# 1 Overview

The documents in this collection are generated from programming masters (CATI and CAPI). The variable names used here can also be found in the data files. These versions are based on the field version, augmented with the names of the variables and the numeric values. The field versions can be found in the corresponding column “Startkohorte 6: Erwachsene (SC6), Wellen 2 und 3, Erhebungsinstrumente (Feldversion)” (only available in German). If you want to work with data, you should choose the SUF-Version at hand over the field version. The material corresponds to Version 3.0.1 of the Scientific Use File (SUF) for Starting Cohort 6 (SC6) (doi:10.5157/NEPS:SC6:3.0.1).

The sample of the Starting Cohort 6 consists of a subsample, which was surveyed in 2007/2008 before the foundation of the National Educational Panel Study (NEPS). This survey was conducted by the Institute for Employment Research (IAB) under the name of “Working and Learning in a Changing World” (ALWA). Information from the integrated research data can be found in the codebook available. The two panel waves documented here continued under the aegis of the NEPS. This manual covers the survey year of 2009/2010 and 2010/11 and therefore features data waves 2 and 3 referring to data from the Version 3.0.1 of the Scientific Use File (SUF) for Starting Cohort 6 (SC6).

**Figure 1:** Surveys of Starting Cohort 6 and IDs of the instruments

Figure 1 gives an overview of the questionnaires that were applied in the two survey waves 2 and 3. The National Educational Panel Study (NEPS) collected data from November 2009 to June 2010 for the first time data (wave 2) by taking over targets from the ALWA study (those with panel willingness) and by refreshing and piling up the original ALWA sample to older birth cohorts (first-time interviewees). The third wave had been conducted in 2010/2011 by NEPS, asking those groups once again.

This call is about the survey ""Arbeiten und Lernen im Wandel (ALWA)""(Working and Learning in a State of Flux) of the National Educational Panel Study. About two years ago you took part in this study. At that time you gave us the permission to contact you anew. The survey „Arbeiten und Lernen im Wandel“ is being conducted by infas in conjunction with the Institute for Labor Market and Job Research (IAB) in Nuremberg and the coordination center of the National Education Panel Study (NEPS) at the Otto-Friedrich University of Bamberg. Due to your assistance and the participation of several other people from all over Germany we already learned a lot about adults' life cycles in our country. We would like to know how the life of the people that we interviewed earlier continued. Therefore we need your experience again. We ask you to tell us about the further development of your life since the last interview which took place about two years ago. Your repeated participation is very important for the survey and as a small gratification for you taking part you receive 10 euros. Infas gives you the guarantee that all the information you give will be treated confidentially and anonymous, which means that it will be analyzed separated from your address. All the staff of the infas institute is committed to silence. Any use for other purposes as for this survey is out of question. The participation in this survey is voluntary. If you do not take part there will be no disadvantages for you. &lt;&lt; See application letter and privacy policy &gt;&gt; The 10 euros will be send to you with a letter of thanks by post after the interview and within the next 3 weeks. Your personal contact person at infas is Mrs. Dr. Angela Prussog-Wagner and you can reach her under the phone number 0800 – 66 47 436 (at no charge) or via e-mail: neps8@infas.de. The aim of this study is to research lifelong career and developmental paths of adults in Germany. We are particularly interested in assessing the roles played by vocational training and jobs. During the interview we will discuss various areas related to your educational and professional career; e.g., school, vocational training, employment, unemployment, health and family. To show our appreciation for your participation in the survey, you will receive 10 euros. infas guarantees that all the information you provide will be treated with the strictest confidence and will remain anonymous; i.e., will be kept separate from your address. All employees of the infas institute are obliged to maintain secrecy with regard to the survey. The data collected cannot be used for any purpose other than this survey. Participation in the survey is voluntary. Non-participation will not disadvantage you in any way.</p> <p>--in:</p> <p>&lt;&lt;See letter and data protection statement. Regarding questions as to where we obtained the address: Your address was selected - together with many others - from your municipality's register of residents by way of random statistical selection. Your telephone number was obtained using the local telephone directory. Regarding questions as to who is conducting the study: The study is part of the National Educational Panel Study. The National Educational Panel Study (NEPS) is based at the University of Bamberg and encompasses renowned research institutes such as the Institut für Arbeitsmarkt- und Berufsforschung (IAB) [Institute for Employment Research] in Nuremberg and the Wissenschaftszentrum Berlin für Sozialforschung (WZB) [Social Science Research Center Berlin]. Regarding questions regarding sources of further information Your personal contact at infas is Dr. Angela Prussog-Wagner. She is available at the following telephone number: 0800 – 66 47 436 (toll free), or via email. Regarding questions regarding the 10 euros: The 10 euros will be sent to you with a letter of our gratitude following the interview.</p> <p>--we</p> <p>1: continue</p> <p>--end--</p> |

