers in between.

t41203a Interaction language friends

Now it is about what language you currently speak with others. What language do you speak with your friends in Germany? «Read the options aloud. Please select 'mostly another language, but sometimes also German' (value 3) or 'only another language' (value 4) even if the respondent states that he/she speaks several non-German languages with the persons. If the respondent answers here with 'equally often', then please ask for the tendency. If no classification can be found, then please select button 'equally often German and other language'. If the respondent states that he/she has only female friends or only male friends, then he/she should refer to the corresponding group. Gender is not relevant.»

th90001 Informed consent transmission of address and contact data

Finally, one more aspect. In order to ensure the continuity of this particular study in the future, we would like to ask you today for permission to transfer your address and contact data to the Leibniz Institute for Educational Trajectories. Address and contact data are first and last names as well as home addresses, telephone numbers, and e-mail addresses that you have provided to us. The following also applies to the Leibniz Institute for Educational Trajectories: Your data will be stored in a secure environment and used in the same way as by infas to contact you. Your consent to the transfer is, of course, voluntary. You can withdraw your consent at any time. You will find the contact details in the cover letter you received in advance. Do you agree that your address and contact data can be transmitted to the Leibniz Institute for Educational Trajectories? ««In case of questions regarding data protection: 'The information from the data protection sheet you have already received continues to apply. For the time being, your address and contact data will remain with infas. You will be informed again for transmission.' 'For questions regarding withdrawal: Please contact Dr. Angela Prussog-Wagner at infas at the free telephone number 0800/664 7436 during normal office hours if you have any questions.'»»

th90002 Informed consent scientific use of address and contact data

In order to understand educational and life paths even better, we would like to use your address and contact data for scientific purposes. We would like to use this data, for example, to examine whether people are willing to travel longer distances for their vocational training or further education. For this purpose, your addresses are converted into geocoordinates in order to calculate distances. From the first names, for example, we can see whether there are also clusters of people with the same first name in certain occupational groups. The information resulting from this data cannot be used to draw any conclusions about your person. The address and contact data will not be passed on to third parties. Your consent to scientific use is, of course, voluntary. You can withdraw your consent at any time. You will find the contact details in the cover letter you received in advance. Do you agree that your address and contact data may be used for scientific purposes? ««In case of questions regarding data protection: 'The information from the data protection sheet you have already received continues to apply. For the time being, your address and contact data will remain with infas. You will be informed again for transmission.' 'For questions regarding withdrawal: Please contact Dr. Angela Prussog-Wagner at infas at the free telephone number 0800/664 7436 during normal office hours if you have any questions.' 'For question 'What is a geocoordinate?': 'A geocoordinate consists of two numbers, a longitude and a latitude, describing a geographical point on a map. For example, the geocoordinate of the Brandenburg Gate is approximately 51 degrees north latitude and 13 degrees east longitude.' For question 'What could be researched with contact data?' 'First names, for example, are grouped by their regional name origin. The resulting groups are made available to researchers for analysis. The first names themselves are not disclosed.'»»

th28864 Intro Retirement

***[ATTENTION: There are several question formulations for this variable – see the Variable Search or Survey Instruments for detailed information!]* You told us earlier that you were retired. Here we would like to check again. Do you currently receive pension payments such as a statutory pension or state pension, a widow's pension or a disability or invalidity pension?** «This also includes invalidity or disability pensions, partial pensions and widower's pensions. Members of the chambered liberal professions (doctors, pharmacists, architects, tax consultants) must pay into the professional pension scheme. This pension corresponds to the statutory pension for employees.»

th2866c Type of pension - widow's pension

[MF] Some people receive one type of pension, others receive several pensions at the same time. What about you? What pensions do you currently get? ▹ a widow's pension «Multiple answers possible. Read the options aloud. Members of the chambered liberal professions (doctors, pharmacists, architects, tax consultants) must pay into the professional pension scheme. This pension corresponds to the statutory pension for employees.»

th28868 Private and company pensions

As well as state pensions, there are also private pensions or company pensions which are partially subsidized by the state. Are you receiving monthly allowances from one or more private or corporate pension funds? «In addition to private pension insurance, this also includes state-subsidized pension insurance such as the Riester pension or Rürup basic pension. It also includes, for example, the Federal and State Government Employees Retirement Fund (VBL), the supplementary pension scheme of the Federal Government and the Federal States, and the company pension scheme provided by companies.»

th32215 Into Partial retirement

***[ATTENTION: There are several question formulations for this variable – see the Variable Search or Survey Instruments for detailed information!]* Let's talk about partial retirement. Some people take partial retirement before retirement. What was your situation? Did you take partial retirement before your retirement?** «Partial retirement is a way of preparing for the transition to retirement by reducing working hours or prematurely termination of working.»

			by wave

th34397 Screening Employment

The questions in this online survey differ depending on your current life situation. Therefore, please first indicate once again whether you are currently !!mainly!! employed. Are you currently !!mainly!! employed? By employment we mean any remunerated occupation, including • a Volontariat • a trainee program • marginal employment (also known as a mini-job) or • an assisting job/ a temporary job. This does not include vocational training, vocational preparation measures, voluntary service, military service, service contracts, vacation jobs, internships and volunteer work. «Please mark the applicable answer.»

			by wave

th34398_O Main employment episode

The following questions are about your current occupation. Please specify your current occupation. «If you have several occupations, please enter your main occupation, e.g. the one with the highest number of hours, in the free field. Please enter a professional title that is as precise as possible, e.g. not 'mechanic', but 'precision or motor mechanic'; not 'teacher', but 'history teacher at Gymnasium'. If it is a temporary employment occupation, please enter the predominant occupation with the same temporary employment agency.»

t30367a General need courses trainings

Would you have liked to take part in (possibly additional) courses or training programs in the last 12 months? We are only interested in courses or training programs that you ultimately did not attend. On the one hand, we are interested in courses or training programs that you would have liked to have attended out of professional interest. On the other hand, we are also interested in courses or training programs that you wanted to do for yourself, e.g. a cooking course, language course or a trainer course. «Please mark the applicable answer.»

t521052 Healthy Days – limitations in everyday activities

And on how many days in the last 30 days, were you impaired by your physical health or your psychological condition in carrying out your daily activities? Please think about activities such as self-care, work or recreation. «If you did not feel unwell 'on any day' because of your physical health or your mental health, please enter 0. If you felt unwell 'every day' or 'all the time' because of your physical health or your mental health, please enter 30.»

ts23215 Employment in the 2nd job market

Was this a one-euro job or an occasional job? «If anything is unclear: !!One-euro jobs or occasional jobs!! are jobs that are free of social insurance contributions with additional expenses compensation for the unemployed. The additional expense compensation is granted as a supplement to unemployment benefit II. However, this job does not create a regular employment relationship. There are different names for occasional jobs, e.g. also expenses-compensational occasional jobs, occasional jobs with additional expenses compensation, AGH-MAE, MAE jobs, additional jobs. If respondents name labor market measures (ABM), include them as occasional jobs. Since 1 April 2012, no new labor market measures have been funded and can no longer be included separately here.»

t320705 Expectations Partner 1

***[ATTENTION: There are several question formulations for this variable – see the Variable Search or Survey Instruments for detailed information!]* I would now like to ask you two more questions about the expectations your partner has of you. Please answer the questions as best you can, even if you are not quite sure. If your partner has no expectations, just say 'has no expectations'. How important is it to your partner that you get very far ahead professionally? Is it very important, rather important, partly important, rather unimportant or very unimportant for your partner?**

Label	Code	#