As you know, one sometimes has to read very accurately and slowly, sometimes rather fast. Our first exercise book is about fast reading. If you are normally wearing glasses, you should also wear them now.</p> <p>--in:</p> <p>&lt;&lt;Take out the fast reading exercise book, note ID of the target person on cover page. The content of the phrases is not always correct. It is your task to indicate for each phrase whether it is correct or false by ticking boxes. You may find the phrases pretty easy, sometimes also funny. But please do not think too much about the content of the phrases. What matters during reading is rather speed and less knowledge. To explain you the task, let us look at the two examples on page 3 together. I will read the examples aloud, please read along silently. Please continue to page 3 now!</p> <p>--in:</p> <p>&lt;&lt;Answer additional questions of the target person in the following. Please have target person continue only to the examples on page 3.&gt;&gt;</p> <p>--we (2627 ; Weiter zum nächsten Bildschirmseite, 1-stufig)</p> <p>1: Continue with the next screen page</p> <p>--end--</p> |

You see two boxes behind the phrase. If a phrase is true, please tick the left box, if it is false, please tick the right box. Now what would you tick for this phrase? Example 2: cats and mice are part of the family of fish. If you have ticked the false answer once, simply paint over the wrong cross clearly and then tick the correct solution again. The ticking does not have to look very beautiful but it should be done quickly. There are many such phrases on the next two pages. Please work through the phrases as explained just before. If you are done with one page, go directly to the next page. You have two minutes in total. Please read accurately and try to work on as many phrases as possible.</p>  |

|       | <p>First, we would like to give you a few clues to fill out the exercise book. • Please read the texts or the exercises carefully and then answer the pertaining questions. You may always look up information in the text! • There are four types of questions. In the following you will see how you can answer these questions. 1. There are questions for which we give you several answer options out of which only one is correct. Please clearly tick the box next to the correct answer in case of these questions. Now please look at the respective example on page 3 (top). 2. In case of another question type, you need to decide for different statements whether each of them is true or false. Therefore, please tick in each line either «yes» (or «true» or «right») or «no» (or «false» or «not correct»). Now look at the respective example on page 3 (bottom). 3. For some questions, you should match different headlines with paragraphs or put results in the right order. Therefore, you need to put the right letters in the respective fields. Please have a look at the pertaining example on page 4 (top). 4. If there is a solution field, please insert your solution in it ! Now look at the respective example on page 4 (bottom). • If you wish to correct your solution at some point, clearly paint over the wrong cross or the wrong answer. Then, tick the correct solution anew and/or write a new result in the solution fields ! Please have a look at the respective example on page 5. • Please work on the texts and questions in the order given in the exercise book. • In case you are not able to answer a certain question, simply continue with the next question. If there is still time at the end, you can of course go back to the skipped questions. Some of the questions are rather easy and others rather difficult; hence, you will probably not be able to answer all questions. Please do not be confused, hardly anyone is able to answer all questions. It is important that you also try to answer difficult questions as well as possible. You may also use the calculator for the questions. Should you be ready prior to the end of the given time, you have the possibility to check your solutions once again. Then, please let me know that you have arrived at the STOP page (page 27). Do you have any further questions?</p> <p>--in:</p> <p>&lt;&lt;Answer questions on instructions if needed. This exercise book is about reading. In everyday life, there are many different occasions and opportunities to read, e.g. reading newspapers, journals, information brochures or websites. Everywhere people can inform themselves, learn interesting things or simply read for pleasure. On the following pages you find five different texts and questions about them. For all texts and questions, you have half an hour in total to work on them. Please try to work on the exercise book without interruption. I will read the instructions from page 3 to you so that you know how to answer the questions. Please open the exercise book and read along.</p> <p>--in:</p> <p>Take out reading exercise book, insert person ID on cover page. Distribute exercise book. |       | <p>--fr: (16788 ; Anleitung Lesen)</p> <p>First, we would like to give you a few clues to fill out the exercise book. • Please read the texts or the exercises carefully and then answer the pertaining questions. You may always look up information in the text! • There are four types of questions. In the following you will see how you can answer these questions. 1. There are questions for which we give you several answer options out of which only one is correct. Please clearly tick the box next to the correct answer in case of these questions. Now please look at the respective example on page 3 (top). 2. In case of another question type, you need to decide for different statements whether each of them is true or false. Therefore, please tick in each line either «yes» (or «true» or «right») or «no» (or «false» or «not correct»). Now look at the respective example on page 3 (bottom). 3. For some questions, you should match different headlines with paragraphs or put results in the right order. Therefore, you need to put the right letters in the respective fields. Please have a look at the pertaining example on page 4 (top). 4. If there is a solution field, please insert your solution in it ! Now look at the respective example on page 4 (bottom). • If you wish to correct your solution at some point, clearly paint over the wrong cross or the wrong answer. Then, tick the correct solution anew and/or write a new result in the solution fields ! Please have a look at the respective example on page 5. • Please work on the texts and questions in the order given in the exercise book. • In case you are not able to answer a certain question, simply continue with the next question. If there is still time at the end, you can of course go back to the skipped questions. Some of the questions are rather easy and others rather difficult; hence, you will probably not be able to answer all questions. Please do not be confused, hardly anyone is able to answer all questions. It is important that you also try to answer difficult questions as well as possible. You may also use the calculator for the questions. Should you be ready prior to the end of the given time, you have the possibility to check your solutions once again. Then, please let me know that you have arrived at the STOP page (page 31). Do you have any further questions?</p> <p>--in:</p> <p>&lt;&lt;Answer questions on instructions if needed.
